Swansea University is an ambitious UK University with a long history of working closely with industry, ensuring that courses are relevant to employers’ needs and our world-class research has a real impact on global issues.

This guide will introduce you to the University, highlighting our academic colleges, courses and campus environments which have already attracted staff and students from over 130 different countries.

**OUR RESPONSE TO COVID-19**

We are working hard to ensure we can offer students a study solution that allows you to stay on track, whether blended learning in the UK or online from home until you can travel to join us in person. When you join us in Swansea the campus may look and feel a little different to normal as some social distancing will still be in place and there will be smaller class sizes to protect staff and students.

Hand sanitiser stations have been installed across campus, one-way systems mapped out in buildings and increased cleaning of high-contact touch points is in place to ensure the safety of students and staff.

**IMPORTANT INFORMATION**

This guide was printed in the summer of 2020. We have made every reasonable effort to ensure that the information provided is accurate as at the date of publication. However, some changes, for example to programmes, study location, facilities or fees may become necessary due to legitimate staffing, financial, regulatory and academic reasons. We will endeavour at all times to keep any changes to a minimum and to keep prospective students informed appropriately. Any changes to the information contained in this guide can be found on our website.

**UNDERGRADUATE:**

Welcome
Vice-Chancellor, Professor Paul Boyle

My very first academic role was as a young lecturer in the Department of Geography at Swansea University, and I can personally say that the quality of the education and nurturing environment here is hard to find elsewhere.

Our University has evolved greatly over the years, but our principles remain the same. We are a diverse and inclusive institution, and are proud of our staff and students from all corners of the world. We put our people first and our international students contribute greatly to our vibrant student community.

We are committed to providing a fantastic learning experience, complete with the support, teaching and expertise that ensures that our students become the highly-skilled graduates of the future. Our teaching is shaped by our world-class research and we offer a range of excellent student support services, including our dedicated International@CampusLife team.

Now more than ever, the safety and wellbeing of every student is at the heart of all that we do. Our campuses’ enviable position on the beautiful Swansea Bay provides ready access to the beach, and our Singleton Campus is set against a backdrop of rolling parks and botanical gardens. Together, these offer our students plenty of opportunities for social interaction within safe, open spaces.

For all of these reasons and more, we were recently ranked sixth out of all universities in the UK for student satisfaction, on the basis of feedback from our own students. I hope that my faith in our University is clear, but don’t just take my word for it – please attend one of our open days to find out more.
Energy and Power Industries

Comprising of the petroleum, gas, electrical, renewable and alternative energy industries, this sector is fundamental to social and economic infrastructures. We offer a range of programmes aimed at preparing graduates for a variety of roles in this dynamic and rapidly growing sector:

- **Power Engineering and Sustainable Energy**
  This postgraduate programme places a strong emphasis on state-of-the-art semiconductor devices and technologies, advanced power electronics and drives, and advanced power systems allowing graduates to extend their technical knowledge and fast-track their career.

- **Law in the Energy Sector**
  Within the expanding energy sector, legal professionals are required to deal with diverse topics such as intellectual property rights for new oil and gas technologies, complex joint venture contracts, and compensation regimes for pollution liability. Our LLM in Oil, Gas and Renewable Energy Law presents students with the opportunity to gain expertise in this vital and rapidly changing area.

- **Materials Engineering**
  Our Materials Engineering programmes equip graduates to 21st Century engineers prepared to meet the environmental challenges of industry and society by developing innovative and novel technology, in collaboration with industry, that transforms buildings into power stations by enabling them to generate, store and release their own solar energy. Our Materials Science and Engineering programmes will give you knowledge on the structure, mechanical performance and functional properties of materials that can be applied in the energy sector.

- **Geography**
  Within our Department of Geography there are a range of subjects to help students develop an in-depth knowledge of the scientific issues underpinning environmental change and ecosystem dynamics.

- **Chemistry**
  If you are passionate about the environment and see your future career in this area, you will get the opportunity to undertake project work with staff developing clean water and sustainable forms of energy.

- **Physics**
  Our Physics programmes give you the framework to describe and understand energy and power production, and the tools to use the power of mathematics to solve technical problems. The core areas and the practical work we offer prepare you well for a career in this industry.

Our graduates have gone on to work as:
- Nuclear Engineer
- Petroleum Engineer
- Civil Engineer
- Solicitor
- Surveyor
- Geographical Data Processor
- Development Manager

**Transport and Logistics**

Playing a critical role in any economy, this sector encompasses a range of jobs that ensure the smooth delivery of goods and services:

- **Languages**
  Vital in ensuring that communications on a global scale are effective and understood, a languages degree gives you the confidence to conduct business in a language other than your mother tongue.

- **Mathematics and Economics**
  Within any company, the analysis and monitoring of any numerical data is vital — be it long term financial predictions, risk analysis or identifying trends. We offer a range of Mathematics and Economics programmes at undergraduate and postgraduate level which will equip students with these skills. Our BSc Actuarial Science programme brings together mathematical, statistical and financial techniques to minimise financial risk in areas such as commerce, insurance, finance and government.

- **Operations and Supply Chain Management**
  Open to students from any background, our MSc Management (Operations and Supply Management) gives students an understanding of how the effective management of resources and overcoming challenges in supply chains can transform a business operation.

Our graduates have gone on to work as:
- Transport Manager
- Operations Manager
- Project Manager
- Risk Analyst
**MEDICINE, HEALTH AND SOCIAL CARE**

Both our College of Human and Health Sciences and Swansea University Medical School offer a number of programmes that are suitable for students looking to enter or progress within this sector, such as:

**Applied Medical Sciences**

Applied Medical Sciences is the science that underpins medicine. Our BSc Applied Medical Sciences provides the ideal springboard for careers in research and innovation, ideally suited for future scientists, biotechnology entrepreneurs and those who desire a more comprehensive understanding of medical science prior to graduate entry into more clinically focused studies such as Medicine.

**Public Health and Health Promotion**

With innovation in public health and health promotion practice at the heart of the programme, graduates in this field have the skills necessary to achieve change and influence health policy at all levels. Our graduates have become public health practitioners, set up their own businesses and followed research careers.

**Psychology**

Validated by the British Psychological Society (BPS) our Psychology programmes allow students to explore the relationship between the mind, brain and behaviour.

**Medical Engineering**

Medical Engineering at Swansea University draws on the exciting medical research taking place within the College of Engineering and the Medical School. The course equips students with engineering skills, whilst also providing the added experience and knowledge of anatomy and physiology, and the ability to communicate with clinicians.

**Medicine**

Our accelerated 4 year medical degree open to graduates of any discipline. The curriculum reflect the way in which clinicians approach patients and how patients present to doctors. From the first term you will gain clinical experience on placement and on successful completion of the course, you will graduate as a Doctor with an MBCh Medicine from Swansea University.

**Population Health and Medical Sciences**

Population Health has been described as “the next big thing in healthcare”. The multidisciplinary approach encompasses medical and life sciences, social sciences, epidemiology, demography, public health and health informatics, ideal for a wide range of careers in Health or for further professional and vocational training, such as Graduate Entry Medicine or healthcare management, education and training, postgraduate studies or research.

**SCIENTES AND PHARMACEUTICALS**

This sector is broad and encompasses careers in chemicals, life and natural sciences to name but a few. A range of our departments offer programmes with pathways into this sector.

**Biochemistry**

We have a number of pathways in this area – including Medical Biochemistry, Biochemistry and Genetics, Medical Genetics, which can be studied as a four-year combined Master’s programmes (MSci). Our Biochemistry graduates find employment in international organisations including major pharmaceutical companies and the biotechnology sector.

**Physics**

Studying Physics provides core numerically literate problem solving skills which are widely applicable to science and industry. The core knowledge you will gain prepares you for a diverse range of careers, and our graduates have gone on to work in areas from theoretical and experimental physics to medical physics, bio physics, and finance.

**Chemistry**

A Chemistry qualification opens the door to a wide range of careers options, both in and out of the lab. Our Chemistry programmes offer modern teaching in purpose built laboratories and modules cover the main branches of chemistry, namely organic chemistry, inorganic chemistry, physical chemistry and instrumental and analytical techniques.

**Computer Science**

We have programmes that are broad ranging or specialised depending on your interests and future career goals. Our degrees will train you for high-level entry into a wide range of careers including software development, internet systems and development for mobile technologies.

**Biology**

We have a range of programmes in this area – including Marine Biology, Zoology, Biochemistry and Genetics. Students across all programmes gain valuable laboratory and field experience giving them a solid foundation from which they might go on to work in clinical or research environments.

**Pharmacy**

The principle of our MPharm (Hons) Pharmacy Degree is to prepare you for future careers as a registered pharmacist. Our approach recognises that Pharmacists are key members of a multidisciplinary healthcare team so you will train alongside Doctors and Nurses. Together with a strong focus on clinical and communication skills and digital technology, you will develop the academic, practical, and personal qualities to practise pharmacy competently and with confidence.

**Our graduates have gone on to work as:**

- Organic Chemist
- Analytical Chemist
- Ecologist
- Research Assistant
- Clinical Lead Pharmacist
- System Analyst
- Software Designer and Engineer
- Web Service Developer

---

**STATE-OF-THE-ART CLINICAL PRACTICE FACILITIES**

Guaranteed interview for graduate entry medicine for students on our pathways to medicine degree programmes (pre-requisite modules and satisfactory grades required)
CAREERS IN...

HOSPITALITY, LEISURE,
GOVERNMENT AND PUBLIC SERVICES

This sector includes a wide range of jobs within areas such as sports, tourism, events, museums and heritage organisations, politics and NGOs, armed forces and civil service. Many jobs will require excellent interpersonal skills, including communication, self-management, team-working and problem solving.

Languages

If you chose to study a language with us you also have the opportunity to learn up to three languages at undergraduate level and focus on the themes of culture, education, teaching English to Speakers of other Languages (TESOL), translation and interpreting, positioning you for a truly global career path. In addition, the Students’ Union has a range of societies dedicated to different languages and cultures, giving you plenty of opportunity to learn more in an informal setting. Amongst these student run societies is also the British Sign Language society which is a fun way to learn a valuable skill which can break down communication barriers for those who are hard of hearing.

Marketing

Contemporary marketing requires analytical skills, numeracy, data management and strategic management as well as creativity in relation to marketing. Our Marketing programmes are tailored to individuals wishing to develop a career in marketing that requires a sound understanding of applied processes, as well as theoretical and academic perspectives.

Tourism

Equip yourself for success in one of the largest industries in the world. The BSc and MSc Management programmes offer a specialism in Tourism that will prepare you for a diverse range of career opportunities in the private, public and charity sectors.

History

Completing a degree in History not only gives you a thorough understanding of the subject matter you have been studying, but a host of transferable skills such as research and analytical skills and the ability to problem solve and make decisions, as well as ways to present your ideas in a range of formats. You will focus on ancient, medieval and modern history and public history and heritage.

Geography

When you study Geography you gain a detailed insight into a huge range of practical, social, economic and environmental issues and the ways in which they are interconnected and vary over time and space. You will be in a great position to acquire roles that tackle social, political or environmental inequalities and challenges. Many of our graduates have gone on to build exciting careers in international aid work, the charity sector and the political sector.

Education

Studying a degree in Education not only prepares you for a postgraduate teaching degree but also careers in education policy and politics, leadership and management, diversity and well-being in education, child development and educational neuroscience. We specialise in educational practice in a digital age, a priority for teachers for the future.

Our graduates have gone on to work as:

• Retail Manager
• Event Manager
• Translator
• Client Relationship Manager
• Teachers and Lecturers
• Heritage and Museum Project Managers
• Government officials and Humanitarian Organisations Workers
• Translators and Interpreters
• Armed Forces and Foreign Office officials

CULTURAL AND CREATIVE INDUSTRIES

Currently providing over 29 million jobs worldwide, this sector includes advertising, design, fashion, film, music, software, video games and TV and radio. Opportunities for developing your skills for this sector are not just limited to our degree programmes; you could also get involved with our student-run:

• Newspaper and magazine
• News website
• Radio station

Media, Communication and Public Relations (PR)

Contemporary marketing, media and PR requires the knowledge of creative media practice including digital and social media, and physical marketing, journalism and professional writing, marketing and PR campaigns and strategy and branding as well as theory. We also offer work placement opportunities in media, journalism, broadcasting and public relations organisations. Our media and PR programmes are tailored to individuals wishing to develop a career in marketing that requires a sound understanding of applied processes, as well as theoretical and academic perspectives.

English Literature and Creative Writing

Undertaking a degree that involves Creative Writing will give you the chance to learn how to write in a range of different styles which can help you grab the interest of future customers, produce a commanding report or clearly explain complex processes and procedures – all skills that employers are looking for.

Computer Science

The practical nature of our programmes in the Department of Computer Science means that students are always having to think creatively to solve the problems that are given to them. This combination of creative problem solving and technical skill can make students very attractive in the job market.

Law and Criminology

Studying a programme in Law or Criminology not only gives you the option of gaining a qualifying law degree or becoming an expert criminologist - you also learn how to carefully construct compelling arguments and communicate with people from a range of backgrounds.

Our graduates have gone on to work as:

• Marketing Manager
• Web Content Manager
• Brand Specialist
• App Designer
• Copywriter
• Cybercrime Researcher
• Policy Writer

SUPPORTING YOU
During your studies

We have a range of services in place to ensure you are supported during your studies ranging from pastoral care, study support and career success.

PASTORAL CARE
You can talk to our CampusLife teams about a range of issues including:
- Welfare
- Disability
- Money
- Wellbeing
- Chaplaincy

STUDY SUPPORT
- Personal tutor assigned to each student
- Maths café
- Centre for Academic Success
- English Language sessions

CAREER SUCCESS
- On-site Careers Team
- Mock interviews and advice on the recruitment process
- Gradintel job matching service
- Swansea Employability Award
- Dedicated Employability Academy
- Opportunities to work as a Student Ambassador

CENTRE FOR ACADEMIC SUCCESS:
The Centre of Academic Success is open to all students, free of charge and provides support to develop your academic study skills.

A range of courses, workshops and one-to-one tutorials are available to help you maximise your potential and develop your confidence.

SWANSEA EMPLOYABILITY AWARD
Unique to Swansea University, the award is formally recognised in your Higher Education Achievement Report (HEAR) and allows four employability modules to be taken.

THE MODULES WILL HELP YOU:
- Find out what you really want to do
- Explore the possibilities
- Plan and make it happen

INDUSTRY LINKS
Swansea University is well connected with industry: we collaborate with a number of commercial and industry partners to develop our research, provide industry placements for our students and to ensure that our course content is relevant to employers.

There’s no better way to find out what being a Swansea University student is like than from our current students!
You can speak to students from 21 countries about your chosen course, accommodation, clubs and societies, sport or anything else you might want to know about living and studying in Swansea
swansea.ac.uk/study/student-life/ambassador-chat/
When you graduate from Swansea University you will join a global network of over 140,000 international alumni. With a growing community of graduates living and working overseas, you will find like-minded friends and colleagues wherever you are in the World. Swansea University has a network of appointed International Alumni Chapters to meet potential students in their country and to ensure graduates stay connected with the University throughout their career.

**IS THERE A CHAPTER IN YOUR AREA?**
Find your nearest Chapter and start growing your network  swansea.ac.uk/alumni/stay-connected/international-chapters

**WHAT IS IT?**
The Swansea University Alumni network is an exclusive network for all Swansea University graduates. The network consists of 140,000 alumni in 160 countries worldwide. The network exists to support the graduates of the University and to help you continue your connection with the University.

**WHAT DOES IT DO?**
- Connect you to our International Chapters
- Help you find alumni mentors to help you progress in your career
- Invite you to our alumni events held around the world each year
- Help you access the careers service after graduation
- Let you know about upcoming Reunions
- Tell you about benefits and services available to alumni
- Send you our Annual Alumni Magazine – SAIL
- Send you email updates with news and developments from Swansea University
Swansea University has two campuses with both located close to the city centre and the beach.

The city of Swansea is medium sized by UK standards and has a modern, cosmopolitan feel. Swansea will be attracting a significant amount of investment in the coming years, with plans currently in place for the development of a 3,500 seat arena and a Digital District - making it a very exciting place to be!

Wales is one of the four countries that make up the United Kingdom (UK). Wales has its own language – the oldest living language in Europe – and the University offers discounted Welsh lessons if you would like to learn!

Wales has an abundance of castles to explore, mountains to climb and delicious local dishes to try – the perfect antidote to a long week of studying. If you would like to find out more about things to do in Wales, we recommend that you visit: visitwales.com

THE CORE, FOOD COURT
The Core provides a warm, cosy interior in the winter and pavement dining in the summer. It is a brand new, modern food court style dining space offering a diverse range of cuisines to suit all tastes.

COMPUTATIONAL FOUNDRY
Completed in November 2018, the Computational Foundry is a world class centre for computational research within the heart of the Bay Campus. The Departments of Computer Science and Mathematics are housed here.

THE GREAT HALL
At the heart of the Bay Campus stands the Great Hall. This £32m facility was designed by the world renowned architect Dr. Demetri Porphyrios. The ground floor houses lecture theatres and break-out teaching spaces, and the first floor a 700 seat auditorium and café bar with stunning views over Swansea Bay.

STUDENT ACCOMMODATION
The Bay Campus is one of the only university campuses in the UK with direct access to the beach and its own seafront promenade. The architecture has been designed to ensure a friendly and collegiate feel, creating a strong sense of community.

SCHOOL OF MANAGEMENT
The School of Management has a thriving student community drawn from around the globe. The School has a dynamic research culture centred around a number of research groups and its students benefit from the expertise of world-leading academics who are involved in teaching at all levels.

TOWER INFORMATION CENTRE
The Bay Campus has a dedicated team to provide assistance with any aspect of student life. Situated under the clock tower, the team can help with visas and immigration, money, health and wellbeing.

LIBRARY AND INFORMATION CENTRE
The Bay Library provides students with access to a range of online journals, e-books and datasets. It has 400 open and social study spaces, and zoned silent study spaces for 150 students. The Bay Library is open 24 hours a day.

THE COLLEGE
The College, Swansea University offers Foundation and supported First Year programmes for international students who require extra support, contact hours and tuition in the early stages of their degree.

TAFARN Tawe
Tafarn Tawe is run by the Students’ Union. Providing fresh, affordable food all day. The venue can also be hired out for events.

ENGINEERING
The College Of Engineering is recognised internationally for its teaching and research. With world class research centres and a supported investment programme, it provides outstanding resources and facilities for teaching, and a superb environment in which to study.

OTHER FACILITIES AVAILABLE
- Students’ Union
- Gym and sports facilities
- Faith space
- Laundrette
- Coffeeopolis coffee shop

VIRTUAL TOUR
swansea.ac.uk/virtual-tour
OUR CAMPUSES

**LAW AND CRIMINOLOGY**
The College aims to encourage and support research of world-leading and international quality, to provide an outstanding student experience and to raise the profile of Law and Criminology.

**SCIENCE**
The College of Science brings science to life through globally excellent and impactful research, passionate hands-on teaching and two-way engagement with the business community. The College is focused on combining the best interdisciplinary research to build a creative community where science can flourish and enhance our world. The departments of Biosciences, Chemistry, Geography and Physics are based on this campus.

**MOSQUE**
Swansea University has an award-winning mosque on campus which is an integral part of life for most of its Muslim students. Our campus mosque is a great way for students to mix with and befriend people from all over the world. It is this diversity that makes it such a unique and interesting place to be.

**ARTS AND HUMANITIES**
The College's exciting and innovative teaching and research enriches its contribution to local, national, and global communities and informs an excellent student learning experience. Arts and Humanities has six departments: Academi Hywel Teifi, Adult Continuing Education, English Language and Literature, History and Classics, Languages, Translation and Communication, and Politics and International Relations.

**HUMAN AND HEALTH SCIENCES**
Encompassing health, nursing, midwifery, social care, social policy and psychology, this College aims to conduct high-quality research that meets the needs of people both locally and globally.

**FULTON HOUSE**
Fulton House is located at the top of the University’s driveway and houses a supermarket, Fulton Outfitters (clothes and gift shop), Post Office, Santander Bank and several food outlets.

**TALIESIN ARTS CENTRE**
Taliesin Arts Centre is a public arts venue which hosts cinema showings of the latest films and live performances by professional music and theatre companies. The award-winning Egypt Centre, based in Taliesin, is home to a collection of over 5,000 Egyptian artefacts.

**ARTS AND HUMANITIES**
The College’s exciting and innovative teaching and research enriches its contribution to local, national, and global communities and informs an excellent student learning experience. Arts and Humanities has six departments: Academi Hywel Teifi, Adult Continuing Education, English Language and Literature, History and Classics, Languages, Translation and Communication, and Politics and International Relations.

**MEDICINE**
Swansea University Medical School is one of the fastest growing medical schools in the UK, combining a distinctive interdisciplinary approach, close collaboration with industry and an emphasis on innovation through technology and research excellence.

**HUMAN AND HEALTH SCIENCES**
Encompassing health, nursing, midwifery, social care, social policy and psychology, this College aims to conduct high-quality research that meets the needs of people both locally and globally.

Accommodation

We have a number of accommodation options available and a dedicated Residential Services team who can assist you.

NEW INTERNATIONAL STUDENTS
Guaranteed University accommodation for your 1st year* subject to accommodation application being received by the 1st August deadline.

LIVING ON CAMPUS:
Living on Singleton Park or Bay Campus residences puts you right at the centre of University life. Self-catering accommodation comprises fully furnished, en-suite and standard rooms with a shared kitchen and dining area – ideal for helping you to settle into student life quickly and easily.

LIVING IN THE STUDENT VILLAGE
Approximately two miles from campus is the Hendrefoelan Student Village. The Village provides self-catering accommodation and shared facilities in flats and houses of varying sizes. If you choose to live in the Village, you will have your own room at an affordable rate that compares favourably with private sector accommodation. Student life at the Village is sociable, supportive and you will benefit from:
• On-site launderette
• Convenience shop
• Regular bus service during term time
• Student bar

FAMILY ACCOMMODATION AT BECK HOUSE
We have a number of family flats at our designated quiet residence, Beck House, approximately one mile from campus in the nearby area of Uplands. Due to the 51-week tenancies, this accommodation is mostly suitable for postgraduate and international students, who may wish to stay in Swansea over the summer.

FINDING THE PERFECT PRIVATE SECTOR HOME
If you’d prefer to live off campus, you’ll be pleased to know that there is a good supply of quality private sector student houses and flats in Swansea. The University’s letting agency, Student Accommodation Services (SAS) manages over 145 properties in areas such as Brynmill, Uplands and Sketty which are within two miles of Singleton Campus and in St. Thomas and Port Tennant areas, close to the Bay Campus. These areas are also close to local facilities such as shops, bars and restaurants.

Our online, searchable database, Studentpad, allows you to locate available private housing in the area and takes the effort out of house-hunting. Search for available accommodation via: swanseastudentpad.co.uk/Home

For more information about accommodation, including length of contract, prices and facilities, visit: swansea.ac.uk/accommodation

NEW INTERNATIONAL STUDENTS GUARANTEED UNIVERSITY ACCOMMODATION FOR 1ST YEAR
*subject to accommodation application being received by the 1st August deadline
**FAQS AND KEY FACTS**

**IF I APPLY FOR UNIVERSITY ACCOMMODATION AM I GUARANTEED A ROOM?**

You need to apply for accommodation by 1st August and fulfil the requirements of your academic offer from the University to be guaranteed accommodation. However, we do not guarantee that you will be allocated your first choice of room.

**WHAT HAPPENS IF I DON’T PAY MY ACCOMMODATION DEPOSIT BEFORE I ARRIVE? WILL I STILL HAVE MY ROOM?**

If you don’t pay your reservation deposit your room will be cancelled and you will not have accommodation when you arrive.

**CAN I BOOK A ROOM WHEN I ARRIVE IN SWANSEA?**

No. Students must book their accommodation in advance. If you arrive on campus without making a booking, you will need to check into a hotel or alternative temporary accommodation, as we may not have a room available or ready for your arrival.

**CAN I REQUEST A SPECIFIC RESIDENCE?**

Yes. You can state your preferences in the ‘additional information’ section on the application form. However, we cannot guarantee that we can meet your request.

**HOW ARE ROOMS ALLOCATED? WILL I BE LIVING WITH STUDENTS ON THE SAME COURSE?**

There will be a mixture of students from various countries living together and studying on different courses. However, we will take into consideration the age of students when allocating rooms.

**CAN I REQUEST ALCOHOL FREE, QUIET, OR SAME SEX ACCOMMODATION?**

Yes. This is available on request and you must specify on your application form if you would like to live in one of these areas.

It is essential that university and private accommodation is booked in advance to avoid any inconvenience on your arrival.

Rates shown are for the 2020/21 session. Please visit our website for information regarding 2021/22 costs.
Swansea University Students’ Union is here to make your student life better.

As a student at Swansea, you’ll automatically become a member of the Union and you’ll have the opportunity to join societies, sports clubs and student media groups.

THE UNION OFFERS:
- Events such as Freshers, Summer Ball and Varsity
- Two bars, one nightclub and four shops
- Support with an Advice and Support Centre
- Nursery on campus

‘Hi I’m Ffion, the President at the Students’ Union. Along with five other Elected Officers, I’m here to represent you and make your voice heard at Uni. We campaign about student issues and hold student forums throughout the year so that you can have your say!’

Ffion Davies, President of Swansea University Students’ Union

International@CampusLife (ICL) help international students, and their families, with a wide range of non-academic matters and are also fully trained immigration specialists.

In addition to their advice services, ICL also run a year round program of welcome and social activities with the assistance of their student volunteer GO!Team.

Think sport...

THINK SWANSEA

At Swansea we pride ourselves on our dedication and commitment to sport and active living. The University’s sports department ‘Sport Swansea’ encompasses all areas of sport and recreation, welcoming every level of sporting ability. We have strong links with a number of National Governing Bodies and professional sports teams including: Swansea City FC (football), Ospreys and Scarlets (rugby).

Students and Alumni can take advantage of great value gym membership which includes:

- Unlimited use of the Gym at both the Sports Village and Bay campus
- Access to FREE fitness classes
- Free entry to racquet sports
- Live and Les Mills virtual from our Virtual Studio

SWANSEA BAY SPORTS PARK FACILITIES

Next to the Singleton Park Campus is the Swansea Bay Sports Park which includes:

- A gym
- Squash courts
- Fitness and spin studios
- Multi-purpose sports hall
- Physiotherapy clinic and soft tissue therapy clinic
- Outdoor tennis courts, playing fields, athletic track and field, sports pavilion and astro turf pitches

The University also offers the Talented Athlete Scholarship Scheme (TASS) with an annual support package worth up to £5,500.

WALES NATIONAL POOL SWANSEA

The Wales National Pool Swansea is home to The Swim Wales High Performance Centre and has been used as a training base for two international Paralympic teams. The pool also runs SubAqua and Surf Fitness classes.

SPORTS FACILITIES AT THE BAY CAMPUS

The Bay Campus features:

- A full height sports hall that can accommodate basketball, badminton, netball, volleyball, fencing and archery
- Fully equipped gym
- A floodlit multi-use games area and half basketball court
- Programmes of beach sports such as rugby, beach soccer, volleyball and beach tennis
- Cycle hire, exercise and jogging routes

HIGH PERFORMANCE PROGRAMMES

We currently offer six high performance sports programmes. Each sport receives expert coaching, sports science services, athlete lifestyle management, physiotherapy and strength and conditioning support. These sports are currently: rugby, football, swimming, hockey, netball and table tennis.

Culture

Swansea is a vibrant centre for art and The Glynn Vivian Art Gallery is widely recognised as the city’s premier venue for art exhibitions. All national museums and art galleries in Wales are free to enter, so you can soak up our history and take up one of many trips organised by Swansea University’s Students’ Union.

THE TALIESIN ARTS CENTRE

The Taliesin Arts Centre sits at the heart of Singleton Park Campus and hosts regular performances, mainstream and alternative cinema screenings, and the award-winning Egypt Centre, home to a collection of over 5,000 Egyptian Antiques.

Music & Festivals

Wales is famed as the ‘land of song’ and as a student at Swansea University you won’t be disappointed by the range of music on offer across the city! Swansea boasts a huge variety of music venues and plays host to a number of music festivals and events throughout the year.

Shopping

Shop big high street names as well as independent boutiques, specialist shops and traditional arcades. You can visit designer boutiques in Mumbles, shop vintage outlets in Uplands or pick up a bargain in Wales’ largest indoor market in the heart of the city.

FIND OUT MORE: swansea.ac.uk/sport

Entertainment

The city by the sea has a poetry all of its own. Swansea’s most famous son, Dylan Thomas said: “Swansea is still the best” and the poet’s legacy is found throughout the city from cafes to pubs to parks.
As a student at Swansea University, there are so many different ways you can develop your international experience even further. Some of our courses include the opportunity to spend a semester or year abroad. You can also take part in one of the many summer programmes available.

Our programmes enable you to expand your global network further and:

• Increase your confidence, self-awareness and maturity
• Develop a global perspective and your intercultural awareness
• Become more resilient
• Improve your communication and language skills
• Develop your transferable skills to help your future career

#SwanseaUniGlobal

YEAR AND SEMESTER ABROAD

Students going on a year abroad may study at a partner university, complete a work placement or teaching assistantship. Options and destinations will vary depending on your course.

Some courses allow you to spend a semester abroad. This is usually during the second year of a three-year degree, but options will vary.

You may need to meet a minimum academic threshold in order to participate in a semester or year abroad programme. Available destinations and associated programme costs vary. For more information, visit:

swansea.ac.uk/goglobal

SUMMER PROGRAMMES

Summer programmes are another way to gain valuable international experience in addition to your degree. You can choose from internships, volunteering, cultural and study programmes in countries such as China, Japan, Zambia, Fiji and across Europe. Visit:

swansea.ac.uk/summerprogrammes

FUNDING

There are a range of funding opportunities available to support students who choose to go abroad - please refer to our website for the latest information:

swansea.ac.uk/goglobal/funding

STUDENT Experiences

MUNKHCHIMEG

Munkhchimeg (MSc Management - Business Analytics) spent a month in Osaka, Japan completing an internship with CRCC Asia:

“It was a great adventure, expanding my knowledge and skills in a new environment. My experience in Japan offered me the opportunity to develop and grow, and has left me with great memories!”

BARTEK

(BA Media and Communication) spent a semester at Nanyang Technological University in Singapore:

“Spending a semester in Singapore as part of my course has boosted my confidence in terms of my future career and employability. The exchange was an amazing and enriching experience.”
FEES AND FUNDING

The tuition fee you pay will depend on your choice of course and classification as either an overseas or home/ EU student. Please note that tuition fees for years after your first year are subject to an increase of 3% for overseas students.

All tuition fees are listed on

- Undergraduate: swansea.ac.uk/undergraduate/courses
- Postgraduate: swansea.ac.uk/postgraduate/taught

INTERNATIONAL STUDENT DEPOSIT
All international students (non-EEA) must pay a £2,000 deposit before we can issue your Confirmation of Acceptance for Studies (CAS) which you will need for your visa application.

OTHER COSTS
In addition to tuition fees there may be further costs such as:
- Visa and Immigration Health Surcharge (IHS) costs – more information visit: swansea.ac.uk/international-campuslife/immigration
- Additional course costs – please check the course pages for additional costs, which are in addition to the course fee and accommodation.

COST OF LIVING
The cost of living in Swansea is relatively low compared to many other cities in the UK. However, it is still vital that any potential student prepares their finances before they attend university. The average student studying at Swansea will spend between £7,000 and £11,000.

The UKVI sets living costs at £1,015 per month for Tier 4 purposes (over 52 weeks) on living costs depending on lifestyle choices.

For more information visit:
- swansea.ac.uk/international-students/my-finances

WORKING WHilst STUDYING
Whether you can work in the UK is dependent on your nationality and type of immigration pathway.

If you are a full-time student on a Tier 4 visa you are permitted to work up to either 10 or 20 hours a week (depending on your course). For most UG/PG and PhD students this would be up to 20 hours. If you are planning on studying on a different visa (e.g. Short term Study Visa, Dependant, Tier 2) you may be able to work. It is important that you check the guidance for your individual pathway.

For comprehensive information around working during your studies visit:
- swansea.ac.uk/international-campuslife

INTERNATIONAL SCHOLARSHIPS

We have a wide range of scholarships available to students who can demonstrate academic and personal excellence. Below are just some of the scholarship schemes available:

UP TO £6,000 INTERNATIONAL EXCELLENCE SCHOLARSHIP
International Excellence Scholarships worth up to £6,000 for undergraduate study and up to £4,000 for postgraduate study in recognition of the potential we see in you for your time at Swansea University.

ACADEMIC COLLEGE SCHOLARSHIPS
Each year we have a number of scholarships awarded by our academic Colleges. Details of these will be announced early in 2021.

CHEVENING SCHOLARSHIP
Swansea University is a popular destination for Chevening Scholars and it is honoured to support the scholarship programme. Awards are typically for a one year taught master’s degree and are awarded to outstanding scholars with leadership potential.

FURTHER INFORMATION ON HOW TO APPLY:
- swansea.ac.uk/international-students/my-finances/international-scholarships

SPORTS SCHOLARSHIPS
We look for students who not only satisfy the normal academic requirements for admission but who have also demonstrated outstanding ability in whatever sporting sphere they have made their speciality - four levels of awards are available.

MUSIC SCHOLARSHIPS
Our Music Entrance Scholarships are designed to enable talented musicians to continue to develop their skill and musicianship in a supportive environment. These scholarships are open to new undergraduate and postgraduate students studying any subject, and are tenable for the duration of the scholar’s degree.

INTERNATIONAL PATHWAYS
Your pathway to a degree from Swansea University.

If you have not met the entry requirements for your desired Swansea University degree, then a short period of studying with The College may be all you need to get back on track. The College offers academic pathways that lead to Undergraduate and Postgraduate degrees at Swansea University. Our unique approach to education allows for smaller class sizes, nurturing and support that transforms international students into Swansea University graduates and lifelong learners.

The College is located in a dedicated building on the beachfront of the Bay Campus. As well as teaching rooms, we have study and social spaces plus a popular Costa Coffee shop. We have our own accommodation - the Bod Jones Hall of residence - which comprises of 411 en-suite rooms, standard and premium, just a short walk from the academic building. Students become a Swansea University student from day one with the additional benefits from The College and 24/7 student support. All of this is just a few metres from the beach with spectacular views of Swansea Bay.

The College is proud to be a joint venture between Swansea University and Navitas, a status which builds on the close 10-year relationship with Swansea University as its pathway provider, previously known as ICWS (International College Wales Swansea).

Depending on the course, start dates are available throughout the year including September, November, January and June.

• Small classes with personalised attention
• A Swansea University student from day one
• Brand new facilities
• Beachfront campus
• Dedicated on-campus accommodation
• Value for money
• 24-hour student support
• Superb student lifestyle

UNDERGRADUATE PATHWAYS

*University Year One syllabus based in Swansea University with additional support classes at The College.

After successfully completing an Undergraduate pathway with The College, you will progress to study your Bachelor’s degree at Swansea University.

POSTGRADUATE PATHWAYS

Enrolling on to a Pre-Master’s programme at The College will allow you to adjust to the rigorous research and independent study requirements of a Postgraduate degree and help you get the most out of your Master’s studies at Swansea University.

POSTGRADUATE PATHWAYS AVAILABLE:

• Accounting and Finance
• Children and Young People
• Computer Science
• Engineering
• Languages, Politics and Culture
• Management
• Public Health and Management

Please note that The College, Swansea University pathways are only open to non-EU students.
STUDYING ENGLISH LANGUAGE WITH SWANSEA UNIVERSITY

Studying academic English with the English Language Training Services (ELTS) will give you the skills and confidence to help you get the most out of your university course and time in Swansea.

ELTS is accredited by both the British Council and BALEAP. ELTS teaching staff are qualified professionals with many years’ experience of delivering high quality English language teaching and training to students from all over the world. As fully enrolled members of the University, all ELTS students have access to university facilities including the library, IT services, and the Sports Village.

COURSES AT ELTS

Academic English Programmes
Develop your academic skills and ability with academic English. Start dates are September and February each year.

General English Summer Programme
Two, four, six and eight-week general English courses over the summer with trips to places of interest and social events.

Summer Academic Pre-sessional Programmes
Take an intensive English course over the summer to feel fully prepared for the start of your Swansea University degree.

IELTS Preparation Programme
Our IELTS Preparation Programme helps students achieve a language score of 4.5/5.0 for entry onto our Academic English Programmes. Start dates for our 10-week programme are September, January, April and July. There is also a month long intensive course in May.

CELT A Teacher Training
The internationally recognised Cambridge course for training English language teachers is offered as a full-time, part-time or online course.

SWELT
The Swansea University English Language Test (SWELT) is the official English language test for international students wishing to study at Swansea University who are looking for an alternative to IELTS.

Swansea University is a Licensed Sponsor under Tier 4 of the Points Based Immigration System and therefore accepts SWELT as an alternative to IELTS for entry to degree and postgraduate programmes.

AM I SUITABLE FOR THE SWELT TEST?
SWELT is ideal if you:
- Already know that you want to study at Swansea University and are looking for an alternative to IELTS as fulfilment of your English language entry requirement.
- Are interested in studying for a bachelor or postgraduate degree in the UK, are interested in studying at Swansea, one of the UK’s leading universities and would like an alternative to IELTS.*

* Please note, SWELT can only be used for entry to Swansea University

WHERE DO THE SWELT TESTS TAKE PLACE?
- UK - Swansea University, Singleton Park Campus.
- Overseas - We are currently arranging test dates in China and other countries. Contact us to find out if we have a test near you.
- Online – visit swansea.ac.uk/english-language-training-services/swelt to register for an online test.

HOW MUCH IS THE SWELT TEST?
£100 (Payable before the test)

There are a number of ways to study at Swansea University.

**FULL DEGREE**
Most students will choose to study their full degree with us, choosing from one of our undergraduate or postgraduate programmes.

Swansea’s average A level entry tariff for Undergraduate programmes is AAA (360 tariff points) to CCD (220 tariff points). Taught postgraduate courses (MA, MSc, LLM) normally require the equivalent of an honours Bachelor’s degree from a recognised institution. Research courses (MRes, MPhil, PhD) normally require an upper level equivalent of an honours Bachelor’s degree from a recognised institution or a Master’s degree for PhD.

We have listed average entry requirements for each country: swansea.ac.uk/international-students/international-student-courses

If you have any questions about your qualifications, contact us at Study@swansea.ac.uk

**FOUNDATION AND PRE-MASTER’S COURSES**
If you do not meet the entry requirements for your chosen undergraduate or postgraduate degree, you might be able to study a Foundation or Pre-Master’s course with our pathway college which will bring you up to the required level. Details can be found on P35.

We offer courses to bridge any gaps between qualifications you hold already and the ones you need to begin a degree course at Swansea. This could be because you need to develop your English language skills, improve on your academic qualifications, or both.

Find out more: swansea.ac.uk/els

**EXCHANGE AND VISITING (STUDY ABROAD)**
We welcome applications from students who would like to spend just a year or a semester studying with us. In this instance you will either pay fees directly to Swansea University or via your home university’s Study Abroad Office, if they have a direct partnership with us.

If your home university has a reciprocal exchange agreement with us you may be able to spend a semester or year studying at Swansea University.

Find out more: swansea.ac.uk/studyabroad

**ENGLISH LANGUAGE ENTRY REQUIREMENTS**
International applicants are expected to show a good level of English for entry into the UK and for our courses. English language requirements are stated on the individual course pages online. In most cases, we require an IELTS 6.0 or equivalent for undergraduate entry and IELTS 6.5 or equivalent for postgraduate entry. However, there may be some variation, so please check the course pages online, or contact us if you are unsure. The University also recognises a range of English language tests and qualifications which are recognised by the UK Home Office as secure English language tests (SELT). swansea.ac.uk/admissions/english-language-requirements

If you don’t meet the English Language requirement for your course, you can enrol with our English Language Training Services to improve your skills. swansea.ac.uk/els

In this directory we have listed a selection of subjects available from the University. For full course listings, please use the A-Z course lists online.

Undergraduate courses:
swansea.ac.uk/undergraduate/courses

Postgraduate Taught courses:
swansea.ac.uk/postgraduate/taught

Postgraduate Research courses:
swansea.ac.uk/postgraduate/research

Entry requirements within this directory are a guide of our typical requirements – please note that the offer you are made will depend on your academic history and the qualifications you provide.

Check our website for entry requirement equivalences before submitting an application.

swansea.ac.uk/international-students/international-student-courses
Courses accredited by major professional accounting and finance bodies, including the Association for Chartered Certified Accountants (ACCA) and the Chartered Institute of Management Accountants (CIMA), with a number of industry qualification exemptions.

Research-led, innovative teaching from a team of industry experts.

Bespoke employability support to enhance your graduate prospects from our in-house team of careers advisors.

Access to enterprise support and business mentoring as well as a range of state of the art facilities, including our Media Suite.

Links with Student Circus and Highered – niche job search platforms that help International Students secure jobs in the UK and their home countries.

A degree from the Accounting and Finance department will give you a competitive edge when you start your career. State-of-the-art facilities, world-class teaching and close links with accrediting bodies (ACCA, CFA, ICAEW, Chartered Banker and CIMA) will put you at the top of your game when you enter the world of work.

UNDERGRADUATE COURSES
- BSc Accounting and Finance
- BSc Accounting
- BSc Finance

Each of our BSc degrees allow the option to study a year abroad or undertake a year in industry.

Undergraduate pathway options are available, please see page 34.

POSTGRADUATE COURSES
Conversion taught programmes for students from any academic background
- MSc Accounting and Finance
- MSc Financial Management
- MSc Finance and Big Data Analytics

Postgraduate pathway options are available, please see page 34.

Advanced taught programmes for students who have already studied the subject at undergraduate level
- MSc Finance
- MSc International Banking and Finance
- MSc Investment Management
- MSc Strategic Accounting

RESEARCH DEGREES

We invite applications from well-qualified candidates whose research interests correspond to our areas of research expertise.

Applicants are encouraged to explore the research expertise of the School to ensure a good fit between PhD proposals and potential supervisors. Information about current faculty and the School’s research groups can be found at: swansea.ac.uk/som/research

- Professional laboratory and fieldwork opportunities
- £2 million Centre for Sustainable Aquatic Research (CSAR)
- £1.35 million Swansea Laboratory for Animal Movement (SLAM)
- £1.6m investment in a purpose-built 18m catamaran-class survey vessel equipped with state-of-the-art survey and research equipment
- International fieldwork opportunities in Borneo, Puerto Rico and the Indian Himalayas
- Degrees accredited by the Royal Society of Biology

UNDERGRADUATE COURSES
- BSc Biology *
- BSc Biological Sciences (with deferred specialisation) *
- BSc Marine Biology *
- BSc Zoology *
- BSc Biology with a Year in Industry
- BSc Marine Biology with a Year in Industry
- BSc Zoology with a Year in Industry
- BSc Biology with Integrated Foundation Year

*Available with a Year Abroad

POSTGRADUATE COURSES
- MSc Environmental Biology: Conservation and Resource Management

Students interested in studying the MRes Biosciences, MPhil and PhD in Biological Sciences are focussed around four themes:

- Marine and Freshwater Systems
- Behavioural Ecology and Evolution
- Biodiversity and Ecosystems
- Natural Products and Environmental Resources

RESEARCH DEGREES
- MSc Environmental Biology: Conservation and Resource Management

Students interested in studying the MRes Biosciences, MPhil and PhD in Biological Sciences are focussed around four themes:
UNDERGRADUATE COURSES
• BSc Chemistry
• BSc Chemistry with a Year Abroad
• BSc Chemistry with a Year in Industry
• MChem Chemistry

POSTGRADUATE COURSES
RESEARCH DEGREES
Students interested in studying a PhD, MPhil or MSc by Research in the Department of Chemistry are able to specialise in one of the following areas:
• Surface and Analytical Chemistry
• Chemistry
• Health, Food and Drug Chemistry
• Chemistry of Materials
• Semiconductor Chemistry

BUSINESS MANAGEMENT
• Study at a Top 30 UK Business School for Research Excellence (REF 2014 - 21)
• Opportunities to engage with businesses in real-life consultancy activities
• Research-led, innovative teaching from a team of industry experts
• Bespoke employability support to enhance your graduate prospects from our in-house team of careers advisors
• Access to enterprise support and business mentoring as well as a range of state of the art facilities, including our Media Suite
• Ranked Top in the UK for Business Management and Marketing (WhatUni Awards 2019), a degree from this high-performing department will make you stand out in the job market. Hands-on practical learning, close industry links and accredited courses will give you the best possible start to your career.
• Links with Student Circus and Highered – niche job search platforms that help International Students secure jobs in the UK and their home countries

ACCESS TO STATE-OF-THE-ART MEDIA SUITE
• Curriculum informed by needs of modern industry as well as core chemistry
• Cutting edge teaching methods including flipped teaching, peer learning and innovative pre-lab simulations that allow students to practice lab skills in their own time
• Royal Society of Chemistry in process of accrediting the degrees
• Only Student Society in UK affiliated with American Chemical Society

UNDERGRADUATE COURSES
• BSc Business Management
• BSc Business Management (Business Analytics)
• BSc Business Management (e-Business)
• BSc Business Management (Enterprise and Innovation)
• BSc Business Management (Finance)
• BSc Business Management (Human Resource Management)
• BSc Business Management (Management Consulting)
• BSc Business Management (Marketing)
• BSc Business Management (Operations and Supply Management)
• BSc Business Management (Tourism)

Each of our BSc degrees allow the option to study a year abroad or undertake a year in industry. Undergraduate pathway options are available, please see page 34.

POSTGRADUATE COURSES
Masters courses are available to students from any background with generalist and specialist programmes available.
• MSc Management
• MSc Management (Business Analytics)
• MSc Management (Enterprise and Innovation)
• MSc Management (Finance)
• MSc Management (Human Resource Management)
• MSc Management (International Management)
• MSc Management (Marketing)
• MSc Management (Operations and Supply Management)
• MSc Management (Tourism)

Postgraduate pathway options are available, please see page 34.

Business Administration, MBA
The School of Management’s Business Administration, MBA is for those with at least three years’ worth of experience in a Management role. The programme is for those who wish to make an impact on society and address the gap between practice and theory that can exist in management. You’ll implement your existing knowledge in a global context to overcome challenging scenarios and learn to navigate innovation and change whilst applying relevant theories and frameworks.

RESEARCH DEGREES
We invite applications from well-qualified candidates whose research interests correspond to our areas of research expertise.
Applicants are encouraged to explore the research expertise of the School to ensure a good fit between PhD proposals and potential supervisors. Information about current faculty and the School’s research groups can be found at: swansea.ac.uk/som/research

POSTGRADUATE COURSES
RESEARCH DEGREES
Students interested in studying a PhD, MPhil or MSc by Research in the Department of Chemistry are able to specialise in one of the following areas:
• Surface and Analytical Chemistry
• Chemistry
• Health, Food and Drug Chemistry
• Chemistry of Materials
• Semiconductor Chemistry

MULTI - MILLION POUND CHEMISTRY HUB OPENED IN SEPTEMBER 2017

(access for qualified candidates)
UNDERGRADUATE COURSES
• BSc Computer Science *
• BSc Software Engineering *
• MEng Computing *
• MSci Computer Science *
• BSc Computer Science with integrated Foundation year (Only applicable for EU students. See page 34 for details regarding Foundation Year for non-EU students)
• BSc Education and Computer Science
• BSc Computer Science with a Year in Industry
• BSc Software Engineering with a Year in Industry
• MEng Computing with a Year in Industry
• MSci Computer Science with a Year in Industry
*Available with a Year Abroad

POSTGRADUATE COURSES
• MSc Advanced Computer Science
• MSc Advanced Computer Science with Industry (available for International students only)
• MSc Advanced Software Technology
• MSc Computer Science
• MSc Data Science
• MSc Cyber Security
• MSc Computer Science: Informatique (Swansea route)
• MSc Computer Science: Informatique (Grenoble route)
• MSc Human-Centred Big Data and Artificial Intelligence

POSTGRADUATE RESEARCH
• MRes in Visual Computing
• MRes in Logic and Computation
• MRes in Computing and Future Interaction Technologies
• MSc by Research in Computer Science
• MSc by Research in Human Computer Interaction
• MSc by Research in Theoretical Computer Science
• MSc by Research in Visual and Interactive Computing

The Department is always keen to attract high-quality MPhil/PhD students to join its four main research groups:
• Future Interaction Technology
• Theoretical Computer Science
• Visual Computing
• Security

Undergraduate courses include:
- Research led teaching from staff with strong national and international links
- Strong links with professional practice in health, social care, social work, and education
- Hands-on practical workshops and fieldwork elements included

The new £32.5 million Computational Foundry provides cutting-edge teaching and research facilities featuring world-leading experimental setups, devices and prototypes, to accelerate innovation and ensure students will be ready for exciting and successful careers.

Facilities include a Cyber Security and Networking Lab where we research and teach security and vulnerabilities in networks and IoT devices; our Future Interaction Technologies Lab (FIT Lab) where we create and test robots and interactive systems as well as showcasing our research into VR and AR; two Maker Labs with laser cutters, 3D scanners, 3D printers and more; a Theory Lab; two User Experience Labs; a Vision and Biometric Lab where we can capture actors in 3D; and a Visualisation Suite where we can look at highly detailed visual models of data.

Fully networked laboratories running Windows and Linux, which support a wide range of software and programming languages, including Java, C# and the .NET framework, python, C, C++, PHP, MySQL, Haskell and Prolog.

Integrated programme development environments such as Visual Studio and Netbeans, Microsoft Office Package, web access tools and specialised software for graphical rendering and image manipulation.

Research degrees:
- PhD/MPhil Children and Young People
• Academics with extensive professional experience
• Excellent links to local and national employers including government, the criminal justice system and voluntary/third sector organisations
• A dynamic and active academic community

UNDERGRADUATE COURSES
• BSc Economics
• BSc Economics and Business
• BSc Economics and Finance
Each of our BSc degrees allow the option to study a year abroad or undertake a year in industry.

Undergraduate pathway options are available, please see page 34.

POSTGRADUATE COURSES
Master’s courses available to students from economics (or related) subject areas:
• MSc Economics
• MSc Economics and Finance

Research degrees
We invite applications from well-qualified candidates whose research interests correspond to our areas of research expertise.

Applicants are encouraged to explore the research expertise of the School to ensure a good fit between PhD proposals and potential supervisors. Information about current faculty and the School’s research groups can be found at:
swansea.ac.uk/som/research
UNDERGRADUATE COURSES
• BA (Hons) Education
• BSc (Hons) Education and Computing
• BSc (Hons) Education and Maths
• BSc (Hons) Education and Psychology
• BA Early Childhood Studies
• BA Early Childhood Studies with Early Practitioner Status

POSTGRADUATE COURSES
• MA Education
• MPhil/PhD Education

IN PARTNERSHIP WITH ASSOCIATION FOR LEARNING TECHNOLOGY
(ALT)

UNDERGRADUATE COURSES
All of the following courses have a Year in Industry and a Year Abroad option:
• BEng/MEng Aerospace Engineering
• BEng/MEng Chemical Engineering
• BEng/MEng Civil Engineering
• BEng/MEng Electronic and Electrical Engineering
• BEng/MEng Materials Science and Engineering
• BEng/MEng Mechanical Engineering
• BEng/MEng Medical Engineering

Postgraduate Foundation Year (available with all of the above BEng course pathways and as a ‘Deferred Choice’ option)

POSTGRADUATE COURSES
AEROSPACE ENGINEERING
• MSc Aerospace Engineering
• MSc by Research in Aerospace Engineering
• PhD or MPhil Aerospace Engineering

CHEMICAL ENGINEERING
• MSc Chemical Engineering
• MSc by Research in Chemical Engineering
• MSc by Research in Bio-process Engineering
• MSc by Research in Desalination and Water Re-use
• MSc by Research in Membrane Technology
• PhD or MPhil in Chemical Engineering

CIVIL & COMPUTATIONAL ENGINEERING
• MSc Civil Engineering
• MSc Structural Engineering
• MSc Computational Mechanics
• MSc Computational Engineering*
• MRes Computer Modelling in Engineering
• MSc by Research in Civil Engineering
• PhD or MPhil Civil Engineering

ELECTRONIC & ELECTRICAL ENGINEERING
• MSc Electronic and Electrical Engineering*
• MSc Power Engineering and Sustainable Energy
• MSc Communications Engineering
• MSc by Research in Electronic and Electrical Engineering
• PhD or MPhil Electronic and Electrical Engineering

ENERGY INNOVATION & FUEL TECHNOLOGY
• MSc by Research in Energy Innovation
• PhD in Energy Innovation
• MSc by Research in Fuel Technology

ENGINEERING MANAGEMENT & VR
• MSc Engineering Leadership and Management
• MSc Sustainable Engineering Management for International Development
• MSc Virtual Reality

MATERIALS SCIENCE & ENGINEERING
• MSc Materials Engineering*
• MSc by Research in Materials Engineering
• PhD or MPhil Materials Engineering

MECHANICAL ENGINEERING
• MSc Mechanical Engineering*
• MSc by Research in Mechanical Engineering
• PhD or MPhil Mechanical Engineering

NANOTECHNOLOGY
• MSc Nanoscience to Nanotechnology
• MSc by Research in Nanotechnology
• PhD or MPhil Nanotechnology

*These programmes are available with a Year ‘With Industry’, working within or alongside industry on a company specific project.
International fieldwork and study opportunities include Austria, Berlin, Borneo, the Indian Himalayas, Mallorca, New York and Vancouver.

One of the most well established Geography departments in the UK.

Diverse and flexible curriculum choice – you can study both human and physical geography.

Invested £4.2m on a new suite of state-of-the art science laboratories.

**UNDERGRADUATE COURSES**

- BA/BSc Geography *
- BA Human Geography *
- BSc Physical Geography *
- BSc Environmental Geoscience
- BSc Geography and Geographical Information Science
- BSc Physical Earth Science with a Year in Industry
- BSc Geography with integrated Foundation Year. (Only applicable for EU students. See page 34 for details regarding Foundation Year for non-EU students)

*Available with a Year in Industry.

**POSTGRADUATE COURSES**

- MSc Environmental Dynamics and Climate Change
- MSc Geographic Information and Climate Change

**MSc by Research Degrees**

- MSc by Research Earth Observation
- MSc by Research Environmental Dynamics
- MSc by Research Glaciology
- MSc by Research Global Environmental Modelling
- MSc by Research Global Migration

- MA Public History and Heritage extended (study abroad for one semester)

**MPhil and PhD Degrees**
The department seeks to attract research students in the following areas: Egyptology, Greek and Roman History, Classical Archaeology, Ancient Technology, The Ancient Novel and Narrative Fiction, Medieval, Early Modern and Modern History.

**LANGUAGE, TRANSLATION AND INTERPRETING, LINGUISTICS AND LITERATURE**

**UNDERGRADUATE COURSES**

- BSc Applied Linguistics and English Language
- BA English Language (single and joint honours)
- BA English Language and Teaching English to Speakers of Other Languages (TESOL)
- BA (TESOL) and Languages
- BA English Literature (single and joint honours)
- BA English and Gender
- BA Modern Languages with Education
- BA Modern Languages: French, German, Italian or Spanish
- BA Modern Languages, Translation and Interpreting

Joint honours combinations include: Ancient History, American Studies and Classical Civilisation.

**POSTGRADUATE COURSES**

- MA Chinese-English Translation and Language Teaching
- MA Creative Writing
- MA Creative Writing (extended to study abroad for one semester)
- MA English Literature
- MA Professional Translation (one year or extended options available)
- MA TESOL
- MA Translation and Interpreting (one year or extended options available)

**MA by Research, MPhil and PhD Degrees**

- Applied Linguistics
- English Literature
- Creative Writing
• Teaching from academics with extensive industry experience
• Exceptional educational support, a progressive curriculum and a wide choice of modules available
• Strong links with local, national and international employers

UNDERGRADUATE COURSES
• LLB Law Single Honours
• LLB Business Law
• LLB Law (Crime and Criminal Justice)
• LLB Law Senior Status
• LLB Law with Criminology

POSTGRADUATE COURSES
• LLM in Human Rights
• LLM in Intellectual Property and Commercial Practice
• LLM in International Commercial Law
• LLM in International Commercial and Maritime Law
• LLM in International Maritime Law
• LLM in International Trade Law
• LLM in LegalTech
• LLM in Oil, Gas and Renewable Energy Law
• MA in Cyber Crime and Terrorism
• MA Global Challenges: Law, Policy and Practice

PROFESSIONAL COURSES
• Graduate Diploma in Law (GDL)
• Legal Practice Course (LPC)
• LLM in Legal Practice and Advanced Drafting

RESEARCH DEGREES
We offer Law PhD and MPhil degrees in a range of areas, including: Common Law, Contract Law and Commercial Law, LegalTech, Maritime Law, Oil and Gas Law, Public Law across domestic, regional and international levels (Administrative Law, Medical Law, Children’s Rights, Constitutional Law, Devolution, Economic Law, Environmental Law, European Union Law, Gender and the Law, Human Rights Law, Investment Law, Minority Language Rights, Multilevel Governance, Socio-economic Law, and Public Procurement Law), Criminal Law, and the Law relating to Terrorism, Cyber Terrorism and Counter Terrorism.

(QS World Rankings by Subject 2020)

96% OF THE SCHOOL’S RESEARCH IS OF AN INTERNATIONAL STANDARD
(REF 2014-21)

UK TOP 10 MARITIME/ADMLRALTY LAW
(ILM Guide 2020)

• Study a UK Top 20 subject (Complete University Guide 2021)
• Course structure and content developed in line with Chartered Institute of Marketing (CIM) for industry relevance
• Research-led, innovative teaching from a team of industry experts
• Bespoke employability support to enhance your graduate prospects from our in-house team of careers advisors
• Access to enterprise support and business mentoring as well as a range of state of the art facilities, including our Media Suite
• Links with Student Circus and Highered – niche job search platforms that help International Students secure jobs in the UK and their home countries
• Ranked Top in the UK for Business Management and Marketing (WhatUni Awards 2019), the Marketing department is led by world-class, industry experts, that have produced graduates who have gone on to work for some of the world’s biggest consumer brands, have set up their own businesses and have thrived in marketing roles across all sectors.

UNDERGRADUATE COURSES
• BSc Marketing
• BSc Business Management (Marketing)
Each of our BSc degrees allow the option to study a year abroad or undertake a year in industry

POSTGRADUATE COURSES
• MSc Strategic Marketing **
• MSc Management (Marketing)
** Opportunity to complete a three-month work-based marketing consultancy project, allowing you to apply the skills and knowledge gained during the course to a real life situation
£32.5m Computational Foundry provides cutting-edge teaching and research facilities to enable our students and staff to pursue transformative mathematical and computational research.

Teaching and research focuses on modern, applicable mathematics.

Extensive selection of final year projects designed to develop excellent transferable skills.

UNDERGRADUATE COURSES

• BSc Mathematics *
• BSc Mathematics with a Year in Industry
• BSc Pure Mathematics
• BSc Applied Mathematics
• BSc Mathematics for Finance *
• BSc Mathematics for Finance with a Year in Industry
• BSc Actuarial Science
• MMath Mathematics *
• BSc Mathematics with Integrated Foundation Year (Only applicable for EU students. See page 34 for details regarding Foundation Year for non-EU students)
• BSc Education and Mathematics
• BSc Mathematics and Sports Science
*Available with a Year Abroad

POSTGRADUATE COURSES

• MSc Mathematics and Computing for Finance
• MSc Mathematics
• MRes Stochastic Processes: Theory and Application
• MSc by Research in Mathematics

MPsji and PhD programmes are available in areas including:

• Algebra, Geometry and Topology
• Analysis and Nonlinear Partial Differential Equations
• Mathematics Education
• Biomathematics

MEDIA, COMMUNICATION AND PUBLIC RELATIONS
SINGLETON CAMPUS

• BA Public Relations and Media (3 yrs) Single Honours is accredited by the Chartered Institute for Public Relations Work placements are offered in media, journalism, broadcasting and public relations organisations
• Year and Semester Abroad opportunities are available (3 and 4 year degree programmes)
• Year in Industry available (4 year degree programme)

UNDERGRADUATE COURSES

• BA Media and Communication
• BA Public Relations and Media
• BA Media with joint honours options in Languages, English Language, Literature
• BA Journalism, Media and Communications

POSTGRADUATE COURSES

• MA Communication, Media Practice and PR
• MA Digital Media
• MA Sports Communication and Journalism
• MA International Journalism

Students interested in pursuing a research degree can do so under the following themes:

• European Film and Identity
• Media, History, Theory and Technology
• Journalism and the Media
• Public Relations
Swansea University is home to a leading UK Medical School located in beautiful south west Wales. It educates and trains the next generation of doctors, life scientists, health professionals, innovators, educators, researchers and leaders through courses that build on its excellent research, which is ranked 2nd in the UK (REF 2014 - 2021).

The Medical School is proud to offer a growing number of degrees that prepare students for careers in academia, industry and healthcare. Undergraduate Pathway to Medicine courses provide links with Graduate Entry Medicine and could lead to a guaranteed interview. State-of-the-art research facilities include the Institute of Life Science, valued at over £100 million, the £22 million Centre for NanoHealth and the £17 million Data Science Building. The Medical School is also home to Centres of Research Excellence including the British Heart Foundation Cymru, Diabetes Research Unit Cymru and the Sanofi Diabetes Centre of Excellence.

POSTGRADUATE COURSES

MSc programmes:
- MSc Diabetes Practice***
- MSc Genomic Medicine
- MSc Health Data Science
- MSc Health Informatics
- MSc Leadership for the Health Professions (Distance Learning)
- MSc Medical Education**
- MSc Medical Radiation Physics
- MSc Nanomedicine
- MSc Physician Associate Studies**

** Only applicable for EU students
*** Distance Learning Courses with residential elements or contact days

MPhill, PhD, MD, MSc by Research Programmes

MPhill, PhD, MD, MSc by Research Degrees: Research themes include:
- Biomarkers and Genes
- Devices
- Microbes and Immunity
- Patient and Population Health and Informatics

MPhill, PhD, MD, MSc by Research Programmes

Research themes include:
- Biomarkers and Genes
- Devices
- Microbes and Immunity
- Patient and Population Health and Informatics

- MRes Health Informatics
- DProf/MRes Research in Health Professions Education

BEST PREPARED DOCTORS IN THE UK
(Severn Deanery F1 Survey 2017)

* Successful students are awarded MBCh from Swansea University, having joined the General Medical Council’s (GMC) distinguished list of UK medical schools entitled to award UK primary medical qualifications (PMQs). This qualification allows our graduates to practise in the UK and many other countries. All applicants are advised to ensure that Swansea University’s PMQ is recognised by the medical standards authority of the country in which they wish to practise.

** Only applicable for EU students
*** Distance learning courses with residential elements or contact days.

• MSc Physician Associate Studies**
• MSc Nanomedicine
• MSc Medical Education***
• MSc Medical Radiation Physics
• MSc Nanomedicine
• MSc Physician Associate Studies**

MPhill, PhD, MD, MSc by Research Programmes

Research themes include:
- Biomarkers and Genes
- Devices
- Microbes and Immunity
- Patient and Population Health and Informatics

MRes programmes:
- MRes Health Informatics
- DProf/MRes Research in Health Professions Education

• Medicine (Graduate Entry) is a four year fast track medical degree for graduates of any subject. It offers a high level of clinical contact throughout the course plus additional learning opportunities in clinical settings and elective international placements.

• Undergraduate Pathway to Medicine courses provide links with Graduate Entry Medicine and could lead to a guaranteed interview.

• Postgraduate courses are suitable for healthcare professionals or those with an interest in medical research.
• Excellent links with CERN in Switzerland offering the opportunity of
  summer placements
• Courses accredited by the Institute of Physics
• £4.2 million investment in state-of-the-art laboratories

UNDERGRADUATE COURSES
• BSc Physics *
• BSc Physics with a Year in Industry
• BSc Physics with Integrated Foundation Year
  (Only applicable for EU students. See page 34 for details regarding
  Foundation Year for international students)
• BSc Theoretical Physics
• BSc Theoretical Physics with a Year in Industry
• BSc Physics with Particle Physics and Cosmology
• MPhys Physics *
• MPhys Theoretical Physics
• MPhys Theoretical Physics with a Year in Industry
  *Available with a Year Abroad

POSTGRADUATE COURSES
MSc by Research Degrees
• MSc by Research Applied Physics and Materials
• MSc by Research Theoretical Physics
• MSc by Research Experimental Physics

The Department is always keen to attract high-quality MPhil/PhD
students to join its four main research groups:
• Applied Physics and Materials
• Atomic, Molecular and Quantum Physics
• Particle Physics and Cosmology Theory
• Quantum Computation and Simulation

UNDERGRADUATE COURSES
Single and Joint Honours courses are available:
• BA American Studies
• BA Philosophy
• BA Philosophy, Politics and Economics (PPE)
• BA International Relations
• BA Politics and International Relations
• BA Politics
• BA War and Society
Joint Honours combinations include: Languages, History, Literature and
Social Policy

POSTGRADUATE COURSES
• MA Development and Human Rights
• MA International Security and Development
• MA International Relations
• MA Politics
• MA Public Policy
• MA War and Society

Extended Masters available in: International Relations, International Security and
Development, and Public Policy (study abroad for one semester in USA)

MPhil and PhD Degrees
The Department offers MA by Research, MPhil and PhD research degrees and
invites research proposals on a wide range of topics including:
• Conflict and Security
• European Union Politics
• International Relations
• Latin American Studies
• Political Analysis and Governance

• Work Placement module with National Assembly for Wales, working
closely with Assembly Ministers Numerous work placement options built
into curriculum
• British Parliamentary Studies module taught by lecturers and members
of parliament
• Semester and Year Abroad options available (3 and 4 year degree
programmes)
UNDERGRADUATE COURSES
- BSc Psychology
- BSc Criminology and Psychology
- BSc Education and Psychology
- BSc Sociology and Psychology

POSTGRADUATE COURSES
- MSc Clinical Psychology and Mental Health
- MSc Cognitive Neuroscience
- MSc Research Methods in Psychology

RESEARCH DEGREES
- PhD/MPhil/MSc by Research Psychology
- PhD/MPhil Health Psychology

Psychology research is organised around four broad themes:
- Cognitive Neuroscience
- Forensic Psychology
- Cognition and Perception
- Clinical and Health Psychology

Validated by the British Psychological Society (BPS)
Spend a year studying abroad on our undergraduate courses
Participate in, and undertake, original research using state-of-the-art research facilities and equipment

UNDERGRADUATE COURSES
- BSc Social Policy
- BSc Criminology and Social Policy
- BA History and Social Policy
- BA Politics and Social Policy
- BSc Social Sciences
- BSc Sociology
- BSc Sociology and Psychology
- BSc Sociology and Social Policy

POSTGRADUATE COURSES
- MSc Social Research Methods

RESEARCH DEGREES
- PhD/MPhil Social Work and Social Care
- PhD/MPhil Sociology
- PhD/MPhil/MSc by Research Social Policy
- PhD/MPhil in Gerontology and Ageing Studies

On our undergraduate programmes, you can put study into practice with placements in charities, education settings, local government and healthcare settings
Many of the programmes are accredited, approved or have support from established external organisations
Research led teaching from staff with strong national and international links

SPORT AND EXERCISE SCIENCE

• Based at the University’s beachfronted Bay Campus
• Specialist laboratories and computing facilities, including a state-of-the-art Exercise Physiology Laboratory and Biomechanics Laboratory
• Year Abroad option available with BSc
• Swansea University has a £20 million sports village housing world-class sports facilities, including Wales’ National Pool and Indoor Athletics Centre

UNDERGRADUATE COURSES
• BSc Sport and Exercise Science
• BSc Mathematics and Sports Science

POSTGRADUATE COURSES
• Erasmus Mundus MA Sports Ethics and Integrity
• MSc by Research in Sports Science
• PhD/MPhil Sports Science

TOURISM

• Strong links with industry locally and internationally
• Destination marketing and economic impact at the heart of the course
• Undertake field trips and real-life cases to bring destination to life
• Research-led, innovative teaching from a team of industry experts
• Bespoke employability support to enhance your graduate prospects from our in-house team of careers advisors
• Access to enterprise support and business mentoring as well as a range of state of the art facilities, including our Media Suite
• Links with Student Circus and Highered – niche job search platforms that help International Students secure jobs in the UK and their home countries
• The Tourism department will give you invaluable insight into the ever-changing, evolving world of tourism and you will learn about both the business and human aspects of the subject in a practical way, making you career-ready the moment you graduate.

UNDERGRADUATE COURSES
• BSc Business Management (Tourism)
• BSc International Tourism Management

Our BSc degree allows the option to study a year abroad or undertake a year in industry.

POSTGRADUATE COURSES
• MSc Management (Tourism)

FIELD TRIPS
We give students the opportunity to study a variety of tourism destinations. Field trips are designed to enhance students’ understanding of the complexities and requirements of running a tourism destination. Previous trips have included visits to Penderyn Whisky – a premium whisky distillery, top sporting venue and even a trip to Nepal.

Please note, the cost of field trips is in addition to the course fees. Students will participate in a range of mandatory field trip experiences, both locally and overseas (destinations will vary year on year). Individuals may be eligible to apply for travel bursaries from the department and the University’s Go Global team to subsidise any additional costs.

FUTURE CAREERS
• TOURISM OFFICER
• ACCOMMODATION MANAGER
• DESTINATION MANAGER
• DESTINATION MARKETER
• EVENT MANAGER
