Where bright futures begin

• Improve your future earning potential, secure a good job after graduation and enjoy face-to-face interaction with lecturers during your course.

• Ranked 26th, Swansea University is amongst the Top 30 Universities in the UK for Research (REF, 2014).

• Make personal connections with students from around the globe, enjoy different cultures and discover for yourself why students voted Swansea University top for postgraduate studies (WhatUni Student Choice Awards 2017).

• Ranked in the top 5 for student satisfaction (NSS 2018) and the top 5 cheapest student cities in the UK (Student Living Index 2017), Swansea gives students excellent value for money.

• Swansea University is in the UK top 15 for graduate employment (Times 2018) and offer paid internships and work placements with world-leading employers.

• 5* Campus Facilities and Teaching Quality (QS Stars rated for Excellence)
Thuy An Do from Vietnam studied Accounting and Finance via the pathway route.

Thuy An graduated top of her class and is now working as a Financial Officer.

“I found that the small classes were very encouraging. They made me more confident.”

See pages 20 and 38 for Accounting and Finance courses
Soundarya from India studied University Foundation in Science.

"I never thought I would fall in love with this place and feel the way I do about my studies. I can't wait to continue this journey until I graduate with the amazing friends I've made along the way."

See page 33 for Science courses

Sayed Mohamed Jaafar Husain from Bahrain was a pathway student and has gone on to achieve a high first-class BSc (Hons) Accounting and Finance from Swansea University.

"An all-round experience is offered here at Swansea, from the beach to Wind Street. Special thanks to the team for their hospitality. This was one of the best experiences I've ever had. Swansea, it's been a pleasure."

Swansea University
RANKED 251–300

WELCOME FROM OUR VICE-CHANCELLOR

Swansea University is ambitious for its students, staff, and for the institution as a whole. We are on a steep upward trajectory making rapid progress towards our aspiration of being one of the top 200 universities in the world by our centenary in 2020.

It is a privilege to be the Vice-Chancellor of such a friendly, exciting, and successful University.

This guide will introduce you to the courses we offer together with the sporting opportunities, societies, and campus environment that create the wider student experience at Swansea. Our former students report most positively on their time at Swansea.

I hope the guide will give you a good idea of why this is such an exceptional place to study.

The University was founded in 1920 at the behest of industry for people in the area who had a thirst for knowledge and learning. We now welcome students from far greater distances but we have continued the tradition of providing an education designed to link directly with a future career. And the figures speak for themselves; our current graduate employment rate is 94.3%.

This is a University on a strong upward trajectory and attracting massive investment to provide the most up-to-date facilities. In the Research Excellence Framework exercise (REF) 2014, we became one of the top 25 research intensive universities in the UK. Ninety per cent of Swansea research was judged to be internationally excellent in its impact and a third of our research is now classed as world-leading. This means that our students are taught by, and work alongside, some of the best academic staff in the country and even the world.

We are an international university based in Wales and we aim to equip students with a global education. Our campuses are enriched by staff and students from over 135 different countries while many of our degree schemes offer the opportunity to spend a year or semester studying abroad at one of our partner universities across the world.

I know from the experiences of my own children how difficult it can be to select a University. I hope that this guide will, at the very least, encourage you to consider The College, Swansea University. You will be favourably impressed!

Professor Richard B. Davies
Vice-Chancellor, Swansea University
Launch your global career at Swansea University

WHAT IS EMPLOYABILITY?

Employability is the term used to describe the skills needed to get a job.
At Swansea University we are committed to equipping our students with the skills and expertise needed to get a job after finishing a course with us.

WHilst studying, you will benefit from:

• An on-site Careers Team
• Courses with work placements available
• Opportunities to study and work abroad
• Annual career fair
• Mock interviews and advice on the recruitment process
• Gradintel job matching service
• Employers’ talks
• Placements programme
• Swansea Employability Award
• Dedicated Employability Academy

SWANSEA EMPLOYABILITY AWARD

Unique to Swansea University, this award is formally recognised in your Higher Education Achievement Report (HEAR) and allows up to four employability modules to be taken.

The modules will help you:

• Find out what you really want to do
• Explore the Possibilities
• Plan and Make it Happen
Collaboration with commercial and industrial partners is at the core of Swansea University’s research strategy. The University has industry links which are amongst the best in the UK. Organisations that support research activities and employability initiatives include:
The College, Swansea University.
Your pathway to a degree from Swansea University

Offering a modern and dynamic educational experience, The College is committed to providing academic and support services in an environment that encourages you to achieve excellence in your studies.

The College offers academic pathways in partnership with Swansea University that lead to undergraduate and postgraduate degrees. Our unique approach to education transforms international students into Swansea University graduates and lifelong learners.

At The College you will be expected to work hard, but you will also have plenty of opportunities to enjoy your studies and the many social activities available both in Swansea and the surrounding area.

- **Small classes with personalised attention:** We offer a personalised and supportive educational philosophy that encourages students to reach their maximum academic potential. Academic classes offered by The College usually have no more than 35 students.

- **A Swansea University student from day one:** From the first moment of enrolling at The College, you will be a Swansea University student with a student ID to match!

- **On campus:** Your studies will take place on Swansea University’s stunning seaside campuses, enabling you to join in the exciting events happening across the University!

- **Five intakes per year:** Start your studies at a time best suited to you with intakes in September, January, May, June and even a November start date.

- **Foundation options:** Our extended semester Foundation options allow entry with lower English levels (refer to page 46).

- **Dedicated on campus accommodation:** Students of The College will have a dedicated residence on the Bay Campus, very close to the teaching building, and will be housed with other students of The College. From September, students will live in one of the newly built Swansea University halls, with a choice of standard or premium en suite rooms, before moving to The College’s own hall in January.

- **Value for money:** We can offer some of the least expensive lifestyles of the UK Top 30 research Universities. The College provides the same excellent standard of education, without the price tag.

- **24 hour student support:** Our Student Support team can offer advice and help 24 hours a day, seven days a week. We can organise airport pickup, accommodation allocation, provide orientation and advice on where to try the best food in the city!

- **Superb student lifestyle:** Our students are able to take part in all University events in addition to special activities reserved only for you. From opportunities to see Premier League games to trips around famous historical sites throughout the UK.

---

See page 46
Undergraduate pathway

An undergraduate pathway is a single course of study that leads to the award of a Bachelor Degree. After successfully completing this programme, you will be awarded a Bachelor’s degree from Swansea University.

University Foundation

The transition from high school to university is a big step, perhaps the most important in your life. The staff at The College understand this, and will provide you with ongoing guidance and support, as well as the knowledge and skills you need. This partnership between you and The College’s staff will make your transition a smooth one.

First Year Degree

You will experience the first year curriculum of Swansea University, but with smaller class sizes (except for integrated first year) and more academic contact hours. The integrated first year (in non-business related subjects) gives you the full University Level One syllabus based in your university college, with additional contact hours and tutorial classes with The College. This teaching and learning experience will enable you to develop your knowledge and understanding for the final years of your chosen degree.

Second and Final Degree Years

The Second and Final Year Degree are taught by Swansea University.

Postgraduate pathway

A postgraduate pathway is a single course of study that leads to the award of a Master’s Degree. When you successfully complete the pathway you will be awarded a Master’s degree from Swansea University.

Pre–Master’s

The programme is designed to prepare international students who have not qualified for direct entry to Swansea University’s Masters’ degrees. Undertaking the Pre-Master’s programme will allow you to adjust to the rigorous research and independent study requirements of a postgraduate degree and help you get the most out of your Master’s studies at Swansea University.

Master’s

The Master’s degree is taught by Swansea University.

English Language

English Language is a full-time course specifically designed for international students who need to improve their level of English before starting undergraduate or postgraduate academic studies. The course suits students with different levels of English competence and is offered by Swansea University’s English Language Training Services (ELTS). You can start an English Language course in September, January, April, June or July.

5th CHEAPEST UK CITY FOR STUDENTS

£398.03 AVERAGE MONTHLY EXPENDITURE

(NATWEST STUDENT LIVING INDEX 2017)
Your life on campus

The College is committed to helping you achieve your goals by providing many support services. As a student of The College, you will have access to all Swansea University’s services.

Services available at The College

We encourage you to use the support services available and contact our friendly staff for advice and assistance when you need it.

Once enrolled, all students will also have immediate access to the online student information, which includes all timetable and academic information as well as extracurricular information from the Students’ Union and The College’s support services and academic teams.

The student support team is responsible for providing:

- accommodation services
- airport pick-up service (on request)
- orientation programmes to familiarise you with The College, the University and the city of Swansea
- social activities
- student support
- study skills training
- academic performance monitoring, including the Students in Jeopardy programme
- attendance monitoring
- disability support
- learning support

Please note: all of the above are subject to availability and may incur an additional cost.

Activities at The College

If you are interested in getting involved in sports and societies, Swansea University is the perfect university for you. The campuses offer a wide range of recreational and sport facilities for you to use, including a gym, playing fields, sports halls and a 50 metre swimming pool.

Being part of sports and cultural societies while at Swansea University will open up many social and networking opportunities for you. We encourage our students to participate in such activities as much as possible.
Think sport...  
Think Swansea

Here at Swansea we pride ourselves on our dedication and commitment to sport and active living. The University’s sports department ‘Sport Swansea’ encompasses all areas of sport and recreation, welcoming every level of sporting ability.

In 2015, the New Zealand All Blacks used our Sports Village as a training ground for the Rugby World Cup; we hosted Paralympic teams from Mexico and New Zealand ahead of the 2012 Paralympic Games, and we hosted the 2014 IPC European Athletics Championships. We have strong links with Swansea City FC and professional rugby teams, the Ospreys and the Scarlets, who also have training bases with us.

GREAT VALUE GYM MEMBERSHIP

- Unlimited use of the Uni-Gym at both the Sports Village and Bay campus
- Access to FREE fitness classes
- Free entry to off peak racquet sports

SINGLETON PARK SPORTS FACILITIES:

Next to the Singleton Park Campus is our International Sports Village which includes:

- A gym
- Squash courts
- Fitness and spin studios
- Multi-purposes sports hall
- Physiotherapy clinic and soft tissue therapy clinic
- Outdoor tennis courts, playing fields, athletic track and field, sports pavilion and astroturf pitches

THE WALES NATIONAL POOL

The Wales National Pool is home to one of British Swimming’s High Performance Centres and was used as a training base for two international Paralympic teams. The pool is located at the centre of the Sports Village and it also runs Sub-Aqua and Surf Fitness classes.

SPORTS FACILITIES AT THE BAY CAMPUS:

The Bay Campus features a full height sports hall that can accommodate basketball, badminton, netball, volleyball, fencing and archery. There is also a fully equipped gym with a functional room for spin and kettlebells as well as changing facilities. Other sporting facilities and services include:

- A floodlit multi-use games area and half basketball court
- Training pitches
- Programmes of beach sports such as rugby, beach soccer, volleyball and beach tennis
- Instructor-led watersports programme in stand-up paddleboarding (SUP) and kayaking
- Cycle hire, exercise and jogging routes
Bay Campus

The Bay Campus is home to The College’s dedicated teaching and living spaces. The Bay Campus boasts some of the best learning facilities in the UK and is one of the only University campuses in the world to have direct access to the beach.

The College Academic Building
Our new academic building has 18 teaching rooms, designed especially for our smaller group teaching style, as well as computer labs and study areas offering choices for individual and small group study. With space for social and cultural activities, it is the centre of our learning community at the Bay Campus.

School of Management
The School of Management has a thriving student community drawn from across the globe. The School has a dynamic research culture centred around a number of research groups and our students benefit from the expertise of our world-leading academics who are involved in teaching at all levels.

Bay Library
You will find subject-specific learning resources, study spaces, computers, loanable laptops, USB charging points, staff and spaces to support your independent learning and professional development.

Access to the full range of e-books and e-journals, and 850,000 item print collection is available through delivery from our other sites.

Engineering
The College of Engineering is recognised internationally for its teaching and research with world-class Research Centres and a sustained investment programme, providing students with outstanding resources and facilities.

Computational Foundry
A world-class computational science research centre is due to open September 2018.

Other facilities:
• Students’ Union
• Gym and sports facilities
• Faith space
• Launderette
• Coffeeopolis coffee shop
• Tesco Express
Singleton Park Campus

Opened in 1920, first University campus in the UK
Your life in Swansea

Studying at Swansea University you’ll become part of a world-class research institution with grand ambitions. You’ll receive an outstanding learning and teaching experience with a distinct emphasis on employability, but you’ll also fall in love with the city.

Where is Swansea?
Swansea is conveniently located near the M4 motorway, which links it directly with London and Heathrow Airport, just a three hour drive or train journey away.
It has excellent direct rail links to London and other major UK cities, and with Cardiff International Airport just 45 minutes away, budget airlines make it quick and easy to visit other European countries.
As Wales’ second largest city, Swansea boasts the impressive infrastructure you would expect from a modern European city. Its beautiful seaside location makes it a favoured destination for tourists.
Swansea is a very affordable city to live and study in and is ranked in the top 5 cheapest student cities in the UK (Student Living Index 2017).

Swansea’s climate
The climate in South Wales is temperate and in the summer regularly reaches 20–25 degrees Celsius. Ideal weather for the beach, which is just a stone’s throw from both campuses. Winters are colder, with snow sometimes falling on the hills to the north of the city. However, Swansea’s seaside location usually protects the city itself from the coldest British weather.

19 miles of dramatic and picturesque coastline – ideal for the great escape when you need a break from lectures and the library.

Our Singleton Park Campus is situated in acres of tranquil parkland.

Our Bay Campus is situated right on the beach on the sweep of Swansea Bay.

Getting around Swansea

1. Sports Village
2. Halal food district
3. Food market and shopping district
4. Swansea Marina
5. Liberty Stadium

Bus service available between the accommodation and campuses.
Swansea University Students’ Union (SUSU) exists to enhance your experience at Swansea University. As a Swansea University student you are immediately part of the Union’s vibrant and diverse 17,000+ student membership. The Union is run by students at Swansea for students and will help make sure you get the most out of your education and enjoy every aspect of university life, whether it’s getting involved in activities, meeting people at events or socialising in Union-supported venues.

THE UNION OFFERS:

- Entertainment and events on and off campus – including Fresher’s week, Summer Ball and Varsity
- Student newspaper, television station and radio station
- Bars on campus, in the city centre and at the student village
- Advice and Support Centre – providing independent support for students
- Student representation to the University

“At Swansea Union we are to make sure that you get the absolute best out of university experience and enjoy every aspect of university life whether it’s getting involved in societies, going to events and socialising in our venues.

Five elected full time officers, seventeen part-time officers and a team of staff and volunteers are here to help make your experience at Swansea University the best it can possibly be!”

Chisomo Phiri, President of Swansea University Students’ Union

INTERNATIONAL@CAMPUSLIFE

Committed to ensuring you achieve your full potential and get the most from your student experience, International@ CampusLife provides information and advice on non-academic matters, including:

- Immigration advice and services, to all international students and their dependants
- Working in the UK
- Money Advice and Support
- Disability Support
- Accessing Healthcare

Advice is offered free of charge and without discrimination. The team operates according to the UKCISA/AISA code of ethics so you can be sure of a high quality service.
Accommodation

Students of The College will have a dedicated residence on the Bay Campus, a short walk from the teaching building, and will be housed with other students of The College. From September, students will live in one of the recently built Swansea University halls, with a choice of standard or premium en suite rooms, before moving to The College’s own hall of residence in January.

Ensuite Room
All rooms are equipped with a small double bed (known as 3/4 bed), a bedside chest, desk, chair, bookshelf, and storage for clothes as well as an ensuite with shower, toilet and wash hand basin. In addition, the room features blackout curtains, a pin-board and mirror. You will have access to a shared kitchen and a number of communal facilities.

Premium Ensuite Room
This room offers a larger room than the standard, a full double bed, plus an armchair and a drawer unit. As per the standard room specification, it has a bedside chest, desk, chair, bookshelf and storage for clothes as well as blackout curtains, a pin-board and mirror. You will have access to a shared kitchen and a number of communal facilities.

Communal Facilities
Rooms are arranged in flats of 4+ bedrooms, each having a Common Room with large screen TV and a large kitchen. All kitchens are equipped with cooker, hob, sink, microwave, kettle and fridge/freezer. Shared flats (4+ bedrooms) also have a breakfast bar and stools, coffee table and sofa. Please note that cutlery, crockery, and containers for separating residents’ food in fridges are not supplied.

All rooms are self-catered. In addition to a kitchen, there is a Tesco Express on campus and a range of catering and bar services on offer across Bay Campus.

http://www.swansea.ac.uk/catering/eatdrink/baycampus

There is bicycle storage within the central accommodation courtyard. Residents have access to self-service laundry facilities, a gym, sports hall and outdoor sports facilities.

There is a dedicated reception area staffed during office hours and a number of Welfare Wardens live on site for out of hours assistance.

There are rooms which are specially designed for students who are wheelchair users or who have visual or hearing impairments.

Virtual Tour
You can view a typical student room in this 360° Tour
http://virtualtourof.com/swansea-campus-student-accommodation

Accommodation Fees
Prices are shown on a weekly basis for comparison; however, students will be offered a contract for their duration of their course including orientation/enrolment activities.

- Medium Ensuite: £144 per week
- Premium Ensuite: £149 per week

The School of Management offers a suite of programmes in accounting and finance aimed at students with an interest in careers in the accounting or finance sector. The choice of programmes allows students to focus on one specialist area or to combine both, and all share a common first year which allows students to switch programmes at the end of the first year should they wish. These programmes benefit from a range of professional accreditations (depending on the programme and modules chosen) including:

- The Chartered Institute of Management Accountants (CIMA)
- The Association of Chartered Certified Accountants (ACCA)
- Institute of Chartered Accountants in England and Wales (ICAEW)

Computer Science affects every aspect of our lives, placing increasing demands on education, business, and industry to ensure that the workforce of the future is equipped with the skills necessary to thrive in the Digital Age. Computer Science at Swansea is at the heart of the technological innovation that is redefining the way we live, learn, and work.

The University’s degree programmes have been accredited by the British Computer Society, which allows you to join the Society at graduate level. These degrees will:

- train you for high-level entry into a wide range of careers, including software development, Internet systems, and development for mobile technologies
- provide you with the skills needed to identify the correct solutions to problems, and to measure how effective your solutions are
- teach you how to analyse and assess systems, and design new ones
- provide you with transferable skills, including team working, communication, presentation, and problem solving skills.

Education is a forward-looking, research-led discipline concerned with policy and practice from a global perspective. It is a rapidly growing area of study that draws on the disciplines of psychology, philosophy, history and the social sciences to focus on understanding how people learn and how structures of education operate to foster life-long learning and personal development.

The programme considers education in a wide context, not just within formal primary and secondary school settings, but also Further/Higher Education, social services, local and national government, and education within the community.

Engineering at Swansea University is taught in a cutting-edge learning environment using state-of-the-art teaching facilities. The university pioneers technological progress in both traditional and emerging engineering disciplines, working in partnership with major industrial companies. All engineering activities at Swansea University are driven by, and based on, world-leading research.

Our degrees have been accredited by a range of professional institutions. Examples include:

- The Chartered Institution of Highways and Transportation
- The Institution of Chemical Engineers
- The Institution of Civil Engineers
- The Institute of Design Engineers
- The Institute of Highway Engineers
- The Institute of Materials, Minerals and Mining
- The Institution of Engineering and Technology
- The Institution of Mechanical Engineers
- The Institution of Structural Engineers
- The Joint Board of Moderators
- The Royal Aeronautical Society

**University Foundation**

**Location**
The College, Swansea University, Bay Campus

**Intakes**
- September, November and January (two semesters)
- September and May (three semesters)

**Duration**
Two or three semesters depending on English level at point of entry

**Modules**
- Analytical Techniques 1
- Analytical Techniques 3
- Chemistry
- English Language Training
- Environmental Awareness
- Fundamentals of Materials
- Interactive Learning Skills and Communication
- Physics 2
- Physics 3
- Principles of ICT

*Module selection varies with length of programme and choice of actual degree scheme*

**First Year Degree**

**Location**
The College, Swansea University, Bay Campus

**Intake**
September

**Duration**
Two semesters

**Second Year Degree**

**Location**
Swansea University, Bay Campus

**Final Year Degree**

**Location**
Swansea University, Bay Campus

Successful completion of this pathway will lead to the award of one of the following, from Swansea University:

- BEng (Hons) Aerospace Engineering
- BEng (Hons) Chemical Engineering
- BEng (Hons) Civil Engineering
- BEng (Hons) Electronic and Electrical Engineering
- BEng (Hons) Materials Science and Engineering
- BEng (Hons) Mechanical Engineering
- BEng (Hons) Medical Engineering

**Employment and career options**

Potential career paths: aerospace engineering, automotive engineering, construction, manufacturing, medical sciences, product design, systems consultancy, telecommunications engineering.

**ENGINEERING**

LAW

All of Swansea’s LLB courses are qualifying law degrees. These degrees will:
• provide you with a solid foundation for a career in law
• train you to apply legal concepts in a practical environment
• provide you with transferable skills, including team working, communication, presentation, problem solving, and analytical skills.

Study law with us and:
• Learn a wealth of legal knowledge taught by lecturers with real-life experience.
• Gain exceptional analytical, communication and research skills and bright career prospects.
• Be part of a vibrant law community and get involved with a range of projects and societies.

Successful completion of this pathway will lead to the award of one of the following, from Swansea University:
- BSc (Hons) Applied Mathematics
- BSc (Hons) Mathematics
- BSc (Hons) Mathematics for Finance
- BSc (Hons) Mathematics for Information and Communication
- BSc (Hons) Mathematics and Management Science
- BSc (Hons) Pure Mathematics

Employment and career options
Potential career paths in: accountancy, banking, finance risk management, statistics.
From print and broadcast media to cinema and television, digital publishing, social networking, and public relations, the media increasingly defines the way we interact with our society. It shapes the way we see ourselves and others, and can be a powerful tool for social change, good and bad.

Media and Communication at Swansea has a broad vocational, theoretical and international outlook that reflects the challenges and opportunities of our media-rich world.

These degrees will:

- provide you with a profound knowledge of the history, theory and practice of media, film, public relations and journalism
- equip you with the skills and knowledge required to work in a range of media-related industries
- help you to gain transferable skills valued by employers, including new media, team working, communication, presentation, problem solving, and analytical skills
- provide you with a competitive edge in today’s job market and industries.

Successful completion of this pathway will lead to the award of one of the following, from Swansea University:

- BA (Hons) Media and Communication
- BA (Hons) French and Media (4 years)
- BA (Hons) German and Media (4 years)
- BA (Hons) Media and Spanish (4 years)

**Employment and career options**

Potential career paths in: advertising, broadcasting, copy writing, magazine, newspaper and broadcast journalism, market research, marketing, multimedia, public relations.
The study of Genetics and Biochemistry plays a major role in diagnosing human diseases and developing new treatments and pharmaceuticals. It sheds light on human evolution and the effect of environmental change on living organisms, and can help us to conserve the planet’s biodiversity. Many graduates of these programmes choose to move into graduate level medical programmes, or research and development roles in industry.

BSc (Hons) Medical Biochemistry and BSc (Hons) Medical Genetics will provide you with the appropriate training to undertake further study to become a medical doctor.

Successful completion of this pathway will lead to the award of M Ost Osteopathy from Swansea University.

Employment and career options
Potential career paths: Most registered osteopaths work in the private health care sector. There is a growing demand for osteopathy as people seek out modern, patient-centred care. According to the General Osteopathic Council, osteopaths carry out about seven million new consultations in the UK every year.

OSTEOPATHY
Politics and International Relations is not just about studying government institutions and international relationships. It is a discipline that has explored different visions for a more just society for thousands of years, while also addressing today’s most pressing challenges.

Politics and International Relations at Swansea University investigates issues including terrorism, genocide, financial crises, the role of the media, and the future of British politics. It asks where problems and threats to society come from, and whether we can prevent them.

The Department of Political and Cultural Studies is one of the select Departments that have been awarded the right to deliver a new module on Parliamentary Studies by the Houses of Parliament. This prestigious module is approved and supported by the Speaker and Clerk of the House of Commons and the Lord Speaker and Clerk of Parliaments in the House of Lords. Students studying the module will have the chance to visit the Palace of Westminster, as well as receiving talks at Swansea University from Parliamentary clerks covering a range of topics from the legislative process to the changing role of the House of Lords.

These degrees will:

- equip you with skills relevant for a rewarding career in a range of diverse fields, including civil and intelligence services, local and national government, management, finance, teaching, and journalism
- help you to gain transferable skills, including team working, communication, presentation, problem solving, and analytical skills

- provide you with the methodological skills and approaches necessary for postgraduate study and academic research.

Successful completion of this pathway will lead to the award of one of the following, from Swansea University:

- BA (Hons) American Studies
- BA (Hons) War and Society
- BA (Hons) International Relations
- BA (Hons) International Relations and American Studies
- BA (Hons) International Relations and Modern History
- BA (Hons) Politics
- BA (Hons) Politics and American Studies
- BA (Hons) Politics and Ancient History
- BA (Hons) Politics and English
- BA (Hons) Politics and History
- BA (Hons) Politics and Social Policy

**Employment and career options**

Potential career paths in: education, government policy, international development, journalism, local or international politics.
Psychology is the scientific study of the brain and behaviour. Students will study the psychological and neuroscientific processes that underpin daily activities such as thinking, reasoning, memory and language, learn the consequences of brain injury and how to improve health-related behaviour.

The Psychology degree is validated by the British Psychological Society (BPS) and confers eligibility for Graduate Membership of the BPS and for the Graduate Basis for Chartered Membership (GBC). The latter is the first step to becoming a Chartered Psychologist (on condition that a minimum of a Second Class Honours Degree, Division Two is achieved).

The degree will:
• equip you with skills relevant to careers in a wide variety of roles, including teaching, nursing, personnel management, and consultancy
• prepare you for postgraduate study or research
• provide you with transferable skills, including team working, communication, presentation, problem solving, and analytical skills. If you wish to practise as a psychologist in areas such as Clinical, Educational, Forensic, or Occupational Psychology, you will need to undertake further study at postgraduate or doctoral level.

University Foundation
- Location: The College, Swansea University, Bay Campus
- Intakes: September, November and January (two semesters) September and May (three semesters)

SOCIETY AND WELLBEING

3rd in the UK Social Policy
(Guardian University Guide 2018)
Sports Science at Swansea University is ranked 5th in the UK, according to The Guardian University Guide 2014. Swansea University prepares its graduates for their future careers and there are high profile placements with major sporting teams and venues.

As a student on the BSc Sports Science course, you will be provided with an academically rigorous and BASES accredited programme of study covering the factors that influence participation and personal performance in sports. You will also look at the methods by which these factors may be investigated.

This degree will:
- train you for a career as a sport and exercise scientist
- provide other rewarding career opportunities in roles as diverse as; Performance Scientists, Strength and Conditioning Coaches, Cardiac Physiologists, Performance Analysts, Physical Activity and Health promotion, and prepare you for postgraduate study

- provide you with transferable skills, including team working, communication, problem solving, and analytical skills.

HAS BEEN RANKED

**1ST IN THE UK GRADUATE PROSPECTS**
(Times & Sunday Times University Guide 2017)

**5TH IN THE UK RESEARCH IMPACT**
(REF 2014)

Successful completion of this pathway will lead to the award of BSc (Hons) Sports and Exercise Science from Swansea University.
Swansea is the only University in the UK to offer the unique BA Honours English – Chinese Translation and Interpreting programme to students with a native or near-native command of Chinese Mandarin, plus a high level of competence in English as a foreign language. The BA Language Studies and TESOL – teaching people whose first language is not English to speak the language – opens doors to a variety of rewarding careers around the world. Great news for our students – Swansea University’s English Language and Literature subjects rose to the top 200 of the QS World subject rankings for 2014.

- BA (Hons) English to Chinese Translation and Interpreting

**Employment and career options**
Potential career paths in: advertising, education, English language teaching, interpreter, journalism, marketing and tourism.

**Opportunities to study abroad**
For many of our degree programmes
Postgraduate pathways at Swansea University

The postgraduate pathway is designed for students who:
• do not meet university direct entry requirements
• require additional English Language training
• have been away from studies for a period of time or need to adjust to the UK education system
• are looking to fine-tune skills already gained during their undergraduate studies or employment.

The Pre-Master’s programme will:
• help you develop your intellectual and practical skills building a set of transferable skills that will support you in your further academic studies and future career.
• help you develop fundamental knowledge and an understanding of the basic principles relevant to your particular degree
• help you develop numerical techniques, research methodologies, presentation and communication skills
• ensure you have attained the required level of interdisciplinary language competency.

swansea.ac.uk/the-college
The School of Management offers a suite of taught programmes which are specifically designed to enhance employability. There are programmes for students with any undergraduate degree who now wish to study management and programmes for students who have already studied business or management at undergraduate level.

The School’s academic staff combine international research expertise with a wealth of industry experience which includes China Telecom, Costain, Dell, Deutsche Bank, Ernst and Young, G4S, Standard Chartered Bank, Skanska and WS Atkins.

For pathways leading to Masters in Management and Accounting and Finance, The College is pleased to now be able to offer a selection of Pre-Masters programmes designed to suit different admissions requirements. For students who have an existing vocational qualification (e.g., Horticulture, Jewellery making) and with an IELTS equivalent 6.0 (5.5), we are able to offer our 2 semester pathway option.

**TOP 20**

A top 20 UK management school for research impact REF2014

**4 ACCA exemptions**
Childhood Studies explores how children develop from birth, how they acquire the ability to learn and think for themselves, and how their development is influenced by their families and the communities they live in. It explores topics from broad historical, psychological, and sociological perspectives and examines the rights of the child in reference to the UN Convention. The Pre-Masters in Children and Young People is designed for a wide range of professionals working with children and young people. A broad range of topics are covered and students are encouraged to critically reflect on their practice and address theory and research relevant to their own interests. For pathways leading to Masters in Children and Young People, The College is pleased to now be able to offer a selection of Pre-Masters programmes designed to suit different admissions requirements. For students who have an existing vocational qualification (eg: Horticulture, Jewellery making) and with an IELTS equivalent 6.0 (5.5), we are able to offer our 2 semester pathway option. **Intake**
September

**Duration**
Two semesters

**Master’s Degree**

**Location**
Swansea University, Bay Campus

**Intake**
September

**Duration**
Two semesters

Successful completion of this pathway will lead to the award of one of the following, from Swansea University:

- MSc Aerospace Engineering
- MSc Chemical Engineering
- MSc Civil Engineering
- MSc Communications Engineering
- MSc Computer Modelling and Finite Elements in Engineering Mechanics
- MSc Electrical and Electronic Engineering
- MSc Materials Engineering
- MSc Mechanical Engineering
- MSc Nanoscience to Nanotechnology
- MSc Power Engineering and Sustainable Energy

Employment and career options

Potential career paths: aerospace engineering, automotive engineering, construction manufacturing, medical sciences product design, surveyor, systems consultancy, telecommunications.

The College, Swansea pioneered the development of numerical techniques such as the revolutionary finite element into ‘power stations’ through the use of functional coatings, and a low cost biosensor capable of diagnosing a range of health conditions.

As a postgraduate student you will have access to research enabling facilities housed in each of the College’s internationally recognised research centres, including state-of-the-art laboratories, multimedia suites, advanced computing technology and excellent postgraduate study rooms.

**TOP 10**

A UK top 10 engineering department

REF2014

**7TH IN THE UK**

RESEARCH QUALITY
(The Complete University Guide 2018)
The Pre-Masters in Public Health and Management at Swansea University are aimed at multi-professionals. The courses encompass a range of fields, including chronic-condition management, healthcare, infection control, law, management, nursing, public health and policy.

For pathways leading to Masters in Public Health and Management, The College is pleased to now be able to offer a selection of Pre-Masters programmes designed to suit different admissions requirements; For students who have an existing vocational qualification (eg: Horticulture, Jewellery making) and with an IELTS equivalent 6.0 (5.5), we are able to offer our 2 semester pathway option. Find out more at swansea.ac.uk/ the-college/postgraduate

Successful completion of this pathway will lead to the award of one of the following, from Swansea University:
- MSc Gerontology and Ageing Studies
- MSc Health Care Management
- MSc Public Health and Health Promotion
- MSc Health Informatics

Employment and career options

Potential career paths: clinical management, government strategic planning, health analysis nursing, osteopathy, paramedical science.

Pre-Master’s
Location
The College, Swansea University, Bay Campus
Intake
September, January and June
Duration
One, two or three semesters (depending on your subject area, level of prior studies and IELTS level)

Modules
- English Portfolio 6
- Pre-masters Interactive Learning Skills and Communication
- Academic English Skills (1)
- Research and Critical Analysis
- Critical Thinking Tutorial
- Marketing and Strategy
- People and Operations
- Introduction to ILSC
- English Portfolio 7
- Introduction to Management
- Quantitative Methods for Business
- Academic English Skills (2)

Module selection depends on degree scheme choice

Master’s Degree
Location
Swansea University, Singleton Park Campus
Intake
September
Duration
Two semesters

Employment and career options

University graduates are employed in diverse and dynamic vocations such as education; journalism, media and PR; creative and professional writing; marketing, sales and advertising; government and politics; foreign affairs and diplomatic corps; humanitarian organisations; commercial, industrial and public sectors; business, law and finance; social and welfare professions; heritage and tourism; teaching English as a foreign language and some are employed as translators.

Pre-Master’s
Location
The College, Swansea University, Bay Campus and Singleton Park Campus
Intake
September
Duration
Two semesters

Modules
- Interactive Learning Skills and Communication
- ICT Skills
- Mass Communications
- Academic English Skills (1)

Semester 2
- Globalisation
- Swansea University Delivered Modules 1 and 2
- Academic Tutorial - Critical Thinking

Master’s Degree
Location
Swansea University, Singleton Park Campus
Intake
September
Duration
Two semesters

Successful completion of this pathway will lead to the award of one of the following, from Swansea University:
- MA Chinese-English Translation and Language Teaching
- MA Teaching English as a Foreign Language (TESOL)
- MA Translation and Interpreting
- MA Communication, Media Practice and PR
- MA Development and Human Rights
- MA Digital Media
- MA International Journalism
- MA International Relations
- MA International Security and Development
- MA Politics
- MA Professional Translation
- MA Public Policy
- MA War and Society

LANGUAGE, POLITICS AND CULTURE
# Your academic entry requirements

The requirements listed below refer to the minimum grades acceptable for entry to study, however certain pathways may require higher grades.

<table>

</tbody>
</table>
Mohammad Zaheer Malik from Pakistan studied Civil Engineering.

“Swansea is a lovely place to study and enjoy life. Every morning I see the sunrise over the bay, which is beauty in itself. With regards to studies, Swansea’s Civil Engineering degree has a good rank in the UK and all over the world.”

See pages 24 and 40 for Engineering courses

Daniil Ryazantsev from Russia is studying Business Management at Swansea University, having progressed from a foundation in Business.

“Swansea University has an incredible atmosphere – everyone trusts and respects you. With professionals working on the course, it’s possible to come out with a very good degree and job.”

See page 21 for Business courses
### English Language and your study plan

The language of instruction at The College is English. To attain entry into the undergraduate or postgraduate pathway, you must be able to demonstrate you have a suitable level of English proficiency. You can do this by obtaining one of the results shown in the table below.

<table>

*IELTS Academic and other forms of acceptable language qualifications are accepted

**Students can apply for their second visa from within the UK and will be able to access the University’s free Visa advisory service
Studied in English?

Exemptions
Where appropriate (i.e. you have obtained the relevant score) The College/Swansea University will continue to consider IELTS exemption from students who have taken local examinations in English such as WAEC, KCSE, IGCSE, HKDSE, A or AS level, IB, SPM and so on.

English language preparation
If you do not meet the English language requirement for direct entry to your chosen pathway, you can receive the required amount of English language tuition to prepare you for successful entry into your chosen programme at a later date. The English language training is delivered by Swansea University’s English Language Training Services (ELTS).

English Language dates
14 weeks courses begin September and February of each Year
Twelve week course begins June of each year.
Eight weeks course begin July of each Year.

Amina Sanusi from Nigeria studied Accounting and Finance Foundation.

“Studying at The College has helped me learn about other cultures. I now have friends from all over the world!”
Ka Ho Tong from Hong Kong studied integrated Year One Psychology and is now a proud Swansea University graduate.

“This is such a beautiful and comfortable place to live. Moreover, people are friendly, allowing me to get used to living in a new environment quickly. Most importantly, the University is high ranking and provided me with a lot of guidance for my future career.”

See page 32 for Psychology courses
Bursaries and Scholarships

Family bursaries
There are family bursaries which apply where two or more students from the same family study with us or any of our associated colleges, see below. *

The bursary is equivalent to 10 per cent of the tuition fee for up to 8 units of study within one program only.†

* The Family bursaries are offered to students studying at ACBT, BCUIC, Curtin College, Curtin Singapore, CRIC, Deakin College, Deakin College Indonesia, Edith Cowan College, Eynesbury, FIC, Griffith College, HIC, ICM, ICP, ICRGU, The College, Swansea University, La Trobe Melbourne, La Trobe University Sydney Campus, LBIC, Navitas at FAU, Navitas at UMass Boston, Navitas at UMass Dartmouth, Navitas at UMass Lowell, Navitas at UNH, NIC, PUC, SAIBT, SIBT, UC College, UCIC, Western Sydney University International College, and Western Sydney University Sydney City Campus only.

† Certificate programmes may also be known or registered as Foundation Studies or University Transfer Programme Stage I. Diploma programmes may also be known or registered as Undergraduate Pathway, University Transfer Programme (UTP), University Transfer Programme Stage II, University Pathways Programme.

‡ The Navitas bursary is not applicable to any English language programme or any component of an English language programme offered by a Navitas member institution.

§ The supporting documentation that is required will depend on the country where the student is enrolled.

Follow the step-by-step online application process.
Navitas is a world leader in developing and providing educational services and learning solutions, and continually adapts to meet the needs of the changing global environment.

Navitas provides you with the education you need, to get where you want to be in life. From English language skills and courses to help you enter university, to training for the workplace, Navitas has colleges and campuses in 28 countries that will support students every step of the way.

With over 120 Navitas and SAE Institution locations across the globe, and over 80,000 students currently studying with us, we understand the world’s learning needs. We’ve become one of the most trusted providers of education and training in the world.

Navitas offers to students, professionals and migrants from around the world the following opportunities:

• English language training
• High school studies
• University preparation and programmes
• Post-secondary education for creative media technology
• Career advancement programmes
• Student recruitment
• Internship programmes
• Migrant settlement services

Navitas also offer customised workplace training for companies, and a range of training and settlement services for the Australian Government. Wherever you are, and wherever you want to be, the knowledge and resources of our staff around the world will ensure your success.

Swansea University is a world-class, research-led, dual campus university. The University was established in 1920 and was the first campus university in the UK. It currently offers around 350 undergraduate courses and 350 postgraduate courses to circa 20,000 undergraduate and postgraduate students.

The University’s 65-acre science and innovation Bay Campus, which opened in September 2015, is located on the eastern approach to the city. It has the distinction of having direct access to a beach and its own seafront promenade. Just a few miles away is the University’s 46-acre Singleton Park Campus, located in beautiful parkland with views across Swansea Bay. Both campuses are close to the Gower Peninsula, the UK’s first Area of Outstanding Natural Beauty.

Swansea was named ‘Welsh University of the Year’ in The Times and The Sunday Times Good University Guide 2017. The University is in the top 300 best universities in the world, ranked in the 251-300 group in The Times Higher Education World University rankings 2018.

The results of the Research Excellence Framework (REF) 2014 showed the University has achieved its ambition to be a top 30 research University, soaring up the league table to 26th in the UK, with the ‘biggest leap among research-intensive institutions’ (Times Higher Education, December 2014) in the UK.

The University has ambitious expansion plans as it moves towards its centenary in 2020, as it continues to extend its global reach, realising its domestic and international ambitions.

The College, Swansea University is a joint venture between Swansea University and Navitas. It is the successor to the embedded college of Swansea University, which was known as International College Wales, Swansea (ICWS).

swansea.ac.uk/the-college

'The College, Swansea University' is a joint venture between Swansea University and Navitas. It is the successor to the embedded college of Swansea University, which was known as International College Wales, Swansea (ICWS).
The administrative offices of 'The College, Swansea University' are in a building of the same name on the Bay Campus of Swansea University, however students are taught at both the Singleton Park and Bay Campus, depending on the programme of study.
