

HEALTH & WELLBEING FAYRE PILOT

VALE OF GLAMORGAN

NEED

As part of First Contact
Practitioner Health Promotion
work stream, a need was
identified to facilitate lifestyle
changes within patient groups
and the wider community in a
sustainable and cost-effective
way.

2 DISCUSS

Discussions were held at GP cluster meetings and with individual patient groups, identifying that, post-COVID-19, many individuals are reluctant to formally attend healthcare or leisure facilities. Furthermore, individuals have become disengaged with virtual interactions.

3 EXPLORE

Options to facilitate community engagement and information sharing were explored, including GP cluster-specific webpages and successful community-run initiatives.

DEVELOP

Co-production of an event via a survey to explore the specific needs of the Vale of Glamorgan was undertaken (55 responses). **Collaboration** was sought between local groups and services.

Peer Support was targeted through the sharing of positive experiences.

, ,

EVENT

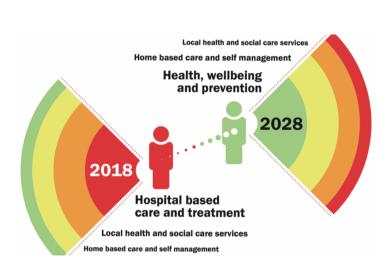

A Health an Wellbeing Fayre was organised and delivered on the **16th** May 2023, between 10am and 5pm at Barry Memorial Hall. It included, 45 stalls, 12 workshops, and Walking Aid Amnesty.

PRIORITISING THE NEEDS OF THE LOCAL COMMUNITY

Aims of the event:

- Be proactive!
- Promote physical, mental, and overall health and well-being within the local community
- Demonstrate the variety of options available
- Empower self-management
- Provide a cost-effective, common solution to a widespread issue

Event development in line with:

Welsh Government policies

- A Healthier Wales (2018)
- National Clinical Framework: A Learning Health and Care System

Local policy

Tier 1 of Cardiff and Vale
 University Health Board (UHB)
 Rehabilitation Model

Event delivered in partnership with:

- Local community
- Local stakeholders
- Local service providers
- Local volunteer groups

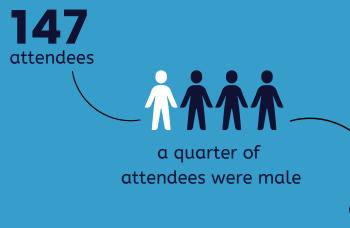

Intended follow-up actions:

- Collate immediate event experience data
- Collate follow-up impact data
- Evaluate connections made between between services and groups, and members of the community

Long-term goal:

 Run multiple annual events at different locations across Cardiff and Vale UHB that evolve from the findings of the pilot work and meet the needs of specific communities

85% of people from CF62/CF63/CF64 postcodes

between 10am and 2pm

Range of stalls rated very

Number of attendees by age

post-event surveys completed

Event rated very good or excellent

good or excellent

Definitely or probably going to make a change

15 people signed up for or are considering joining an exercise class

of people arrived

Reasons for attendance:

Individual:

- To meet like-minded people
- To find out what is going on
- To find out about services
- To increase knowledge

Professional

- Networking
- Feed ideas into own group
- Improve ability to signpost

"Often not aware of what's going on"

"Got to talk to people [pharmacy; The Voice] that normally wouldn't have the chance to"

"Good to have everything in one place"

48
workshop attendances
rated as very good or
excellent

Escape Pain

was the most popular session

6

people on average attended each workshop

Considerations for the future:

- Review advertising approach: potential need for more non-digital approaches
- Review survey structure to maximise evaluation impact: early input from health economist
- Condense event length: target time period that attracted the greatest attendee numbers
- Pre-event emphasis of practical element of workshops: increase number of people prepared to participate

"Learnt a few things"

"Amazing"

"Plenty for all ages"

"Good variety"

REFLECTIONS

"My aim was to create a welcoming space to break down barriers and support the Vale of Glamorgan community to make positive steps to improve their health and well-being."

"Whilst it was challenging to organise (time-wise) alongside my existing clinical role, I was overwhelmed by the enthusiasm for the event from stakeholders, third sector services, and community groups."

100%
would
participate
in future
events

21

exhibitors reflected on the event

86%
decided to
exhibit to increase
visibility and
awareness
of their service

81%
mentioned the
networking
benefit for their
organisation

100%

felt the event met their expectations

Exhibitor reflections for future events:

- 1. Space out stalls more
- 2. Review announcement system
- 3. Provide WiFi to allow interactive demonstrations
- 4. Condense day: morning better attended
- 5. Improve signposting for workshops
- 6. Increase advertising in the local community

"Overall, I could not be happier with how the day went. Whilst there were some lessons to be learnt, I still believe investing in population health in key. I aspire to run similar health and well-being fayres across Cardiff and Vale UHB, that become annual events that evolve with the specific needs of each locality."

Liz Willey, FCP Event Organiser
