

Health Science

- Molecular epidemiology of extended-spectrum B-lactamase (ESBL) carrying Enterobacteriaceae at ABM University Health Board / Caron Jones. Ph.D. 2012
- From matrons to managers : the role of political influence in the development of nursing in Wales c1948-c1998 / Andrea Jones. Ph.D. 2012
- Study of the dynamics of the private health care market in the United Kingdom with particular reference to the impact of British United Provident Association (Bupa) Provider and benefit initiatives / Robert Gregory Royce. Ph.D. 2011
- Maternal control of early milk feeding : the role of attitudes, intention and experience / Amy Brown. Ph.D. 2010
- Prisoners' mental state : a psychosocial perspective / Nicholas Bowler. Ph.D. 2010
- Children's co-construction of context : prosocial and antisocial behaviour revisited / Amanda Bateman. Ph.D. 2010
- Early diagnosis of sepsis in the acutely ill cancer patient / Shelley Michelle Dolan. Ph.D. 2010
- Women's perceptions of midlife mothering during perimenopause : the impact on health and well-being through life's transitions / Patricia Ann Morgan. Ph.D. 2010
- Women's experience of decision-making regarding medication abortion / Joyce D. Cappiello. Ph.D. 2010
- Rational suicide : philosophical perspectives on schizophrenia / Jeanette Linda Hewitt. Ph.D. 2009
- Study comparing the consultation practice of Advanced Nurse Practitioners and General Practitioners in Primary Care / H. Paniagua. Ph.D. 2009
- Factors influencing sustaining and reporting inoculation injuries in healthcare professionals undertaking exposure prone procedures / Jayne Cutter. Ph.D. 2009 (This thesis is barred until August 2015 and cannot be used).
- Implementing large-scale healthcare information systems : the technological, managerial and behavioral issues / Taghreed Justinia. Ph.D. 2009
- Action research project to assess the application of the Omaha system for documenting health visiting practice in the uk, and a philosophical examination of its value for facilitating effective clinical decision-making / Jean Rosalind Christensen. Ph.D. 2009
- Action research project to assess the application of the Omaha system for documenting health visiting practice in the uk, and a philosophical examination of its value for facilitating effective clinical decision-making / Jean Rosalind Christensen Ph.D. 2009
- Fear and anxiety as separable emotions : a test of the defensive direction theory / Adam Mitchell Perkins. Ph.D. 2009
- Mechanisms underlying the transfer of functions after evaluative learning / Charlotte Nancy Dack. Ph.D. 2009
- Implementing large-scale healthcare information systems : the technological, managerial and behavioral issues / Taghreed Justinia. Ph.D. 2009
- Narrow content in the philosophy of mind / Mark Davies. Ph.D. 2009
- Implementing positive clinical change : cognitive behavioural group therapy for loners / Cassandra Perry. Ph.D. 2008 (Barred until the end of October 2013 – cannot be used).

- Accomplishing being ordinary : identity talk of people conditionally-discharged from secure forensic settings / Michael Coffey. Ph.D. 2008
- Application of health technology assessment in Egypt : case study using hepatitis C / May Mohamed Elbatran Ph.D. 2008
- Culture of community nursing : an ethnographic study of handover reports / Denise Drew. Ph.D. 2008
- Improving nurse patient therapeutic interactions in acute inpatient psychiatric care through participatory action research / Liam Mac Gabhann. Ph.D. 2008
- Investigation into the relationship between caring, death anxiety and the burnout syndrome among palliative care nurses / Brian Nyatanga. D.Nurs.C. 2011
- Protecting, providing and participating : fathers and their children's unplanned hospital admission / Sue Higham. D,N.Sc. 2011
- Mental health nurses' perspectives on the meaning of hope in working with clients with schizophrenia : a grounded theory study / Tumai Fisherman Jijita. D.Nur.Sc. 2011
- Obligations and responsibilities; an exploration of professional accountability in nursing / Elizabeth Ann Mason. D.Nurs. Sc. 2011
- Can percentage change in measures of cardiac function predict 12 month prognosis in patients with chronic stable heart failure managed in a nurse-led clinic / Julie Ann Walker. D.N.Sc. 2010
- What is the experience of patients with Barrett's columnar lined oesophagus undergoing endoscopic disease surveillance? / Helen Anita Cecelia Griffiths. D.N. Sc. 2010
- Patients' perceptions of factors that affect recovery from illness in hospital / Jennifer Anne Bowen. D.Nurs. Sci. 2009
- Role of the clinical nurse specialist/clinical midwife specialist in Ireland / Sheelagh Wickham. D. Nurs. Sci. 2009
- Gadamerian hermeneutic study of nurses' experiences of recognising and managing patients with clinical deterioration and critical illness in a NHS Trust in Wales / Desiree J.R.Tait. D. N. Sc. 2008
- Resistance to organizational change in Saudi private and public hospitals / Saleh Nasser Al Omair. M.Phil 2011
- Assessing the effect of IFT and exercise therapy on OA knee / Craig Dyson. M.Phil. 2010
- Global meaning and emotional expressivity as possible protective and mediating factors to mental health status and psychological adjustment to breast cancer / Fotios Anagnostopoulos. M.Phil. 2008

Medicine

- Candida CYP52 : alkane and fatty acid metabolism / Claire Louise Price. Ph.D. 2012
- Neuroimmune modulation of the circadian clock / Amy Louise Beynon. Ph.D. 2011
- Gastro-duodenal oesophageal reflux induced NFkB signalling in oesophageal adenocarcinoma / Elizabeth McAdam. Ph.D. 2011

- Novel behavioural and molecular determinants and indicators of attention deficit/hyperactivity disorder in adults Alison Louise Baird. Ph.D. 2011
- Modulators of receptor for advanced glycation end products signalling in the human endometrium / Amy Katherine White. Ph.D. 2011
- Case study of people's experiences of genetic investigation for inherited epilepsy : Lessons for future service delivery / Carrie Louise Hammond. Ph.D. 2010
- Implementing and evaluating routine glutamic acid decarboxylase auto-antibody (GADA) testing for people with diabetes in Primary Care / Helen Davies Ph.D. 2010
- Perceptions of health care professionals to change in endoscopy units: a qualitative study guided by Social Worlds Theory / Anne C. Seagrove Ph.D. 2010
- Characterisation of Staphylococcus aureus from South West Wales : Comparison of SCCmec-orfX amplification methods and genotyping of clinical isolates including Panton-Valentine Leukocidin-positive strains / Naledi Betsi Bome-Mannathoko. Ph.D. 2010
- Assessing the excess Health Service utilisation and direct medical costs of injuries / Steven Michael Macey. Ph.D. 2010
- Use of novel digital power supply to drive laser systems / Daniele Doneddu. Ph.D. 2010
- Magnetic induction tomography for imaging cerebral stroke / Massoud Zolgharni. Ph.D. 2010
- Role of the Wilms tumour suppressor gene (WT1) during human decidualization / Christopher H. Lucas. Ph.D. 2010
- Effect of maternal atopy on chemokine production during pregnancy and at birth, and the production of and response to thymic stromal lymphopoietin in the adult and cord circulation / Trisha Victoria Macfarlane. Ph.D. 2010
- Assessment of the genotoxicity and cell survival abnormalities in Barrett's oesophagus / Zakaria Salih Eltahir. Ph.D. 2009
- Thermal stress in the Antarctic clam laternula and the temperate mussel mytilus / Manuela Truebano Garcia Ph.D. 2009
- Optimising output dosimetry of a broadband pulsed light source for removal of unwanted hair / Caerwyn Ash. Ph.D. 2009
- Molecular and biophysical characterization of the glycinergic inhibitory system / Seo-Kyung Chung. Ph.D. 2009
- Mediator auto-regulation controls differentially expressed Ssn6-Tup1 targets / by Nurul Huda Hamidi. Ph.D. 2009
- Mitochondrial DNA variation and type 2 diabetes mellitus in a population from the United Arab Emirates / Arif A. Kalantar. Ph.D. 2009
- Testosterone metabolism in the human endometrium : a combination of metabolic (mass spectrometry) and enzyme expression (RT-PCR) / Angela Elizabeth Taylor. Ph.D. 2009
- Development of a diagnostic tool for cutaneous melanoma using fluorescence induced by the topical application of 5-aminolevulinic acid / Anna-Victoria Giblin. Ph.D. 2009
- Assessment of the genotoxicity and cell survival abnormalities in Barrett's oesophagus / Zakaria Salih Eltahir. Ph.D. 2009

- Morphological and molecular changes in Syrian Hamster embryo cells in response to complex carcinogens / Damien Michael Breheny. 2009 Ph.D.
- Analysis of SEDS proteins and their cognate PBPs in *Streptomyces coelicolor* / by Bhavesh V. Mistry. Ph.D. 2008
- Genotoxicity assessment of andrographolide / Yusrizam Sharifuddin. Ph.D. 2008
- Independent evaluation of the NHS modernisation agency's "modernising endoscopy services" project using routinely collected, service-related endoscopy data/ Kymberley Thorne. Ph.D. 2008
- Investigations into the osmotic stress response mediated by OsaB in *streptomyces coelicolor* A3(2) / Lorena Teresa Fernandez Martinez. Ph.D. 2008
- Study of Rydberg gas chemistry by fast flow glow discharge mass spectrometry / Paul Michael Dickinson. Ph.D.2008
- Molecular analysis of inflammation, oxidative stress, and gastric carcinogenesis : signal transduction and gene expression changes / Dalia Saidely. Ph.D. 2008
- Investigation of archived accurate mass data in mass spectrometry / Mesfer Mohamed Alamri. M.Phil 2010
- Identification of dead regions within the cochlea using Threshold Equalising Noise test (TEN) in patients who had chemotherapy with platinum based drugs / Sandeep Berry. M.Phil. 2010
- Rhinospirometry and valve stabilised rhinospirometry as a means to evaluate the benefit of nasal septal surgery / David MacDonald Joseph Owens. M.Phil. 2010
- Thermal stress in the Antarctic clam *laternula* and the temperate mussel *mytilus* / Manuela Truebano Garcia Ph.D. 2009
- Gene deletion studies in analysis of the role of cytochrome P450 in flavin metabolism in *Streptomyces soelicolor* / Lara Martin Sanchez. M.Phil. 2009
- Reprimo G>C and P53R2 C>G single nucleotide polymorphisms and colorectal cancer-a case-control disease-association study/ William D. Beasley. M.Phil. 2008
- Role of curcumin in Barrett's oesophagus and an assessment of its toxicity in the oesophageal cancer cell line / Nihit Rawat. MD 2011
- Functional analysis of a STAT6 genetic polymorphism / Renate Homewood. M.D. 2010
- Biological tools in the diagnosis of lung cancer / Robin Ghosal. MD 2010
- Mini perspective : can the Mental Illness Needs Index estimate service need for common mental disorders in primary care? / Ann John. M.D. 2010
- Anti-tumour activity of docetaxel and bisphosphonates in hormone refractory prostate cancer / Rachel Jones. M.D. 2009
- Impact of bariatric surgery on the metabolic syndrome, obstructive sleep apnoea and heart rate variability in morbidly obese patients / Imran Alam. M.D. 2009
- Sleep disordered breathing and cardiovascular dysfunction / John Amit Benjamin. MD 2009
- Expression of L-selectin ligands in the human endometrium: comparison of fertile and infertile patients / Lavinia Margarit. MD 2009

- Immunology of intrauterine growth restriction / Uma Rajesh. MD 2009
- Use of the VES (vulnerable elder survey)-13 screening tool to predict toxicity of chemotherapy in the elderly / Satish Kumar. M.D. 2008
