Funding available for postgraduate study

£8 MILLION
WELCOME TO
Swansea

Find out more about Swansea University and our postgraduate programmes by booking on to one of our upcoming open days*.

BOOK YOUR PLACE TODAY: swansea.ac.uk/postgraduate/open-days

*please check our website for full details, dates and format of upcoming open days.
Our University has evolved greatly over the years, but our values remain strong and constant. In these incredibly challenging times, our students remain our priority. We have invested heavily in student safety and welfare, including financial support, as well as maintaining the high quality of teaching and research opportunities that we offer.

We are a true community; we value our people and appreciate that the significant input of our postgraduate students contributes to our success. Research and innovation are at the heart of the Swansea experience and feed directly into the quality of our teaching. In this prospectus you will see many references to the real-world impact of our research, from sustainable manufacturing to pain-free vaccines. We welcome fresh perspectives, and you will receive all the support you need, both directly from our dedicated staff and through access to our outstanding resources, to achieve your ambitions and to enrich our research environment.

Swansea is ranked in the UK Top 10 in the 2020 WhatUni Student Choice Awards Postgraduate category, a clear recommendation by those whose view matters most. We are in the top 30 in two of the three main UK league tables – the Complete University Guide and the Guardian University Guide – and continue to climb the international QS rankings.

My first academic role was as a young lecturer here, and I can personally say that the quality of the education and nurturing environment is still hard to match elsewhere.

I hope my faith in our University is clear, but please don’t just take my word for it – book a place at one of our open days to find out more.
From making greener, cleaner steel; turning plastics into hydrogen; improving the health of the population; preserving ancient monuments, to; challenging and shaping policy around fairness and equality and ensuring the safety of individuals and communities across the world; our research helps prevent, combat, and reverse the global challenges of today.

Swansea University boasts interdisciplinary research across all areas, encouraging original thinking and collaborative working to create innovative outcomes.

You can help change the world and overcome global challenges at Swansea University, by working with world-renowned academics, using leading research facilities, and collaborating with global businesses, partnerships and academics.

How Research at Swansea University has been making a difference

Our research informs global health policies and enables innovation of devices, services, and diagnoses to promote good health and wellbeing. And with close proximity to NHS Wales facilities and staff, our researchers are able to take full advantage of state-of-the-art facilities and interdisciplinary expertise.

Our world class research works to improve regulation, testing and understanding of nanoparticles enhanced by the presence of the multi-million pound interdisciplinary Centre for Nanohealth. The SAIL databank allows us to link and analyse data from multiple sources and is a safe haven for billions of person-based records, which enables researchers to answer important questions for the benefit of society. Our research is translational, taking ideas and insights from research bench, to patient bedside, and back again. We innovate new ways to treat and prevent diseases, reverse stigmas, and decrease pressures on the NHS.
We recognise the global challenges which we all face. From running the UK’s largest seagrass restoration project, to flying high with condors in Argentina with SLAM [Swansea Lab for Animal Movement] to advancing the understanding of iceberg calving in Antarctica and creating buildings that harness and store its own energy. Our passionate academic community are working to combat the effects of the climate emergency for the future.

Our research into steel has led to the development of lighter, greener, smarter steel and a cleaner production process, helping to combat climate emergency issues. Our multi-million pound campus, home to projects such as SPECIFIC and close to industry partners Tata Steel, enables us to work across disciplines to create and develop solutions to combat the climate emergency.

Our research is focused on governance, protection of SMBs (Small Medium Businesses), human rights and criminal justice. We work in collaboration with each other; a range of individuals in academic institutions and other government, intergovernmental and non-governmental organisations.

Our research is facilitated by research groups and centres such as the Cyber Threats Research Centre, Institute of International Shipping and Trade Observatory on Human Rights for Children and Governance and Human Rights Research Group.

We are finding ways to preserve and protect the world for future generations.

We are creating innovation in steel and the steel making process.

We are making a difference to society, protecting people, and ensuring equality.

We are making a difference to society, protecting people, and ensuring equality.
We are working with local and global communities to preserve history, influence policy and encourage open and nurturing cultures.

From protecting cultural heritage sites; to informing and improving education policy; to promoting better understanding of the role of digital media in contemporary life, our research engages with key issues and problems.

We are deeply committed to high quality research which is intellectually innovative as well as having real world impact. Our research centres such as the Centre for Digital Arts and Humanities, Language Research Centre, Global Drugs Policy Observatory enable us to fulfil our ambition to create an equal, safe, and sustainable world built on respect and understanding.

We are helping industry to be more sustainable.

Working in collaboration with partners and experts in their field, our researchers are able to streamline and improve productivity in manufacturing processes, reducing waste, saving energy and money.

Home to projects such as ASTUTE which enables greater levels of business innovation in manufacturing and with world famous centres of excellence such as the Zienkiewicz Centre for Computational Engineering, we are helping industry to be more sustainable.

Our research puts people at the centre of technological advancements. We create safer digital environments which integrate and enhance human lifestyles.

Our research includes a focus on accessibility for sensory impaired users; developing digital platforms to encourage political engagement; keeping children safe online and combating abuses of online media. In everything we do, we seek to enhance individual empowerment in realising the potential of digital technology.

We are bringing people together, preserving history, and influencing policy.

It’s who we are.

We are working with local and global communities to preserve history, influence policy and encourage open and nurturing cultures.

Postgraduate taught degrees are academically more demanding than undergraduate programmes. They require a higher level of self-directed learning and are awarded to students who demonstrate advanced understanding of a particular subject. Master’s degrees are delivered through a combination of taught modules and assessed coursework, and there is an expectation that students will complete an in-depth research project or dissertation.

Taught master’s degrees are generally modular in structure, meaning that students follow a series of modules worth a total of 180 credits. 120 credits are gained from taught modules, and 60 credits from the dissertation.

Taught master’s programmes often include research and methodology skills courses and specific departmental training courses, which are essential for students at master’s level and those wishing to go onto higher degrees. Additional specialised training courses are also available during the academic year.

To qualify for a Postgraduate Diploma, students must pursue 120 credits, or 60 credits for a Postgraduate Certificate. (Specific regulations apply – please note that not all programmes offer these exit qualifications.)

CHOOSING A PROGRAMME
The University offers a range of postgraduate taught degrees, including the MA, MSc, and LLM. You can pursue a postgraduate course in the same subject as your undergraduate degree or, in many cases, outside it.

CONVERSION COURSES
If you want to change the direction of your studies or career path, you have the option as a postgraduate student to move away from the area you studied at undergraduate level by studying a conversion course. These courses allow graduates of any subject area to study a postgraduate master’s course without any previous relevant qualifications.

We have a diverse selection of conversion courses available in finance, science, engineering, health science, medicine, law, business management and arts and humanities.

CAN I STUDY PART-TIME?
Master’s, Postgraduate Diplomas and Postgraduate Certificates can normally be studied on a full-time or part-time basis in a wide variety of subject areas. You are encouraged to contact the academic department in question before applying. Look out for the symbol on the course pages.

IS A POSTGRADUATE TAUGHT DEGREE RIGHT FOR ME?
Yes, if you want to:
• Enhance your career prospects
• Acquire new and specialised skills
• Prepare for a research degree
• Develop your subject knowledge of your first degree subject
• Study an entirely new subject

ASSESSMENT THROUGH THE MEDIUM OF WELSH
You may present research work in the Welsh language if your supervisors are able to oversee work through the medium of Welsh.
Postgraduate Research Degrees

Research degrees are academically rigorous programmes that require in-depth study of a topic for a sustained period of time. The award of a doctorate or other research degree recognises the commitment of successful candidates, the high-level skills they have gained, and their ability to present original research that furthers understanding of the subject matter.

As a research student, you will normally undertake some training in research methods before embarking on your programme of research. You will have an academic supervisor who will advise and support the direction of your research for the duration of the degree, and a co-supervisor will provide additional support as required.

Choosing a Research Topic

Research degrees, especially at MPhil and PhD level, are very different from undergraduate and taught master’s programmes as there is no defined list of courses to choose from. MPhil and PhD degrees can be pursued on any academic topic, as long as the faculty you are applying to has the expertise to guide and supervise your study.

swansea.ac.uk/postgraduate/research

Even if you have a more developed research proposal in mind, we recommend that you approach the relevant Admissions Tutor for advice. Applicants are partnered with potential supervisors at an early stage. This is vital to ensure:

• That you receive the advice and guidance you need to decide whether or not a research degree at Swansea University is right for you.
• That the supervisor is enthused and motivated by the topic.
• That you move smoothly into an appropriate research group (where applicable).
• That you complete and write up your research within the required timeframe.

Which Research Degree?

The University offers a number of research degrees, including:

PhD: PhD students undertake supervised research over three to four years full-time or six to seven years part-time. Research is then presented in the form of a thesis of not more than 100,000 words. The thesis must demonstrate the student’s capacity to pursue original research and should represent a distinct and significant contribution to the subject. The first year of registration for a PhD is a period of official probation, requiring departmental assessment before the candidate is allowed to proceed.

MPhil: May be completed in two to three years’ full-time study (four to five years part-time). Candidates are required to submit a thesis of up to 60,000 words and assessment is in the form of an oral examination (viva). Subject to academic requirement, there may be opportunities for students to upgrade from MPhil to PhD during the course of their studies.

MA/MSc by Research: Typically one year full-time, two to three years part-time. This is an individual research project written up into a thesis of 30,000 words.

MRes: The aim of the MRes (Master of Research) is to provide relevant training to acquire the knowledge, techniques and understanding needed for a professional career, or for progression to higher academic studies, normally a PhD. The MRes is achieved through a combination of taught modules (worth 60 credits) and a research thesis which presents the outcome of a significant research project (worth 120 credits).

DBA: The Management DBA typically is a four year, part-time programme, consisting of six modules, plus a thesis. Each module is structured around a three-day intensive teaching block, plus a variety of online support from the teaching teams and doctoral supervisors.

EdD: The Professional Doctorate in Education (EdD) offers students the opportunity to approach issues in education in a professional and critical manner at doctoral level. (For course information - see page 102)

Have any questions?

The Postgraduate Admissions Office is happy to advise you on whether your qualifications are suitable for entry to the course you would like to study. For further information please email: pgradmissions@swansea.ac.uk

Is a Research Degree Right for Me?

Yes, if you want to:

• Pursue a career in academia or research.
• Explore an individual topic in depth.
• Acquire extensive and specialised research skills.
• Enhance your career prospects.

swansea.ac.uk/research-with-us/postgraduate-research

Find out more about the range of university, faculty and student research communities you can get involved with as a postgraduate research student:
**EngD**: The Engineering Doctorate prepares Engineering students for research and technology leadership careers in industry and is fully supported by the Engineering and Physical Sciences Research Council. The EngD is a four year scheme consisting of one year of taught modules followed by an industry-linked research project.

**MD**: In addition to the PhD, the Medical School offers the postgraduate degree of Doctor of Medicine (MD) through supervised research within individual research groups.

**DProf**: Typically four years full-time, six years part-time, a Professional Doctorate is a research degree structured around a particular area of professional practice. You will follow a programme of directed study, including periods of approved professional/industrial practice and training, together with a programme of research. Assessment includes a thesis of up to 80,000 words. The degree ensures that the candidate’s profession and workplace interconnect throughout the whole programme, so that research conducted is relevant to their own practice and workplace.

**CAN I STUDY PART-TIME?**
Part-time study is possible for UK and international students*, but you are encouraged to contact the academic department in question before applying. Look out for the **PT** symbol on the course pages.

*Please visit our website for conditions.

**HR EXCELLENCE IN RESEARCH AWARD**
Swansea University proudly holds the European Commission HR Excellence in Research Award in recognition of our commitment to support the career development of research staff. We recognise the crucial contribution that research staff make to our internationally excellent and world-leading research. The success of our research staff underpins our ambition which will drive forward research quality, create a suitable environment for research to flourish, whilst ensuring that the impact of our research is maximised. To this end, we are committed to providing a genuinely supportive environment and culture, where researchers can thrive both professionally and personally.

**KEY**
- **FT** Full-time study
- **PT** Part-time study
- **S** International students pathway route available

**DEGREE TYPES**
- **DBA** Doctor of Business Administration
- **DProf** The Doctor of Professional Studies is for advanced practitioners. With the successful completion of the examination you will achieve a doctorate and can be addressed as Doctor.
- **EdD** Doctorate in Education
- **EngD** Engineering Doctorate
- **LLM** Master of Laws
- **MA** Master of Arts
- **MBA** Master of Business Administration
- **MD** Doctor of Medicine
- **MEng** Master of Engineering
- **MPhil** Master of Philosophy
- **MRes** Master of Research
- **MSc** Master of Science
- **PGCert** Postgraduate Certificate
- **PGDip** Postgraduate Diploma
- **PhD** Doctorate of Philosophy. A PhD is the doctorate-level degree granted in a variety of different disciplines.

**WHERE YOU’LL STUDY**

Your Guide TO THE COURSES SECTION

Abbreviations and symbols you will find:
Many members of our four thousand-strong postgraduate community are former undergraduate students who enjoyed their time in Swansea so much, they chose to stay!

There’s lots of benefits to staying with us in Swansea to study your postgraduate degree:

1. You’ll already be familiar with the University, its campuses and surrounding areas.
2. Having already studied with us, you’ll know all the best places to live, study, eat or relax!
3. You’ll still be able to access the extensive range of services offered by departments such as the Swansea Employability Academy, Centre for Academic Success and MyUniHub.
4. You may already know several of your postgraduate course-mates, and you may even be able to continue living with former flatmates.
5. Swansea’s range of conversion courses allow you to study for your postgraduate degree in a completely new subject area.
6. If you choose to study in the same subject area, you can continue to build on your working relationship with academic lecturers and mentors, further developing your specialist knowledge.
7. As a current Swansea student, you’ll complete a much shorter application form for your chosen postgraduate course.

Some of our current students share their experiences of transitioning from undergraduate to postgraduate study:

**BECKY GREENWAY**
MA International Journalism student
“I chose to complete my master’s degree at Swansea University because of the wonderful experience I had studying my undergraduate degree here. Also, an important factor to me when deciding where to do my postgraduate course was employability and Swansea is known for its dedication to student employability. The biggest difference between my undergraduate and postgraduate experiences would be the level of difficulty at the higher level. However, at Swansea there is always help available to you from your lecturers, supervisors, library staff, and others who help you feel supported throughout your studies.

My advice for undergraduates currently studying at Swansea who are thinking about staying on for their postgraduate would be to attend a Postgraduate Open Day to find out more about courses and opportunities available to Swansea postgraduate students.”

**HYWEL EVANS**
MPhys Physics graduate
“I finished my MPhys Physics integrated master’s degree and decided to stay in Swansea for a PhD working in an antimatter laboratory. I was successful in obtaining a bursary which funded my studies and worked as a Postgraduate Demonstrator for teaching experience, which also brought in additional funds. Being a postgraduate researcher is similar to being in employment and required more time commitment than my undergraduate studies and it’s good preparation for full-time employment. I have learnt a lot of practical skills, alongside presenting to specialists at conferences around the world (Belfast, Dundee, Geneva and Belgrade). This has improved my abilities and helped me to be successful at job interviews for when I’m finished.

Swansea University had all the tools I needed to succeed academically and is so close to great parks and beaches – I didn’t want to study anywhere else.”

**HOPE HENRY**
Applied Medical Sciences graduate
“Following my undergraduate degree at Swansea in Applied Medical Sciences, staying to study Graduate Entry Medicine seemed like my natural next step.

During my undergrad, Swansea has been incredible, with such a friendly community of staff and students and with access to a plethora of support services and social opportunities, including societies and volunteering.

Swansea University also has such stunning surroundings with gorgeous beaches on our doorstep that really are second to none, especially with the close proximity to the Mumbles, Three Cliffs Bay and the Langland, Caswell and Bracelet bays. Swansea sports a great student life, encouraging balancing academia with exploring its idyllic settings and excellent nightlife, which coupled with the Medical School’s incredible reputation had me sold for another four years.

Staying at Swansea was a no brainer. I love it here and it feels like home so why would I want to go anywhere else?”
Q: How will postgraduate research be affected?

We recognise that the coronavirus outbreak is unprecedented and are therefore implementing measures to support postgraduate research students.

The University has worked to ensure that the current situation has as little impact as possible on your study and research, with supervision, assessment and progression provided online (including Viva examinations, thesis submission and confirmation of candidature).

We are monitoring the situation so please check this website regularly to keep up to date with the latest advice. For student related queries, please email:

postgraduate-research@swansea.ac.uk

myuni.swansea.ac.uk/coronavirus-student-faqs/faq-postgraduate-research-student

Q: How will I be taught?

Our commitment to you is to provide you with the highest quality teaching and the best possible teaching experience.

We’re proud to provide an outstanding learning experience and are championing blended learning here at Swansea University, which includes the use of online/e-learning technologies to complement, support and enhance traditional face-to-face teaching.

Whether teaching is delivered online or in person, we will ensure you have the opportunity to get to know your academics well, and to engage in lively discussions with your peers to deepen your knowledge and further your understanding.

We intend our adapted approach to teaching and learning to enhance your student experience, providing you with greater flexibility, while still retaining all the quality you expect from a university education.

Detailed information and updates about the start of term will be communicated to applicants directly. For specific enquiries, please get in touch:

study@swansea.ac.uk
+
44 (0)1792 295111

Q: What will student life be like?

You will have the opportunity to meet people on your course, in your student accommodation and to make friends at the various activities that will be put on by the Students’ Union in the first few weeks. The student-led societies are a great way to meet people with a shared interest and they have been innovative and creative in their response to the current situation.

Check out Swansea University and Swansea Uni Students’ Union social media channels and student takeovers to see what student life has been like for students this year:

Swansea University has consistently ranked highly for Student Satisfaction, and your teaching, learning and overall student experience is a priority for us.

Along with every university, we are employing new ways of teaching and learning to give you the best possible experience, but we understand that now, more than ever, you will feel apprehensive, and have many questions about how we have adapted at Swansea.

As our situation as a university evolves, we will be sure to keep you up-to-date with helpful information accessed through our Q&A guide:

swansea.ac.uk/about-us/coronavirus/faq-visitors/prospectivestudents

You can also chat online with one of our friendly student ambassadors:

Q: What student facilities will be available?

Q: What mental health support is available to students?

Q: Can I access study spaces and resources?

Q: Can I play sport?

Q: What additional digital resources are available to me?
Swansea University was founded in 1920 to respond to the needs of our local and wider community, through research, through innovation: making a difference has been part of our culture for over 100 years.

Recent events have had a great impact on us all, but we believe there is much we have learnt from our situation, and many positive outcomes. We have discovered that we are able to adapt – not just sufficiently, but incredibly well – to new ways of studying, working, and living.

We have discovered also how resilient we are to change, and we have had the opportunity to implement many flexible practices at the University that we believe are for the better, for our students and for our entire university community.

We are excited to see what the future holds, and we are entirely committed to making the Swansea University experience a positive and rewarding one for all our students.

Over 1000 students from the Faculty of Medicine, Health and Life Science volunteered to help health service colleagues during the pandemic:

- Final year medical students were inducted as doctors after the General Medical Council offered early provisional registration
- 662 nursing students were placed within health boards
- The entire third year of the University’s midwifery degree assisted qualified midwives
- At least 101 paramedic students signed up to work with the Welsh Ambulance Service

JOIN OUR OUTSTANDING Alumni

At Swansea University we are extremely proud of our graduates. When you study with us, you’ll join the thousands of alumni who have used their experiences at Swansea to make their mark on the world. Many have gone on to achieve great success in their careers, becoming business leaders, sporting champions, undertaking ground-breaking research, or finding their place in the limelight. Here we share some of their inspirational stories.

**DAVID SMITH,**
MEng Aerospace Engineering. Class of 2014.
PARALYMPIAN.

“I wanted to study Aerospace Engineering and the staff around the course, the general atmosphere and the beach were the main draw. Some of my favourite memories include the study trips that involved flying like the flying lab at Cranfield or flying around the Gower.”
Receiving his first Paralympic gold just before fresher’s week, World and Paralympic Champion, David aims to dominate in the sport of Boccia and won his fifth Paralympic medal at Tokyo 2021.

swansea.ac.uk/alumni/alumni-profiles/david-smith

**ALEX RUDDY,**
STEPS UP TO WORK AS A FRONTLINE MEDIC DURING THE COVID-19 PANDEMIC.

“The prospect of beginning my career as a doctor a few months early filled me with a sense of nervous duty. We have trained for this moment for the past four years – and have been working towards it for much longer – and above the sense of personal fear or anxiety I think we are all eager to apply ourselves to this crisis and help our NHS at this time of immense need”.

swansea.ac.uk/centenary2020/century-of-inspiring-people/alex-ruddy

**RAWAN TAHA,**
MSc Public Health and Health Promotion. Class of 2018.
EIRA FRANCIS DAVIES SCHOLAR.
HUMANITARIAN AFFAIRS FELLOW.
CLIMATE CHANGE COMBATANT.

“As a young scholarly African woman, I was looking for a university that provided opportunities for young leaders like myself. My advice to current students is to use university time to become beyond your degree, beyond your thesis and beyond your transcripts. Only then will you be able to get a job and live a life that is beyond your expectations”.

swansea.ac.uk/alumni/alumni-profiles/rawan-taha

**KATE MCMURDO,**
LLM Legal Practice and Advanced Drafting. Class of 2019.
DISABILITY RIGHTS CAMPAIGNER.
EDUCATION ACTIVIST.
SUPERMUM.

“I realised that if I wanted to change things and really challenge the system, I needed to understand the law and be a part of the change that I wanted to see. I thought that if I trained to become a barrister, perhaps I could advocate for families facing injustice and discrimination”.

swansea.ac.uk/alumni/alumni-profiles/kate-mcmurdo

swansea.ac.uk/alumni/alumni-profiles
ON YOUR DOORSTEP
On the Gower Peninsula you can unwind in the UK’s first Area of Outstanding Natural Beauty, relax on award-winning beaches and explore unspoilt countryside, with the Brecon Beacons National Park just a 30 minute drive away. The region has some of the UK’s best locations for coastal path walks, surfing, cycling, watersports, rock climbing and golf, for the adventure sport enthusiast to the lazy walk on the beach, there’s something for everyone.

MUMBLES
Birthplace of Catherine Zeta-Jones, the quaint village of Mumbles is host to a great variety of shops, cafés, wine bars, pubs and restaurants. Take a stroll and enjoy an ice cream at one of the many parlours dotted along the promenade or grab a bite to eat at one of the seafront cafés or restaurants overlooking Swansea Bay.

SHOPPING
Shop big high street names as well as independent boutiques, specialist shops and traditional arcades. You can visit designer boutiques in Mumbles, shop vintage outlets in Uplands or pick up a bargain in Wales’ largest indoor market in the heart of the city.

ARTS
Swansea is a vibrant centre for art and The Glynn Vivian Art Gallery is widely recognised as the city’s premier venue for art exhibitions. All national museums and art galleries in Wales are free to enter, so you can soak up our history and join one of the many trips organised by Swansea University’s Students’ Union.

THE TALIESIN ARTS CENTRE
The Taliesin Arts Centre sits at the heart of the Singleton Park Campus and hosts regular productions, mainstream and alternative cinema screenings, a restaurant, bar, and the award-winning Egypt Centre, home to a collection of over 5,000 Egyptian antiquities.

MAKE YOURSELF
at home

As a postgraduate student joining the Swansea University community, we want to help you find a place you can call home.

Postgraduate accommodation is provided at four residences: Bay Campus, Singleton Park Campus, Beck House in the nearby Uplands area, and at Hendrefoelan Student Village. Tenancies are mainly offered on a fixed, 51-week basis although we are also able to offer some designated postgraduate flats on a 40-week tenancy at the Student Village and Bay Campus respectively.

LIVING IN THE STUDENT VILLAGE*
Approximately two miles from Singleton Park Campus is the Hendrefoelan Student Village. The Village provides self-catering accommodation and shared facilities in 7-bedroom flats. If you choose to live in the Village, you will have your own room at an affordable rate that compares favourably with private sector accommodation. Student life at the Village is sociable and supportive, and you will benefit from:
- On-site launderette
- On-site parking is available for residents at Hendrefoelan Student Village and Beck House
- Free First Group Unibus Bus pass for contracts over 13 weeks

*accommodation at Hendrefoelan Student Village available for 2021/22 academic year

ACCOMMODATION AT BECK HOUSE
We have a number of single and family flats at our designated quiet residence, Beck House, approximately a mile from Singleton Park Campus in the popular area of Uplands. Due to the 51-week tenancies, this accommodation is mostly suitable for postgraduate and international students.

LIVING ON CAMPUS
Living in Singleton Park or Bay Campus residences puts you right at the centre of university life. Self-catering accommodation comprises fully-furnished, en suite rooms with a shared kitchen and dining area.

KEY POINTS
- Our rooms have free Wi-Fi
- You will be represented by ResNet, a network of live-in student volunteers, who ensure each student has the best experience possible
- Rooms are single occupancy only (exception being Beck House family flats and a small number of twin rooms on the Bay Campus)
- Launderette facilities
- Adapted rooms are available for students with special requirements, including wheelchair users. Contact the Disability Office for further information
- En suites available

FINDING THE PERFECT PRIVATE SECTOR HOME

If you'd prefer to live off campus, you’ll be pleased to know that there’s a good supply of quality private sector student houses and flats in Swansea. Our letting agency, Student Accommodation Services (SAS) manages 130 properties in the nearby local communities of Brynmill, Uplands and Sketty which are mostly within two miles of the campus, and in St. Thomas and Port Tennant, close to the Bay Campus. These areas are also close to local facilities such as shops, bars and takeaways.

Our online, searchable database, Studentpad is invaluable. It allows you to locate other available housing in the area and takes the effort out of house-hunting.

We commit to a significant investment in postgraduate education. In 2020/21 over £8 million in scholarships and bursaries were available to study postgraduate courses at Swansea University.

Swansea University is committed to rewarding its students in recognition of their academic and non-academic excellence, and have on offer a wide range of scholarships and bursaries to help towards the cost of study. Income-related bursaries are also available, together with funding towards studying in another country if chosen as part of a degree programme.

Letzee is a business that offers 3D Virtual Tours of properties for prospective tenants and to allow landlords the ability to handle more viewings without having to physically be at the property. Letzee also create 3D Virtual Tours of commercial spaces, such as shop floor tours, offices and much more.

When asked about running a business alongside his studies, Josh said:

“In terms of balancing the business with my studies, I have to be productive with my time and make sure I am on top of deadlines. Whenever I feel too busy, I take a step back, try to look positively at what I have achieved so far and go for a surf on the Gower to clear my head!”

Josh took part in the annual Big Pitch event run by the Enterprise Team and was awarded £3,000 for his business!

The level of support from the University has been incredible. If anyone is interested and would like to chat to me about things, please feel free to get in touch. Lastly, I encourage everyone to keep an eye out for the Letzee app and website this year, follow us on Social Media and join us in revolutionising the rental house-hunt!

Joshua has been nominated as Swansea University’s submission for the 2021 Santander Universities Emerging Entrepreneurs Awards.

Joshua Blackhurst
Founded Letzee in March 2020

EMPLOYABILITY: CAREER DEVELOPMENT AND ENTREPRENEURSHIP
One of the University's primary aims is ‘to prepare and promote the employability of our students’. The Swansea Employability Academy provides an essential function, linking business and industry and creating networking opportunities for you that have real impact.

Our academic programmes provide engaging learning opportunities that enable you to acquire knowledge, skills and an understanding of what employers and businesses value. We tailor our courses to make sure that you gain those professional and high-level skills that will enable you to thrive in today’s competitive world. Wherever possible, courses are also accredited by professional bodies.

Our long history of working with business, industry, commerce and the public sector enables us to add real value to your education. We work with employers to provide a range of placement and experiential opportunities that support you to achieve the outcomes you are looking for following graduation.

INSPIRATIONAL TEACHING AND LEARNING
Our excellent teaching is underpinned by the groundbreaking research taking place across the faculties. All of our courses benefit from being at the cutting edge of any new developments and are closely aligned to industry, ensuring you are well-equipped for your future careers.

HOW CAN SWANSEA UNIVERSITY HELP ME?
From the moment you arrive, specialist staff in the Swansea Employability Academy will help you plan and prepare for your future.

Support available to you:
- One-to-one careers advice and guidance provided by professionally qualified Careers Consultants
- CV writing and interview preparation workshops
- Paid, short-term internships
- Bursaries towards employability activities
- Part-time work opportunities such as the Student Ambassador Scheme
- You can complete our online ‘Career Development Course’ which enables you to prepare for your professional life and further enhance your graduate career
- Faculty-specific employability initiatives
- Annual careers fair

HOW CAN SWANSEA UNIVERSITY HELP ME?

FIND OUT MORE

EMPLOYER LINKS INCLUDE:
Swansea University recognises that enhancing its future graduates’ employability has never been more important. As more and more businesses recruit from a global talent pool, it is vital that you stand out from the crowd with additional skills. Employers acknowledge the value of international experience, and students who spend time abroad develop and demonstrate the qualities that employers seek: global and intercultural awareness, maturity, confidence and adaptability to new environments and challenges.

Studying and working abroad:
- Rewards you with an international outlook and experience
- Enables you to gain confidence and become more self-reliant
- Helps you develop independence and initiative

FIND OUT MORE
swansea.ac.uk/goglobal

As a Swansea University student, there are opportunities to gain international experience through our variety of non-credit bearing cultural, volunteering and study programmes during the summer:

swansea.ac.uk/summerprogrammes

Additionally, some students may have the opportunity to spend a period overseas as part of an Extended Masters programme. Details of these options are available on specific course pages.

There are a range of funding opportunities available to support students who choose to go abroad – please refer to our website for the latest information:

swansea.ac.uk/goglobal/funding

As part of the Extended MA in Translation and Interpreting, Ulrike spent a semester at Katholieke Universiteit Leuven and a semester at Université Catholique de Louvain, both located in Belgium.

“"My year abroad in Belgium has been a great experience. I made new friends from all over the world and was able to travel throughout Belgium. The Netherlands, Germany, Luxembourg and France are all within close distance so there are no limits when it comes to exploring! My student experience at both universities could not have been better."

Natalie Pittman studied an Extended Master’s in International Relations and spent a semester abroad in The Bush School at Texas A&M University.

“"What a great opportunity it was to take the Extended Master’s which has enabled me to study abroad at the Bush School Texas A&M. It was an incredible experience as the Bush School boasts one of the best International Relations courses in American public schools. Not only has this opportunity furthered my career opportunities but it has allowed me to study my course from a different perspective. I have thoroughly enjoyed every minute of my course and I am so glad I chose to further my study here at Swansea University.""
Swansea University provides a number of opportunities for you to study through the medium of Welsh at postgraduate level. If you have been studying through the medium of Welsh at undergraduate level, continuing to study through the language at postgraduate level is a natural step and we actively encourage you to do so.

Since 2011, there has been a 135% increase in the number of students studying at least 40 credits through the medium of Welsh at Swansea University and our TEF data over the last two years shows that Welsh-speaking students are high achievers with regards to employability.

In line with the Welsh Language Standards, your academic work can be submitted and assessed through the medium of Welsh across all subject areas and you will receive support from a Welsh-speaking personal tutor.

ACADEMI HYWEL TEIFI

The University’s Academi Hywel Tefi is a centre of excellence for studying the Welsh language, its literature, and culture. It gives Welsh-speaking students, or those keen to learn the language, the opportunity to study courses through the medium of Welsh and significantly increase their graduate employment prospects in the process. For detailed information about the Welsh-medium provision on offer, please pick up a Welsh prospectus or visit our website:

swansea.ac.uk/academi-hywel-teifi

*Swansea University TEF return 2017 and 2018

SWANSEA UNIVERSITY BRANCH OF THE COLEG CYMRÆG CENDEDLAETHOL

Swansea University works in partnership with the Coleg Cymraeg Cenedlaethol and the University’s branch is situated within Academi Hywel Tefi. Its main aim is to provide students with assistance and support to study and socialise through the medium of Welsh. The Coleg Cymraeg Cenedlaethol Research Scholarships Scheme supports students studying for a doctorate through the medium of Welsh. Recent Coleg Cymraeg Cenedlaethol funded PhDs at Swansea University include, Psychology, Translation, Welsh, Chemistry and Biomedical Sciences.

FUNDING FOR WELSH-MEDIUM POSTGRADUATE TAUGHT PROGRAMMES

The Welsh Government offers a bursary to Welsh domiciled students willing to complete at least 40 credits of their taught master’s degree through the medium of Welsh. Each bursary is worth £1,000. Students who choose to study a qualifying course in an aspect of science, technology, engineering, maths or medicine can also receive an additional bursary of £2,000. Further details can be found on page 36.

Arwain is a bilingual mobile app for students and prospective students who speak or are learning Welsh. Arwain brings together the essential information needed by students who want to study and live through the medium of Welsh at Swansea University.

THE WELSH SOCIETY (GYMGYM)

Whether you’re a fluent Welsh speaker or just looking to practice your Welsh, the GymGym will give you a range of opportunities to socialise with other Welsh speakers in an informal environment. The GymGym hosts regular events including quiz nights, volunteering opportunities and socials. However, the most memorable events include their annual international rugby trip (in recent years to Dublin or Edinburgh), the inter-college dance and the inter-college Eisteddfod. These three events bring together all Welsh Societies across Wales – giving you the opportunity to socialise with Welsh speakers from all over the country. The GymGym also supports the University’s Welsh-language rugby and netball club, Rygbi a Phêl-rwyd Tawe.
Swansea University Students’ Union is run by students, for students. We’re a registered charity who support and represent all students at Swansea University. Every year we elect full-time officers who represent students with everything university-related; from Societies and Services to Sports, Welsh Affairs and Welfare and Education.

Katie Phillips
SU President 2021 – 2022

We have college and subject reps too – these are students who work with the Uni to handle any issues students may be having on their course.

We also run the shops and bars on campus – JC’s, Tafarn Tawe, Rebound, Root Zero, Costcutter and Fulton Outfitters. All of the money spent at these venues goes straight back into the student experience…

The Students’ Union also organises Freshers’ Fortnight, Summer Ball, Varsity, Tooters, and a host of other great events for you to enjoy!

SWANSEA UNIVERSITY STUDENTS’ UNION OFFERS:
- Over 150 societies and 50+ sports clubs
- Union Collective; a platform for helping students with funding and resource to take your business ideas off the ground
- A chance to work for the student newspaper, TV station and radio station
- An Advice and Support Centre helping with everything from landlords to academic disputes
- An on-campus nursery that’s flexible around students’ lectures
- A voice for the students at the University, ensuring student views are heard at every level

SUPPORTING YOU
Our full-time officer team run campaigns throughout the year to raise awareness of super important issues, and initiatives to support you! Here are just a few:

Study Aid: Free services to help you get through intense study periods (including a visit from cuddly pups from our friends at Greyhound Rescue Wales).

Donate Don’t Ditch: At the end of every year, we take your unwanted items so that they don’t go to landfill and offer them out to new students in September. Pots, pans, dishes - you name it, we’ve probably got it!

Movember: During Movember we mobilise a community of Mo Bros and Mo Sisters who make a difference by fundraising and promoting awareness of mental health and suicide prevention, prostate cancer and testicular cancer. This is one of our biggest campaigns, and is always a whole-University spectacle.

You can follow the team of officers on Instagram via @susofficers to find out what else they are getting up to! If you want to follow us for updates on what’s coming up and what it’s like to be a student at Swansea, we’re on Instagram, TikTok, Facebook, and Twitter, you can find us as @SwanseaUniSU
Here at Swansea University we pride ourselves on our dedication and commitment to sport and active lifestyles. We have sporting opportunities to suit all of our students, from elite/international athletes to complete beginners, there is something for everyone.

swansea.ac.uk/sport

FACILITIES
With an extensive range of sports facilities available to students at both Swansea Bay Sports Park next to Singleton Campus and Bay Campus, the University caters for a wide variety of indoor and outdoor activities. Both campuses house excellent health and fitness facilities, including top-of-the-range equipment and classes. The University also offers a high-end strength and conditioning facility (The Shed) available to elite athletes and teams.

The New Zealand All Blacks have used our sports facilities as a Rugby World Cup training base and our 50m National Pool has been used by athletes preparing for Olympic and Paralympic games and is currently home to Swim Wales’ high performance programme.

Our football teams have access to a world-class training facility at Fairwood which is the main training ground of Swansea City Football Club.

Our extensive range of sporting facilities includes:
- Athletics track and field
- Cycle hire and running routes
- Indoor athletics track
- Multi-purpose sports halls and outdoor games areas
- Playing fields
- Sports pavilion
- Tennis courts
- Wales National Pool Swansea
- Water based Astroturf pitches

GYM MEMBERSHIP
As part of a balanced and healthy lifestyle at Swansea University, students can join the gym and secure a number of benefits at a reduced price. Becoming a member also entitles you to the following:
- Ability to use 69 UK gyms as part of the BUCS UNiversal scheme
- Access to gym facilities on both Bay and Singleton Campuses
- Fitness Classes, including access to all virtual classes
- Free WIFI when you train

While studying at Swansea University, the Sports Scholarship allowed me to pursue two career paths simultaneously. I fondly remember my time at Swansea and particularly a Varsity win. In the future, knowing a career in sport doesn’t last forever, I won’t rule out returning to further my qualifications.

Alun Wyn Jones
British and Irish Lions, Wales and Ospreys Captain and Swansea Law graduate

DUE TO OUR SUPERB COASTAL LOCATION, SWANSEA HAS ONE OF THE BEST WATER SPORTS OFFERINGS OF ANY BRITISH UNIVERSITY
HIGH PERFORMANCE PROGRAMME
Our High Performance Programme offers assistance to elite athletes in a wide range of sports, with each delivered in conjunction with a professional sports club or national governing body or sport partner.

Our programme currently supports six sports and is growing annually. Each sport receives high performance coaching, sports science services, athlete lifestyle management, physiotherapy and strength and conditioning support.

These sports are currently:
- Football
- Hockey
- Netball
- Rugby
- Swimming
- Table Tennis

SCHOLARSHIPS
The University also offers Sports Scholarships and TASS (Talented Athlete Scholarship Schemes) to highly talented student athletes with financial benefits up to £2,000 per year and a support package which may include: strength and conditioning training, physiotherapy, psychological aid and nutritional advice, all delivered by qualified practitioners. Other benefits may include free facility membership and campus parking permit.

COMPETITIVE SPORT
We are the fastest improving university in the British Universities and Colleges Sport (BUCS) rankings, finishing 18th in the 2018-2019 table. With membership to over 50 different sports clubs available, there is a vast array of opportunities for you to competitively represent the University in BUCS and key domestic competitions. Our clubs provide a range of coach-led training sessions to give you the opportunity to achieve your sporting goals.

Swansea University

Varsity is the biggest student event in Wales, and is the second largest of the British Varsity Games, behind Oxford/Cambridge.

Varsity sees Swansea University and Cardiff University compete in over 30 different sports, such as basketball, rowing, golf, hockey, fencing, squash and ultimate frisbee. Watch Varsity highlights here:

welshvarsity.com

Scan to watch
Plastics, including single-use plastic bottles, are now the most frequently-found type of litter on UK beaches. And you don’t have to look far to find them littering our towns and green spaces too.

Swansea University is a leading sustainable university and we are delighted to be able to support Refill (a scheme providing water refill stations in venues across Swansea and the University) with our partners in Plastic Free Swansea and the Students’ Union. Our Students’ Union officers have been busy supporting the launch of the campaign; we’ve now got at least 30 Refill stations located across our Bay and Singleton Park campuses for the whole community to use.

At Swansea University we are blessed with a wealth of habitats, from beaches to woodland to parks, and we are passionate about sustainable development to benefit our local community, the UK and the beyond.

As a student, there are plenty of opportunities for you to get involved with practical conservation. You can volunteer to help keep these areas special by joining our regular beach cleans, work parties and wildlife monitoring. As well as helping the environment, you’ll learn new skills and meet new friends along the way.

**THE SUSTAINABILITY AWARD**

Whether you’re interested in recycling, biodiversity, wellbeing, or anything in between, we’ll have something for you!

Our stand-out student engagement programme is the Sustainability Award. Students of any subject, in any year of their degree, can work towards this award throughout their time with us at Swansea University.

Completing the award contributes to your academic record and teaches you a wide range of skills.

WE’RE HERE
For You

You can access a range of student support services throughout your postgraduate studies, ensuring your time spent at Swansea University is as stress-free and easy as possible.

MYUNIHUB
HOW CAN WE HELP?

MyUniHub offers information and guidance on any aspect of student life from enrolment to graduation. The team also provides advice, guidance and referrals for all your support requirements during your time at Swansea University. You can visit our experienced and friendly teams on Singleton and Bay Campus.

I have grown so much as a person throughout my undergrad at Swansea and now my postgrad as well and I feel so much more confident in myself. I have come to realise just how much I love learning compared to when I was at school learning because I have chosen to study something that is so much more enjoyable than GCSE or A level where I felt like I wasn’t able to learn what I wanted.

I have been involved with societies for the past 4 years and they have made my time at uni better than I could ever have dreamed. There is such a range on offer and it’s incredibly easy to start your own if there isn’t something that takes your fancy. From being on a committee I have improved my leadership and organisational skills and I would do it again in a heartbeat.

The academic feedback is very good, work is marked promptly and there is usually a lot of very useful comments and suggestions that are helpful in the future. I have used the University Advice Centre a couple of times and they have been incredible. I was able to see someone within a couple of days and I got some really useful advice and support.

Caroline
(Swansea University postgraduate student, WhatUni review)

MONEY (CAMPUSLIFE)

Are always on hand to help you max your cash and keep your finances in check.
Swansea is home to a thriving research community combining world leading research with a welcoming, inclusive, collaborative ethos, and a focus on research which has real-world benefits.

Our postgraduate research office coordinates interdisciplinary postgraduate researcher activities and support across the University. We work to ensure you have the best possible student experience by providing: access to funding and development opportunities, training and resources to support you in developing your professional and research skills, and providing access to student-led events and activities.

SUPPORTING YOUR DEVELOPMENT
We offer a comprehensive training and development programme for postgraduate researchers, supporting you to develop the skills, knowledge and attributes to excel in your research and your future career.

TRAINING FRAMEWORK
Our training framework, made up of ten different themes, is designed to support your research and professional development at every stage of your candidature.

THE TEN TRAINING THEMES:
- Managing Information and Data
- Presentation and Public Engagement
- Leadership and Working with Others
- Academic Writing
- Safety, Integrity and Ethics
- Research Methods
- Impact and Commercialisation
- Teaching and Demonstrating
- Career Planning and Progress
- Resilience, Problem Solving and Personal Effectiveness

Each theme has workshops, resources and opportunities at different levels, according to the stage of your candidature or level of experience.

Engage – Introducing students near the beginning of their candidature to the tools needed to ensure their research journey starts in the best possible way.

Explore – Developing skills for those in the middle of candidature, introducing new research techniques and tools, exploring the impact of research and supporting their engagement with the wider research community.

Enhance – Supporting students coming to the end of their research degree to complete their research and plan for their future whether inside or outside academia.

SKILLS AND DEVELOPMENT PROGRAMME
Our development programme encompasses a variety of elements ranging from formal training, to workshops with external experts to immersive opportunities which allow you to apply and reflect on your skills. The postgraduate team work closely with specialist teams across the University to provide wellbeing and careers support and activities which are tailored to your postgraduate research needs. Postgraduate researchers are also able to access bespoke individual support from across the institution in a variety of areas including research, accessing grants and funding, and employability.

EMPLOYABILITY OPPORTUNITIES
Postgraduate research students at Swansea are able to access a number of opportunities that enhance your research and employability both inside the University and with external partners, including internships and placements.

The University also has a number of paid teaching assistant roles for postgraduate research students, working under the direction of module leads, to contribute to the delivery of high quality, interactive learning experiences. This offers you as a postgraduate research student an excellent opportunity to develop your teaching skills and broaden your knowledge of teaching and learning in Higher Education, developing key employability skills and preparing you for a future academic role.

There are also opportunities to get involved with outreach projects, sharing your research with school pupils to inspire them about their future options.

ACADEMIC EXCELLENCE
Swansea is home to some the UK’s most talented postgraduate research students, and we offer several fully funded postgraduate research opportunities for students pursuing PhD, MPhil, MRes or Master’s by Research across a number of disciplines.

DOCTORAL TRAINING PARTNERSHIPS AND CENTRES
Through collaboration with other leading universities and industry partners, we are developing the next generation of pioneering researchers in future-facing disciplines, from AI and materials manufacturing, to social sciences and policy.

As a world leading research institution, we are part of a number of prestigious UKRI funded doctoral initiatives which bring together experts and support our doctoral students to become the leading researchers of tomorrow in a supportive environment with access to additional development opportunities such as working or studying overseas and placements with industry partners.

THE RESEARCH COMMUNITY
The University is home to a diverse, welcoming community of postgraduate researchers with regular pan-university events offering the opportunity to network and build links outside of your specialism.

Postgraduate researchers also join staff in taking part in our annual Research as Art competition, where you distil your research down to one picture and a 150-word description, providing a platform to convey the importance of your research and help engage others in research.

CELEBRATING POSTGRADUATE RESEARCHERS
The work and achievements of postgraduate research students is celebrated in our PGR Showcase event, a chance for postgraduate researchers to share their work with the whole research community cumulating in an awards ceremony.

The PGR Showcase also hosts the final of the Three Minute Thesis (3MT) competition where postgraduate researchers from across the University present their research to a multidisciplinary audience in just three minutes. The PGR Showcase also offers postgraduate researchers the opportunity to present their research visually by taking part in the PGR Poster Competition.

The contribution of postgraduate research students is recognised across the University, our Research and Innovation Awards features an award for postgraduate researchers, the Research Innovation Rising Star award, the university’s quarterly research magazine, Momentum, has a ‘PGR Spotlight’ feature, and the research and achievements of our postgraduate researchers is regularly highlighted across the university.

swansea.ac.uk/research/research-with-us/postgraduate-research
We have a thriving international community with students from all over the world choosing to study with us. The vibrant mix of nationalities and cultures on campus greatly enriches our learning and teaching environment.

We understand the type of support our international students need to settle into student life in a new country and strive to provide a high-level of advice and service to make sure that this happens.

**SCHOLARSHIPS**
Swansea University offers a range of scholarships for international students. We are proud to support the Chevening Scholarship Programme. We recognise the ambition and talent of many international students by offering an International Excellence (up to £4,000) scholarship for postgraduate study. For details of all our international scholarship opportunities, please visit: swansea.ac.uk/international-students/my-finances/international-scholarships/

**INTERNATIONAL@CAMPUSLIFE**
International@CampusLife provides information and advice on non-academic matters, including immigration advice and services, to all international (non-UK) students and their dependants.
We support all non-UK students regardless of nationality, religion, gender, age, sexual preference or health status. Advice is offered free of charge and without discrimination. For further information, please contact:
+44 (0)1792 606557
international.campuslife@swansea.ac.uk
swansea.ac.uk/international-campuslife

**DEVELOPING YOUR LANGUAGE SKILLS**
If you think you need to improve your English language skills before starting your studies, or if you need support with the English language while studying with us, our English Language Training Services (ELTS) offers a range of British Council accredited programmes to help you achieve your academic goals. For further information, please contact the English Language Training Services (ELTS):
+44 (0)1792 295391
elts@swansea.ac.uk
swansea.ac.uk/elts

**WELCOMING YOU TO THE UK**
We run a Meet and Greet service from London’s Heathrow Airport, and provide all new international students with a full orientation programme to help them get to know the University, Swansea and the region. More information about our services for new students can be found at: swansea.ac.uk/international-students

**TUITION FEES**
If you are an international student, the fee you will be charged depends on your home country and what you choose to study. You will find the tuition fee clearly displayed on each postgraduate course page on our website: swansea.ac.uk/postgraduate

**HOW TO APPLY**
Please see page 178.
A postgraduate pathway is a single course comprising two stages of study. Successful completion of both stages leads to a master’s degree from Swansea University.

The College, Swansea University, offers academic pathways in partnership with Swansea University that lead to postgraduate degrees. Our unique approach to education transforms international students into Swansea University graduates and lifelong learners. Innovative courses are delivered by highly qualified teachers in a modern, dynamic environment, supported by our friendly team.

The postgraduate pathway is designed for students who:
- Require additional English language training
- Come from an academic background different to that of the UK and do not meet university direct-entry requirements
- Have been away from studies for a period of time
- Are looking to fine-tune skills already gained during their undergraduate studies or employment

The language of instruction at The College, Swansea University is English. To attain entry into the postgraduate pathway you must be able to demonstrate you have a suitable level of English proficiency. For further details, contact our team at:

the-college-enquiries@swansea.ac.uk

If you do not meet the English language requirement for direct entry to your chosen pathway, you can receive the required amount of English language tuition to prepare you for successful entry at a later date. English Language training is delivered by the University’s English Language Training Services (ELTS) with multiple entry points throughout each year.

For a full list of countries and entry requirements visit:
swansea.ac.uk/the-college/entry

POSTGRADUATE PATHWAYS ARE AVAILABLE IN THE FOLLOWING SUBJECTS:
- Accounting and Finance
- Children and Young People
- Computer Science
- Engineering
- Languages, Politics and Culture
- Management
- Public Health and Management

Look out for this icon on the course pages to see where a pathway is on offer.

PRE-MASTER’S
This is stage one of the postgraduate pathway. It is one, two or three semesters long, depending on your chosen pathway and qualifications (English language and Academic) at the point of entry. This programme is available in the areas of: languages, politics and culture, engineering, children and young people, business management, accounting and finance, and computer science. Designed to prepare international students who do not qualify for direct entry to Swansea University master’s degrees, the pre-master’s programme allows you to adjust to the rigorous research and independent study requirements of a postgraduate degree.

The pre-master’s programme will:
- Help you develop fundamental knowledge and an understanding of the basic principles relevant to your particular degree
- Help you develop numerical techniques, research methodologies and ICT, presentation and communication skills
- Help you develop your intellectual and practical skills building to a set of transferable skills that will support you in your onward academic studies, careers and decision-making
- Ensure you have attained the prescribed level of interdisciplinary language competence

MASTER’S
The master’s degree is stage two of the postgraduate pathway, and is taught by Swansea University.
We offer programmes that will give you the expertise and knowledge to thrive in a range of dynamic financial and business environments. The first suite of programmes are for students with any undergraduate degree who want a career in accounting or finance. The second is a suite of advanced MSc programmes for students who have already studied some accounting and/or finance as undergraduates and now want to specialise to enhance their employability and career prospects.

Many of our modules offer professional accreditation from the Association of Chartered Certified Accountants (ACCA). We also have strong links with the Chartered Financial Institute (CFA), so our programmes will help to fast-track your career in accountancy and finance by affiliating you with professional bodies or giving you exemptions from key professional examinations. You will benefit from co-location with industry at our innovative Bay Campus, working alongside companies such as Fujitsu.

FINANCIAL TECHNOLOGY (FINTECH) MSc

Designed for students who are interested in moving into a career in finance, this programme combines the academic theory of finance with a strong practical perspective, facilitating a sound understanding of finance and associated disciplines. You can also gain up to five exemptions from ACCA fundamental examinations on this programme.

Modules typically include:
- Asset Management
- Financial Modelling
- Financial Statement Preparation and Analysis
- Independent Project
- International Financial Markets

The programmes above feature significantly enhanced taught contact time to allow you to complete a conversion to accounting or finance in a single year. Students who wish to study finance alongside a management specialisation should refer to the MSc Management (Finance) programme on page 76.

PROGRAMMES FOR STUDENTS WITH AN ACCOUNTING OR FINANCE BACKGROUND OR RELATED DISCIPLINE

These programmes are designed to enhance your undergraduate study and accelerate your career. Entry to these programmes requires a sound background in accounting or finance. This need not necessarily be a degree with ‘Accounting and Finance’ in the title, but could be economics, business, or any general programme with significant accounting or finance content.

INTERNATIONAL FINANCE MSc

Designed for graduates who are seeking a specialist programme to enable an accelerated start to a career in finance, this programme combines the academic theory of finance with a strong practical perspective, using current trends and industry practice to inform teaching and discussion. You will develop a sound understanding of the role and importance of accounting information in the financial management of complex organisations and graduate with a strong comprehension of finance and its associated disciplines.

Modules typically include:
- Economics
- Empirical Finance
- Financial Reporting and Statement Analysis
- International Corporate Governance & Ethics
- International Financial Markets and Institutions

INTERNATIONAL BANKING AND FINANCE MSc

This programme is aimed at graduates who wish to acquire a solid foundation in international banking and finance to prepare them for a career in banking, trading or financial analysis. It will equip you with an advanced understanding of the principles and techniques of international finance, development, trade and banking, knowledge of the activities of financial markets and financial institutions in advanced and emerging economies, and an appreciation of the role of risk management in complex organisations.

Modules typically include:
- International Banking and Regulation
- International Corporate Finance
- International Financial Markets and Institutions
- Quantitative Methods and Economics
- Risk Management in Banking
ACCOUNTING AND FINANCE
BAY CAMPUS

INVESTMENT MANAGEMENT MSc

This programme focuses on finance and investment management and is accredited with the Chartered Financial Institute (CFA) with University Affiliated Status. Students will gain an advanced understanding of managing assets and risk in complex organisations, preparing you to become traders and investment managers of the future.

Modules typically include:
- Big Data in Finance
- Financial Reporting and Statement Analysis
- Global Risk Management and Derivatives
- International Corporate Finance
- International Financial Markets and Institutions

STRAATEGIC ACCOUNTING MSc

You will already have a relevant first degree and have passed your ACCA Fundamental Papers prior to beginning this programme. As part of this rigorous master’s degree, you will be taught the latest theories and practices and how to apply them as an accountancy professional, while we prepare you for the ACCA Professional examinations.

Students who graduate from this MSc and pass all of the ACCA Professional examinations will require no further study and will be able to concentrate fully on their career.

Modules typically include:
- Advanced Audit and Assurance
- Advanced Performance Management
- Corporate Reporting
- Strategic Business Leader

PROFESSIONAL ACCOUNTING MSc

MSc Professional Accounting will allow qualified accountants to join an independent project module to gain the MSc. You must have gained your qualification as an accountant with the professional bodies within the last five years, and will have credits from your prior learning as a qualified accountant.

You will also be required to complete a second module in Quantitative Research Methods to prepare you for the independent project which will be made available remotely, allowing you to complete as distance learners.

Modules Include:
- Independent Project
- Research Methods

RESEARCH COURSES

Entry Requirements
PhD: An undergraduate degree at 2:1 level and a master’s degree with a minimum overall grade at ‘Merit’.

English Language Requirement
IELTS 6.5 Overall (with no individual component below 6.5) or Swansea University recognised equivalent.

FINANCE PhD

We invite applications from well-qualified candidates whose research interests correspond to our areas of research expertise. Applicants are encouraged to explore our research expertise to ensure a good fit between PhD proposals and potential supervisors. Information about current research groups can be found at: swansea.ac.uk/som/research

CAREERS AND EMPLOYABILITY

Swansea University has a careers team dedicated and tailored solely to you as a management student. This service ensures that employability is actively promoted and remains an important focus throughout your studies. The team has an impressive track record of getting students into employment and have already helped numerous students secure their dream jobs and placements. They’re who you need to speak to for:
- Placement advice
- CV tips
- Interview tips (general interviews and psychometric testing)

They’ll even research the brands you want to work for and advise on their interview formats.

I felt it was imperative that I gain a more thorough education to help me prepare for a career in accounting. My course provided me with the necessary knowledge to enhance and develop my capabilities. The course content is structured around professional accountancy exams and with the preparation provided through the relevant modules, I have already passed three external ACCA exams.

My favourite modules are Corporate Reporting and Advanced Performance Management; the lecturer is very good and helped me to really understand the topic.

As this is my first time studying abroad, I attended some activities held by the Hong Kong Society where I was able to meet other students from my home country and familiarise myself with the Swansea area.

Wing Man
Natalie KO

MSc STRATEGIC ACCOUNTING
Swansea University is driving global healthcare transformation through its part-funded by Welsh Government Intensive Learning Academies (ILAs), which will help create the next generation of global innovative leaders in health and social care. The Academies; Value-Based Health and Care (VBHC); and the All-Wales Intensive Learning Academy for Innovation in Health and Social Care, focus on critical policy areas for sustainable healthcare systems including Value-Based Health and Care, and Innovation and Transformation.

Courses are aimed at professionals working in health, social care, third sector and the life sciences Industries with the goal to empower workforces around the globe with the expertise, skills, and confidence to drive the redesign of health and care systems for the better, improving patient outcomes and experiences, while boosting the efficiency and sustainability of services.

TAUGHT COURSES
Entry Requirements
A 2:1 honours in an undergraduate degree and any degree subject will be considered. Students must also have a minimum of one-year relevant work experience.

English Language Requirement
IELTS 6.5 (minimum of 6.5 in each component) or Swansea University recognised equivalent.

SCHOLARSHIPS AND BURSARIES
As part of this programme we are able to offer several full-fee scholarships, focused on professional learners from across Wales, working within the following:
- NHS Wales
- Local Authority Social Services
- Social Care Organisations in Wales
- Third Sector organisations in Wales

For more information visit: www.swansea.ac.uk/som/ila

ADVANCED HEALTH AND CARE MANAGEMENT

ADVANCED HEALTH AND CARE MANAGEMENT INNOVATION AND TRANSFORMATION MSc

This course is designed to better equip middle and senior managers within health and social care systems in the UK and globally, to lead transformational change and drive innovation within healthcare systems, processes and technologies. Enhancing your management skills to correspond with the requirements in a modern health and care setting, is key in ensuring you are able to successfully guide organisations through innovative and transformational challenges.

You will also draw on an international, national, regional and local associations and networks. This breadth of research, teaching and professional expertise will serve to greatly enrich your development in the field of innovation and transformation within health and care.

Modules typically include:
- Complex Health and Care, People and Systems
- Navigating Innovation & Change
- Prudent Health and Care Innovation
- Prudent Health and Care - Policy and Practice
- Research in a Health & Care Context

ADVANCED HEALTH AND CARE MANAGEMENT (VALUE-BASED) MSc

The aim of this master’s is to enable individuals to immerse themselves in the new paradigm of value in health and care; how to implement it in practice at a population and individual level; capturing outcomes that matter, utilising digital technologies, applying new costing models, innovative procurement approaches and adopting a total pathway-of-care approach.

You will develop the necessary skills to implement an innovative value-based strategy within an organisation.

Modules typically include:
- Exploring Organisational Purpose
- Prudent Health and Care – Policy and Practice
- Research in a Health & Care Context
- Value-Based Health and Care: Strategy Development
- Value-Based Health and Care: Strategy Implementation

Understanding the forces that have moulded and continue to shape America helps us to make sense of our contemporary world. The comparative study of the history and culture of the United States addresses themes such as immigration, democracy, slavery, imperialism, multiculturalism, race and ethnicity, urban history, the economy and terrorism. These issues do not just concern the past - they are directly relevant to the world we live in.

In the latest (2014) Research Excellence Framework, 70% of our staff research activity was judged world-leading (4*) or internationally excellent (3*).

Our Graduate Research Centre offers a vibrant and supportive environment for students pursuing postgraduate research. We provide training to enhance your academic and professional development. You will have access to a dedicated study area with IT facilities within comfortable surroundings. You will be encouraged to participate in the wider research community of the department by attending regular research seminar programmes and participating in the activities of our many research centres.

Research centres and groups include:
- Centre on Digital Arts and Humanities (CODAH)
- CRAM: Research Group for Conflict, Reconstruction and Memory
- The Global Drug Policy Observatory
- International Studies, Conflict and Security (ISCAS)
- Political Analysis and Governance (PAG)

For more detailed course content, including a full module list, visit: swansea.ac.uk/postgraduate

**Entry Requirements**

**MA by Research:** Applicants should hold or expect to achieve a minimum of an upper second class honours degree (2:1), or equivalent, in a related subject or hold relevant work experience.

**MPhil:** Applicants for MPhil must normally hold an undergraduate degree at 2:1 level or Swansea University recognised equivalent qualification.

**PhD:** Applicants for PhD must normally hold an undergraduate degree at 2:1 level and a master’s degree with a minimum overall grade of ‘Merit’. Alternatively, applicants with a UK first class honours degree (or non-UK equivalent as defined by Swansea University) not holding a master’s degree, will be considered on an individual basis.

**English Language Requirement**

IELTS 6.5 (minimum of 6.5 in each component) or Swansea University recognised equivalent.
TEACHING ENGLISH TO SPEAKERS OF OTHER LANGUAGES (TESOL)

The MA in Chinese-English Translation and Language Teaching is specifically designed for Chinese speakers (or students with native Chinese proficiency) and aims to equip them with language-specific knowledge and skills in both translation studies and applied linguistics. The programme offers both theoretical and practical modules, including observation of Mandarin teaching classes and possible teaching practice opportunities. The translation modules are also highly practical and conducted at the professional level.

Modules typically include:
- Communicative Language Teaching
- Discourse Analysis for Language Teaching
- Grammatical Analysis
- Methods for Classroom Teaching
- Professional Reflective Practice
- Research Methods for Applied Linguistics
- Second Language Acquisition
- Vocabulary: Teaching and Learning

CHINESE-ENGLISH TRANSLATION AND LANGUAGE TEACHING MA

Swansea University has one of the longest-established TESOL training and education centres in the UK and is internationally known for excellence in research on vocabulary. The course equips you with skills to engage with the theoretical and practical challenges of teaching English as a foreign or second language. Students can choose to complete a dissertation or a teaching-based project.

Modules typically include:
- Communicative Language Teaching
- Discourse Analysis for Language Teaching
- Grammar and Syntax
- Methods for Classroom Teaching
- Professional Reflective Practice
- Research Methods for Applied Linguistics
- Second Language Acquisition
- Vocabulary: Teaching and Learning

MA TESOL

Typically a 2:1 honours degree or equivalent. The Cambridge DELTA Certificate, Trinity College Dip. TESOL, and Postgraduate Certificate in Teaching English for Academic Purposes (ITEAP) are considered equivalent (CELT is not accepted towards this requirement.)

MA Chinese-English Translation and Language Teaching

Typically 2:2 honours degree or equivalent.

English Language Requirement

MA TESOL (IELTS 6.5 (minimum of 6.0 in each component))

MA Chinese-English Translation and Language Teaching IELTS 6.0 (minimum of 5.5 in each component).

SCHOLARSHIPS AND BURSARIES

A range of postgraduate scholarships and bursaries are available. Visit: swansea.ac.uk/postgraduate/scholarships

RESEARCH COURSES

Entry Requirements

MA By Research in Applied Linguistics: Typically a 2:1 honours degree or above in English Language, Linguistics, or Swansea University recognised equivalent, with a strong performance in the dissertation component. A research proposal of good quality, on a topic relevant to the research strengths of the department, is also required.

MPhil/PhD programmes in Applied Linguistics: A 2:1 undergraduate degree and an MA in Linguistics, Applied Linguistics, TESOL/EFL/TEFL, or a related discipline, with a minimum overall grade at ‘Merit’ (or Swansea University recognised equivalent) and a strong performance in the dissertation component of the MA. A research proposal of good quality, on a topic relevant to the research strengths of the department, is also required.

English Language Requirement

IELTS 6.5 (minimum of 6.5 in each component) or Swansea equivalent.

APPLIED LINGUISTICS MA By Research/MPhil/PhD

The department welcomes applications from students wishing to pursue graduate level research in applied linguistics, particularly topics related to vocabulary, learning and assessment, language learning aptitude, second language acquisition, corpus linguistics and discourse analysis.

The department has an excellent track record of supervising high-quality, impactful dissertations, and research students work with staff to foster a dynamic academic community.

Recent and current dissertation topics include:
- Assessing lexical organisation in a second language
- Discursive witnessing practices in television news coverage of the 2005 London bombings and their commemorations
- Investigating the relationship between L1 mental lexicon size and organisation and L2 vocabulary development
- The link between the acquisition of L2 vocabulary and syntax
- The mental lexicon: how do linguistic and conceptual representations interact?
- Modelling difficulty and measuring uptake in L2 lexical acquisition
- Online grooming from communicative patterns to paedophile profiles
- Purism and populism: the contested roles of code-switching and borrowing in minority language evolution
- Strategic bilingualism: identifying optimal context for Welsh as a second language in the curriculum

APPLIED LINGUISTICS

The department, together with the universities of Bangor and Cardiff, co-hosts ESRC Doctoral Training Partnerships in the thematic areas of Linguistics and Bilingualism. These partnerships offer scholarships to ensure the flow of highly qualified people into research careers both within and beyond academia.

As well as campus-based PhD study, the department offers a well-established part time distance PhD programme.

All research students belong to the Graduate Centre, providing pastoral as well as administrative support and is also responsible for research skills training and support, as well as facilitating a lively intellectual environment for the postgraduate research community of 200 students.
Swansea is a fantastic location to study biosciences. There are diverse habitats on the nearby Gower Peninsula (a site of Special Scientific Interest, and the UK’s first Area of Outstanding Natural Beauty), in the Swansea Valley, and Brecon Beacons National Park.

We use the Research Vessel Mary Anning for teaching and research in marine science, and we are home to world class bioscientists with strong links to external organisations and research field sites all over the world. As a postgraduate student, you will be able to benefit from collaborative research and placement opportunities.

ENVIRONMENTAL BIOLOGY: CONSERVATION AND RESOURCE MANAGEMENT MSc

Our MSc programme focuses on the relationships between living organisms and the terrestrial, freshwater and marine environments, coupled with the interactions that result from natural and anthropogenic processes. You will benefit from advanced training in the interpretation of local and global environmental issues, field and theoretical aspects of biology, and ecology and analytical skills.

Modules typically include:
- Biodiversity and Health Ecology
- Climate Science and Policy
- Conservation of Aquatic Resources
- Ecosystems, Ecology, Conservation and Resource Management
- Environmental Assessment and Management
- Geographical Information Systems
- Modelling Earth Systems
- Research Project in Environmental Biology with a Focus on Conservation and Resource Management
- Reviews in Biosciences
- Satellite Remote Sensing
- Science Skills and Research Methods

Scholarships and Bursaries

A range of postgraduate scholarships and bursaries are available.

swansea.ac.uk/postgraduate/scholarships

swansea.ac.uk/postgraduate

What ultimately helped me get where I am today were the opportunities provided by Swansea University to present to fellow students and lecturers at seminars, such as the Postgraduate Seminar Series which allowed me to develop my skills and get over my worries in a safe, non-judgemental space.

If someone had told me that I would be assigned ‘Schools Outreach Representative’ whilst at university I would never have believed them. Throughout my undergraduate degree at Swansea University I was terrified at presenting and talking in front of people and avoided it as much as I could. However, I received some fantastic training from lecturers within the Biosciences Department at the end of my BSc degree and during my MSc which began to really help me tackle my fears and start to build my confidence.

Chloe Robinson
MSc ENVIRONMENTAL BIOLOGY, PhD BIOLOGICAL SCIENCES
RESEARCH COURSES

Entry Requirements

MPhil/PhD: Typically a 2:1 honours degree or a master’s degree with ‘Merit’ in biosciences or a related subject, or equivalent qualification. MRes: Typically a 2:1 honours degree in Biosciences or a related subject, or equivalent qualification.

English Language Requirement

IELTS 6.5 or higher (minimum 5.5 in each component) or Swansea University recognised equivalent.

The Department of Biosciences conducts research on diverse subjects across natural sciences, combining fundamental and applied science to provide a well-rounded research environment. Our research is focused around four themes, which are integrated with our education mission.

We invite applications from highly motivated and suitably qualified candidates to undertake postgraduate research on our MRes Biosciences (one-year programme FT), MPhil (two-year programme FT) or PhD (up to 4-year programme FT). MRes students undertake three taught modules in the first term, including ‘Science Skills and Research Methods’ undertaken by all postgraduate researchers.

The major component of all our postgraduate research degrees is the research thesis, which is embedded within one or more of our research themes, and where you will gain in-depth knowledge in our specialist areas of expertise.

Our research themes are:

- Marine and Freshwater Systems
- Behavioural Ecology and Evolution
- Biodiversity and Ecosystems
- Natural Products and Environmental Resources

Our research aims to maximise the benefits of natural resources while minimising disturbances to the environment. We address environmental and societal challenges through applied research, and in doing so, we champion healthy and sustainable ecosystems.

Our focus is broad, and ranges from harnessing microbial systems for novel product and process development (bioprospecting, bioremediation), to addressing aquatic and terrestrial food security (aquaculture, biocontrol, disease ecology), and environmental stewardship (invasive species control, human-environment interactions).

Further information on our research can be found on our website: [swansea.ac.uk/bioscience/research-and-impact/](http://swansea.ac.uk/bioscience/research-and-impact/)

Our strengths arise from the synergies of combining experimental, field and theoretical approaches, across individual to population and community-level scales. Our work spans ecosystems across the globe, from tropical islands to temperate reefs and coastlands; from the Atlantic forest to boreal ecosystems.

Business Administration MBA

**Why choose Swansea University to study your MBA?**

Our MBA programme will provide you with advanced knowledge of key business practices, fast tracking your career to become an effective business leader. This is a different programme for a different approach to management.

With a focus on corporate social responsibility, this programme is aimed at professionals with three years’ relevant industrial experience. Designed to equip you with skills for organising, competing and collaborating within and across public, private and third sectors, this programme will ensure you are prepared to meet future challenges.

**Entry Requirements**

Minimum 2:1 degree in any discipline together with a minimum of three years’ relevant industrial experience.

**English Language Requirement**

IELTS 6.5 or higher (minimum 5.5 in each component) or Swansea University recognised equivalent.

**Scholarships and Bursaries**

There are many benefits to studying an MBA, from developing that enviable strong professional network to preparing you for high salary senior management roles in business. We know that the cost of a course is an important decision making factor, which is why we are excited to offer a scholarship worth £5,000 to four MBA students.

[swansea.ac.uk/som/mba/mba-scholarship/](http://swansea.ac.uk/som/mba/mba-scholarship/)

**Modules typically include:**

- Understanding Finance
- Creating Sustainable Value
- Navigating Innovation
- Data Analysis and Decision Making
- Exploring Organisational Purpose
- Leading with Integrity
- Environmental Resources
- Understanding Finance

For more detailed course content, including a full module list, visit: [swansea.ac.uk/postgraduate](http://swansea.ac.uk/postgraduate)
Our taught business programmes are designed to enhance your employability, giving you access to a team of careers advisors alongside your course. We have developed the MSc Management programmes for students from any undergraduate degree background, with research-led, practical teaching from a team of industry experts.

Our thriving postgraduate student community is drawn from around the globe and you will benefit from our co-location with industry at the innovative Bay Campus, with dedicated teaching space and study rooms, extensive IT facilities equipped with the latest hardware and a range of specialist software.

TAUGHT COURSES
Entry Requirements
MSc Management and Management Pathways: A 2:2 honours degree or above in any subject or an equivalent qualification.

English Language Requirement
IELTS 6.0 (minimum of 5.5 in each component) or Swansea University recognised equivalent.

SCHOLARSHIPS AND BURSARIES
We have on offer financial support for the brightest prospects of the future. It’s not just academic excellence we reward – we also recognise and encourage passion for study and involvement in student life. There are a range of funding opportunities available for both taught and research degrees.

There’s something special about Swansea, which my friends studying at other institutions were envious of. Deciding to complete a master’s in a subject which was totally different to my undergraduate degree was a welcome challenge and I loved every minute of it. The University has a great reputation for postgraduate study and I really experienced it at its best. The lecturers were incredible and went above and beyond to support me in their free time, with their support I feel as though my confidence has grown ten-fold.

The modules for my master’s really excited me too – they all lent themselves well to a career in HR on a practical level and I could clearly see how each module would apply itself to the world of work. I am confident that my master’s from Swansea University will set me apart from other applicants when applying for jobs and graduate trainee programmes.

“  

Amy Hillman  
MSc MANAGEMENT  
Human Resource Management (HRM)  
(A Upon graduating Amy secured a role at Bosch UK as a Graduate Trainee on the Junior Manager Program)
HUMAN RESOURCE MANAGEMENT
MSc
A Career in Human Resource Management

This programme will provide you with the specialist knowledge and understanding required in this area. Reviewing the practical demands of 21st century working practices, we aim to develop adaptive, strategic and innovative managers who understand the short and long-term implications of their decisions.

In placing employee development and wellbeing at the heart of the programme, our graduates ensure the sustainability of the organisation through the careful management of individuals and workforces.

Modules typically include:
• Contemporary Employment Practice
• Human Resource Management: Organisation and Context
• Leading and Developing People
• People Analytics
• Workplace Analysis and Leadership Skills

RESEARCH COURSES
Entry Requirements

MPhil: Typically a first or upper second class degree in business management or a related subject.
PhD: Applicants must normally hold an undergraduate degree at 2:1 level and a master's degree with a minimum overall grade at 'Merit'.
MSc by Research applicants must typically hold an undergraduate degree at 2:1 level. Alternatively, applicants with a UK first class honours degree (or non-UK equivalent as defined by Swansea University) not holding a master's degree, will be considered on an individual basis.

DOCTOR OF BUSINESS ADMINISTRATION DBA

Our DBA is a part-time professional doctorate designed for senior managers and leaders in all sectors; private, public and not-for-profit.

Reviewing the practical demands of the sustainability of the organisation and more, our graduates ensure the sustainability of the organisation through the careful management of individuals and workforces. The structured approach is designed to develop critical thinkers and is based on six modules over three years, blending lectures, guest talks, workshop discussions and student presentations. The doctoral thesis is developed in parallel under guidance from a doctoral supervisory team allocated at the start of the programme.

We have excellent, purpose-built modern access to diverse laboratories and research infrastructures. High-quality, high-impact chemistry research is also thriving in the University’s world-class centres such as The Centre for NanoHealth, Institute of Mass Spectrometry, Institute of Life Sciences, Energy Safety Research Institute, Multidisciplinary Nanotechnology Centre, Welsh Centre for Printing and Coating, Centre for Water Advanced Technologies and Environmental Research and Materials Research Centre.

We work closely with the Faculty of Science & Engineering and Swansea University Medical School to create an environment of research excellence. This allows students and staff to invent, innovate and develop products to make step-change advances with impact on current global challenges.

SCHOLARSHIPS AND BURSARIES

We offer a range of funding opportunities for research degrees. Recently we have attracted funding from organisations such as the Engineering and Physical Sciences Research Council (EPSRC) for postgraduate scholarships.

We have excellent, purpose-built modern access to diverse laboratories and research infrastructures. High-quality, high-impact chemistry research is also thriving in the University’s world-class centres such as The Centre for NanoHealth, Institute of Mass Spectrometry, Institute of Life Sciences, Energy Safety Research Institute, Multidisciplinary Nanotechnology Centre, Welsh Centre for Printing and Coating, Centre for Water Advanced Technologies and Environmental Research and Materials Research Centre.

We work closely with the Faculty of Science & Engineering and Swansea University Medical School to create an environment of research excellence. This allows students and staff to invent, innovate and develop products to make step-change advances with impact on current global challenges.

CHEMISTRY
SINGLETON PARK CAMPUS

RESEARCH COURSES

Entry Requirements
Typically a 2:1 honours degree or a master’s degree with ‘Merit’ in chemistry or related subject.

English Language Requirement
IELTS 6.0 Overall (with no individual component below 5.5) or Swansea University recognised equivalent.

CHEMISTRY MSc By Research/ MPhil/PhD

We invite applications from well-qualified candidates whose research interest focuses around the themes of Energy Chemistry; Health, Food and Drug Chemistry; Chemistry of Materials; Semiconductor Chemistry; and Surface Chemistry.

Research areas include:
- Bioelectronics and Sensing
- Electrochemistry
- Organic Electronics
- Sensors and Biosensors
- Surface Modification

In collaboration with the Biocontrol and Natural Products (BANP) Group in the Department of Biosciences, there are also research opportunities around the characterisation and application of natural products, in particular those derived from fungi and microalgae, to provide therapeutics and nutraceuticals and to act as agents for biocatalysis and bioremediation.

Further information on our research can be found on our website: swansea.ac.uk/chemistry/research-and-impact/

Energy Chemistry

One of the key areas where advances in chemistry will be needed is in providing solutions to the global energy challenge. Research areas include:
- Batteries and Supercapacitors
- Energy Storage and Generation
- Green Chemistry
- Oil and Gas Chemistry
- Photochemistry, Catalysts and Solar Reforming of Biomass

Chemistry of Materials

Research areas include:
- 2D Materials, Graphene and Electronic Materials
- Biomaterials and Tissue Engineering
- Imaging
- Micro and Nanostructures
- Microfluidics
- Polymer Synthesis
- Recycling of Materials
- Smart Scaffolds

Semiconductor Chemistry

Research areas include:
- Chemistry of Thin Films
- Optoelectronics and Photonics
- Organic Electronics
- Photochemistry and Lithography
- Plasma Chemistry
- Silicon Devices and Processing

Surface Chemistry: Imaging and Spectroscopy

Research areas include:
- Atomic Force Microscopy (AFM)
- Electron Microscopy (SEM and TEM)
- Fluorescence Imaging
- NMR
- Raman Spectroscopy and FTIR
- Scanning Tunnelling Microscopy (STM)
- X-ray Photoelectron Spectroscopy (XPS)

Our academic staff work to bring real-life benefits for health care, social care, voluntary and private sectors, ultimately leading to improvements for children, parents, practitioners, managers and policy makers. They have strong links with a range of international networks and similar departments in European universities and around the world, so your learning is informed by the latest policy and practice developments. They facilitate rigorous research and evaluation, from birth through to early adulthood, with the central theme of health and well-being.

In the latest Research Excellence Framework (2014), over 75% of our research was ranked as being of international or world-leading quality.

For more detailed course content, including a full module list, visit: swansea.ac.uk/postgraduate/scholarships

SCHOLARSHIPS AND BURSARIES

We offer a range of funding opportunities for both taught and research degrees: swansea.ac.uk/postgraduate/scholarships

TAUGHT COURSES

Entry Requirements
A UK 2:2 (or above) degree in a related discipline, or its equivalent. Applications will be considered if you have significant relevant work experience. You may be asked to attend an interview and you will be required to undergo a Disclosure and Barring Service (DBS) check.

English Language Requirement
For all full-time taught programmes: IELTS 6.5 (minimum of 6.0 in each component) or Swansea University recognised equivalent.

Why choose our Childhood Studies Postgraduate course

This programme will give you the knowledge and skills to support children and their families in a range of environments. You will develop a keen understanding of issues related to child development in contemporary society and how policy and services for children and families are planned and provided. Throughout your studies, you will refine critical research and analytical skills valued by employers and develop professional reflective practice techniques.

Core modules typically include:
- Childhood and Children: Sociological Perspectives
- Children’s Rights and Safeguarding Children and Young People
- Dissertation

For more detailed course content, including a full module list, visit: swansea.ac.uk/postgraduate

CHILDHOOD STUDIES PGDip/MA

This programme offers an exciting opportunity to gain an advanced understanding of how children learn and develop through play. You will explore evidence-based practice in play across a range of professional contexts, combining in-depth theory with fieldwork experience. This includes how the environment and social interactions support children’s growing repertoire of play skills, with a particular emphasis on the inherent value of children’s self-directed play experiences. Throughout your studies, you will refine critical research and analytical skills valued by employers and develop professional reflective practice techniques.

Modules typically include:
- Researching Childhood
- Understanding and Observing Child Development

This programme will explore the many interrelated factors that have an impact on infant, child and family health. You will examine the evidence base underpinning current public health policy relating to children aged 0-11 in the UK and internationally, covering topics including perinatal health, nutrition and immunisations. Your studies will take an integrated approach encompassing the biological, psychological and social influences affecting children’s long-term educational and emotional development and the public health policies and interventions that can support these. Throughout your studies, you will refine critical research and analytical skills valued by employers and develop professional reflective practice techniques.

Core modules typically include:
- Common Childhood Illness
- Childhood Nutrition and Growth
- Dissertation
- Influences upon Child Health
- Researching Childhood

Optional specialist modules typically include:
- Advanced Practice with Children
- Children’s Rights and Safeguarding
- Children and Young People
- Childhood and Children: Sociological Perspectives
- Therapeutic Work with Children
- Understanding and Observing Child Development

Entry Requirements
PhD applicants would normally have, or be studying for, a master’s degree while our MPhil programmes require a first or upper second class degree in a discipline related to the proposed research project, or a relevant, approved postgraduate qualification.

English Language Requirement
IELTS 6.5 (minimum of 6.5 in each component) or Swansea University recognised equivalent.

We invite applications from well-qualified candidates whose research interests correspond to our areas of research expertise. These are focused around the following research groupings:

- Health and Welfare
- Research students are currently investigating factors influencing the welfare of children and young people such as health care provision, child abuse and neglect, learning disabilities, play, and homelessness. Recent research projects carried out by students cover children’s free play choices in the school and home, teaching approaches with the Foundation Phase, and looked after children.

- Child Development
- Research students are currently exploring the interactions between young people as individual agents, their social environments, and wider social structures that inform their choices and opportunities.

Child and Youth Identity
Research students are currently exploring the interactions between young people as individual agents, their social environments, and wider social structures that inform their choices and opportunities.

Ashelle Paras
MA CHILDHOOD STUDIES

“The MA in Childhood Studies is an excellent way to ground you with theoretical knowledge and understanding of child development. The multidisciplinary approach helps broaden understanding of child development and explore the current issues of early childhood development that is children born in the digital age from international perspectives.

Swansea University also encourages you to do volunteer work with children and this is an opportunity to see, understand and apply what you learn in the classroom. It is amazing when you discover how theory and practice work.”
CLASSICS, ANCIENT HISTORY AND EGYPTOLOGY
SINGLETON PARK CAMPUS

**TAUGHT COURSES**

**Entry Requirements**
Typically a 2:1 degree, or equivalent, in an ancient history, classical civilization, classics or a relevant discipline.

**English Language Requirement**
IELTS 6.5 (minimum of 5.5 in each component) or Swansea University recognised equivalent.

**SCHOLARSHIPS AND BOURSARIES**
A range of postgraduate scholarships and bursaries are available.

*A undergraduate-specific ranking that includes assessment of the institution’s research quality.

**ANCIENT HISTORY AND CLASSICAL CULTURE MA**
This MA allows you to study a broad range of topics related to the histories and cultures of the Classical world, from the Mycenaean world to late antiquity. The range of options provides the opportunity to specialise in history or literature, or to combine study of the two.

**Modules typically include:**
- Ancient Greek or Latin Language
- Archaeology and Topography of Ancient Rome
- Dissertation in Ancient History and / or Classical Literature
- Explorers, Travel and Geography in the Ancient World
- The Poetry of Facts: History in Verse
- Reaching the Public: Museums and Object Handling
- Romance refracted and Novels Renewed
- Saints and Sinners in Christian Late Antiquity
- Word, Metaphor and Allegory

**ANCIENT NARRATIVE LITERATURE MA**
This MA focuses on the narratives of the ancient Greeks and Romans, both fictional and factual, in a variety of literary forms, including the novel, epic poetry, mythology, historiography and biography. The programme introduces you to the key concepts of literary and cultural theory connected with narrative, and encourages you to explore new ways of reading ancient texts. As well as some of the classics of ancient literature, it also examines some less familiar texts that illustrate the full creative extent of ancient literary imaginations.

**Modules typically include:**
- Ancient Greek or Latin Language
- Dissertation in Ancient History and or Classical Literature
- Explorers, Travel and Geography in the Ancient World
- Narrative Theory and Genres
- Romance refracted and Novels Renewed
- Saints and Sinners in Christian Late Antiquity
- The Poetry of Facts: History in Verse
- Word, metaphor and allegory

**RESEARCH COURSES**

**Entry Requirements**
Master’s by Research: Applicants should hold or expect to achieve a minimum of an upper second class honours degree 2:1, or equivalent, in a related subject or hold relevant work experience.

Ancient History MPhil/PhD: Applicants must normally hold an undergraduate degree at 2:1 level and a master’s degree with a minimum overall grade at ‘Merit’ (or Swansea University recognised equivalent qualification).

Classics MPhil/PhD: Applicants must normally hold an undergraduate degree at 2:1 level and a master’s degree with a minimum overall grade at ‘Merit’ (or Swansea University recognised equivalent qualification).

**EYPTOLOGY MA By Research/ MPhil/PhD**
Study of the history, archaeology, religion, languages, literature, and culture of pharaonic Egypt and the Sudan. We invite applications from well qualified candidates whose research interests correspond to our areas of research expertise. Staff research interests cover the core disciplines of culture, religion, language, literature, history, and archaeology.

**ANCIENT HISTORY MA By Research/MPhil/PhD**
These programmes allow in-depth study of the history, culture, or archaeology of the classical world, from Mycenaean Greece to late antiquity.

**CLASSICS MA By Research**
- Study of the languages, literature, philosophy, and culture of the Classical world, from Homer to the later Roman Empire, and the reception of the ancient world in modern culture.
- Master’s by Research: Applicants should hold or expect to achieve a minimum of an upper second class honours degree 2:1, or equivalent, in a related subject or hold relevant work experience.

**ANCIENT HISTORY AND EGYPTOLOGY**
- Greek Tragedy
- Historiography
- History, Society and Culture of Late Antiquity
- History of the Late Ramesseid, Third Intermediate and Late Periods of Egypt
- Plato
- Ptolemaic Philosophy
- Roman Military History
- Roman Republican and Imperial History
- Roman Satire
- The Second Intermediate Period of Egypt and Nubia

**KYKNOS Centre for Research on Ancient Narrative Literature**
KYKNOS (Greek for Swan) stimulates, coordinates, and promotes research on the narrative literatures of antiquity.

**OLCAP: The Research Group for Object- and Landscape-centred Approaches to the Past.**
The group’s core aim is to promote and support research, teaching, and training that falls broadly in the fields of material culture studies and landscape, especially where these relate to the ancient world.

For more detailed course content, including a full module list, visit:
swansea.ac.uk/postgraduate

*To be ignorant of what took place before you were born is to remain a child forever* (Cicero).

From the epics of Homer and Virgil to the first novels, from Egyptian magic and Greek mythology to the philosophy of Plato and Aristotle and the growth of Christianity, from Egyptian pharaohs and Athenian democracy to the fall of the Roman Empire, the ancient civilisations of Egypt, Greece and Rome are a fundamental source for our modern culture and thought.
The Egypt Centre

The Egypt Centre Research Seminars provide an informal arena for discussion of innovative research pertaining to Egyptology and museums, as well as a bridge of knowledge between academics and non-academics.

Other facilities

The University library is stocked with original texts, literary and documentary, and subscribes to a wide range of general and specialist periodicals. Online access to external bibliographies and citation indexes is available. Resources include: JSTOR, Dyabola, Theaurus Linguae Graecae, Loeb Classical Library, Patrologia Latina and Teubner Latin texts online, the Online Egyptological Bibliography, and the Gnomon database.

All research students in Classics, Ancient History, and Egyptology belong to the Graduate Centre, providing pastoral as well as administrative support and is also responsible for research skills training and support, and facilitating a lively intellectual environment for the College’s postgraduate research community of 200 students.

COMPUTER SCIENCE: INFORMATIQUE MSc (SWANSEA AND GRENOBLE ROUNDS) 🇬🇧

Swansea University and Université Grenoble Alpes offer two Dual Award MSc degrees in Computer Science: Informatique. Both lead to degrees from both Universities and both are two years long – one year in Swansea, and one year in Grenoble. The degrees are normally taught in English but you can choose to study in French if you are sufficiently fluent.

DATA SCIENCE MSc 🇬🇧 🇫🇷 🇪🇺

This programme will equip you with a solid grounding in data science concepts and technologies for extracting information and constructing knowledge from data. You will study the computational principles, methods and systems for a variety of real world applications that require mathematical foundations, programming skills, critical thinking and ingenuity. Development of research skills will be an essential element of the programme, enabling you to bring a critical perspective to current data science discipline and apply this to future developments in a rapidly changing technological environment.

All students take a module in Computer Science Research Methods before undertaking an individual project over the summer.

Modules typically include:

- Big Data and Data Mining
- Big Data and Machine Learning
- Computer System Concepts
- Computer Vision and Deep Learning
- Critical Systems
- Data Visualisation
- Embedded System Design
- Graphics Processor Programming
- Hardware and Devices
- High-performance Computing in C/C++
- Human Computer Interaction
- Logic in Computer Science
- Modelling and Verification Techniques
- Operating Systems and Architectures
- Programming in Java
- Relational and Object-oriented Database Systems
- Software Concepts and Efficiency
- Software Engineering Principles
- Software Testing
- Visual Analytics
- Web Application Development

I currently work for Vortex IoT as an R&D Engineer where we design and develop innovative products and IoT systems for harsh environments. Our current work is in developing air quality monitoring systems and railway intrusion and obstruction detection systems. These systems are designed and built in-house from the ground up by the R&D and Software team. As well as hardware, we design web interfaces and data management and analysis systems to gain further insight into what our sensor networks are detecting. This is done through our machine learning and AI systems which are all developed in-house.

During my master’s I focused on ‘Hardware and Devices’ and ‘Embedded Systems’ modules which gave me an opportunity to work at the boundary of where the physical meets the digital. This led me to conduct my research for my dissertation in mesh networking. These skills helped me to secure a job in developing embedded systems and working around the growing world of IoT systems.

What I enjoyed about the MSc course and study environment at Swansea University was the free thinking environment where we were encouraged by the lecturers to face new problems and approach them from any angle.

The Computer Science Department is full of very knowledgeable people with contacts and interests in many areas. As a student of the department you have access to this vast pool of knowledge. I would encourage students to take advantage of this. Talk to your peers and lecturers about more than computer science, and use the time you have to explore interests that make you a more rounded individual. Your degree/qualifications will get you an interview, but your surrounding knowledge and interests will secure you the job.

Aidan Fyans
MSc COMPUTER SCIENCE
R&D Engineer, Vortex IoT
Our increasingly connected world presents continual new and serious security threats. From privacy violations (hacking, monitoring communications, leaking sensitive data, stealing and publishing private information) through to the drugs trade, sex trafficking and terrorism, Swansea's expert Computer Science staff can provide the techniques required for mitigating such risks, in order to provide secure, reliable and trustworthy systems.

In this MSc we take a holistic and interdisciplinary approach, bringing together modules on diverse topics such as penetration testing, formal modelling, information security management, cryptography and AI in order to equip our students with a suitable mindset for a career in cyber security.

Our Cyber Security Lab provides the perfect backdrop for exploring the security landscape, allowing students and staff to carry out experiments in network security, mobile security, and to explore threats and defence mechanisms in the context of the Internet of Things. Following the taught component of the course, students will carry out a substantial research project which involves using and exploring cutting-edge techniques for specifying, developing, evaluating and accessing systems against security criteria. Students will benefit from our broad range of industrial partners and internationally leading research expertise.

**Modules typically include:**
- Advanced Topics: Artificial Intelligence and Cyber Security
- Blockchain, Cryptocurrencies and Smart Contracts
- Critical Systems
- Embedded System Design
- Information Security Management
- Invention and Innovation in Computing
- IT-Security: Cryptography and Network Security
- Security Vulnerabilities and Penetration Testing
- Web Application Development

HUMAN-CENTRED BIG DATA AND ARTIFICIAL INTELLIGENCE MSc

You will be trained in adventurous and exciting computational science, working on real-world challenges that will transform society and the economy. While there are valid concerns about what impact big data and artificial intelligence might have on individuals, communities, jobs and society, this programme focuses on human potential, needs, desires and cares, and how these motivations can be used to drive innovation. You will undertake your major project in collaboration with one of our world-class partners (including Google, Facebook, NHS, Tata Steel, Ford, Microsoft and many more), and also take part in a range of additional skill-enhancing activities such as sandpits, retreats and focused training events. As part of a close-knit cohort, students will learn human-centred methods, grounded in a broad range of theoretical, experimental, domain and methodological perspectives to understand how these can amplify and enhance human potential in big data and AI.

**Modules typically include:**
- Abuses, Biases and Blessings of Data
- Artificial Intelligence
- Bi Data and Machine Learning
- Choice of Topics Relating to Law, Healthcare, and Factories of the Future
- Critical Systems
- Data-structures and Architectures
- Human-centred Evaluation and Analysis
- Human-centred Perspectives and Methods
- Industrial Partner Case Studies
- Interfaces and Usability
- Trust, Argumentation and Verification
- Visual Analytics

**IELTS 6.5 (with a minimum of 6.0 in each component)**

COMPUTING AND FUTURE INTERACTION TECHNOLOGIES MRes

The MRes is taught by the Future Interaction Technology (FIT) Lab within Computer Science. The FIT Lab’s mission is to explore and apply Advanced Computer Science to make interaction technologies dependable, enjoyable and effective. Furthermore, we aim to work on grand challenges, like improving safety in health care, or developing technology to reach millions of people and help us live more effective and sustainable lives.

**Modules typically include:**
- Hardware and Devices
- Human-Centred Visual Analytics
- Human Computer Interaction
- Interactive System Design

Culminating in a final research project.

LOGIC AND COMPUTATION MRes

On the MRes in Logic and Computation you will learn about advanced techniques in logic and their applications. You will receive an elite education of direct relevance to research and development problems in contemporary information and communication technology (ICT).

**Modules typically include:**
- Critical Systems
- Logic in Computer Science
- Modelling and Verification Techniques

Culminating in a final research project.

VISUAL COMPUTING MRes

An MRes is ideal preparation for following a career of research or specialism within the area of study. In particular the MRes in Visual Computing seeks to prepare you for further research in the areas of Computer Graphics, Computer Vision, Medical Imaging, and Scientific Visualisation.

**Modules typically include:**
- Computer Vision and Pattern Recognition
- Data Analytics
- Data Visualisation
- Graphics Processor Programming
- Hardware and Devices

Culminating in a final research project.

**Further information on our research can be found on our website:**

swansea.ac.uk/compsci/research-and-impact/
The Department of Criminology is home to a vibrant academic and research community, continuously developing to ensure that our graduates are equipped to meet the challenges posed by the ever-shifting landscapes of criminology and criminal justice.

As a postgraduate student, you will study an exciting range of cutting-edge modules, supported by academics with real-world experience at the forefront of their research. Our research addresses major societal challenges, has impact, and makes a difference to society. We have established expertise in a variety of specialist fields including children’s rights, cyber crime, offender rehabilitation, sexuality studies, terrorism, and youth justice.

**APPLIED CRIMINAL JUSTICE AND CRIMINOLOGY MA**

The Applied Criminal Justice and Criminology MA enables students to discover how the criminal justice system operates in practice, learn key theories, and explore cutting-edge themes within criminology. Students will also have the opportunity to develop critical skills, such as learning how to undertake criminological research. Teaching on the master’s is multi-disciplinary and informed by staff research interests. Modules typically include:

- A Critical Understanding of Policing
- Advanced Issues in Drugs, Alcohol and the Criminal Law
- Developing Criminological Research
- Human Trafficking and Modern Day Slavery
- Sexual Abuse and Exploitation of Children
- Young People and Youth Justice

**CYBER CRIME AND TERRORISM MA**

The Cyber Crime and Terrorism MA is an interdisciplinary course, drawing on political science, psychology, criminology, law and history to critically engage with online crime and terrorism. Throughout this course you will learn about the threats, trends, issues, responses and ethical questions associated with terrorism and cyber crime. Staff are experienced researchers in these fields and there are opportunities for students to undertake their own original research as part of their final dissertations. Modules typically include:

- Countering Violent Extremism Online
- Crime in Cyberspace
- Cyber Security
- Digital Policing and Forensics
- Human Rights and Terrorism Online
- Online Propaganda and Radicalisation
- Research Methods and Ethics

**Entry Requirements**

**MA:** Minimum 2:1 honours degree in a cognate discipline (criminology and criminal justice, law, social policy, psychology, sociology, politics or computer science). Candidates with a 2:2 or with relevant professional work experience may also be considered.

**English Language Requirement**

IELTS 6.5 (minimum of 6.0 in each component) or Swansea University recognised equivalent.

**SCHOLARSHIPS AND BURSARIES**

A range of postgraduate scholarships and bursaries are available. For more detailed course content, including a full module list, visit: swansea.ac.uk/postgraduate

---

“...My time as a postgraduate student within the Criminology Department, at both MA and PhD level, has proven to be both rewarding and enjoyable. In undertaking my research, I have been impressed, not only by the academic expertise demonstrated by staff, but also by the level of support that they show towards postgraduate students. I have found my supervisors, as well as wider departmental staff, to be approachable, generous with their time, and always ready to share their knowledge and insights. I have also benefited massively from the wide range of experiences that are available at postgraduate level, including the planning and teaching of seminars, as well as the various opportunities to attend and present at conferences. I cannot recommend postgraduate study within the Criminology Department highly enough! You definitely won’t regret applying!”
Join our thriving community of postgraduate students, where you will become part of a supportive environment dedicated to understanding some of society’s most challenging issues.

A research degree in Criminology gives you the chance to pursue a project based around your own passions and interests, leading to a qualification which can open the door to an academic career or boost employment prospects in a range of other fields.

CAREER PROSPECTS
Enhance your CV by taking part in employment-related activities within the department, or across the University. Our graduates have gone on to excel in a wide range of careers in criminal justice agencies, including the Home Office, youth offending teams, and the Probation Service. Graduates have also pursued employment with local and UK Government, and in the third sector.

ESRC WALES DOCTORAL TRAINING CENTRE
As part of the ESRC Wales Doctoral Training Partnership (DTP), the department focuses on providing excellent postgraduate training. We provide a mix of generic research and subject-specific research training enabling students to develop and apply research methods to criminological enquiry.

TAUGHT COURSES
Entry Requirements
MSC Economics: MSc Economics
and Finance: A 2.2 honours degree
in a related discipline.
While a prior degree in Economics is
expected, students with a background
in a mathematically oriented subject
area will be eligible for consideration,

English Language Requirement
IELTS 6.0 (minimum of 5.5 in each
component) or Swansea University
recognised equivalent

SCHOLARSHIPS AND BURSARIES
We have on offer financial support
for the brightest prospects of the future. It’s not just academic excellence we reward – we also
recognise and encourage passion for study and involvement in student life.
There are a range of funding opportunities available for both
taught and research degrees.

For more detailed course content, including a full module list, visit:
swansea.ac.uk/postgraduate

ECONOMICS MSc
This programme exposes students to
temporary economic thinking, providing
you with a thorough understanding of
the core aspects of advanced micro and
macroeconomics and econometrics,
whilst also providing students with
an impressive range of specialist
economics topics available for study.
Graduates of this programme may
pursue a number of professional
career pathways in the finance or
management consulting industries.
The sophisticated and multi-faceted
relationship between economics
and finance is close, with finance
sometimes viewed as a specialism
within economics. The multi-faceted
aspects of this programme will
therefore not only allow you to
explore a range of topics within
the finance and economic disciplines,
but serve as preparation for a
number of different career paths.

ECONOMICS AND FINANCE MSc
This joint scheme provides students with
a comprehensive grounding in
many of the key concepts,
modelling approaches and
research techniques deployed in
key areas of economics (such as
microeconomics, macroeconomics
and econometrics), which also
have important applications
within finance.
This course will be of particular
interest if you are planning a career
in the finance industry or a role that
calls for advanced analytical skills.
The relationship between economics
and finance is close, with finance

Moduliadau
• Economics
• Macroeconomics
• Microeconomics
• Research Methods

Optional specialist modules include:
• Development Economics
• Energy Economics
• Health Economics
• Labour Economics
• Monetary Economics

Bursaries, Scholarships and Postgraduate Loans
We have a range of funding opportunities
available for our postgraduate
students, including scholarships
and bursaries.

For more information on these opportunities,
visit swansea.ac.uk/postgraduate

swansea.ac.uk/postgraduate/scholarships

*An undergraduate-specific ranking that includes
assessment of the institution’s research quality.

Our MSc courses in economics are designed to prepare you for a career in government
or business, as an economist, or for an economics PhD or research-oriented career.
In business, economics helps provide an understanding of the motives and actions
of customers, suppliers, competitors, employers and financiers. It is crucial in informing
the strategic and operational decision-making of managers and directors.
You will be taught by industry leaders and internationally recognised research experts,
who regularly advise organisations and government agencies with policy development and
economic research, as well as publish in leading research journals.

In the world of business, economics is an essential tool for
understanding the financial
behaviour of organisations.

Moduliadau
• Microeconomics
• Macroeconomics
• Empirical Finance
Optional specialist modules include:
- Behavioural Finance
- International Corporate Governance and Ethics
- International Banking and Regulation
- Monetary Economics

RESEARCH COURSES
Entry Requirements
MPhil: Typically a first-class or 2:1 honours degree in economics or finance or a related subject, or an equivalent qualification.

PhD: Applicants must normally hold an undergraduate degree at 2:1 level and a master’s degree with a minimum overall grade at ‘Merit’. Alternatively, applicants with a UK first class honours degree (or non-UK equivalent as defined by Swansea University) not holding a master’s degree, will be considered on an individual basis.

English Language Requirement
IELTS 6.5 (minimum of 6.5 in each component) or Swansea University recognised equivalent.

We invite applications from well-qualified candidates whose research interests correspond to our areas of research expertise. Applicants are encouraged to explore our research expertise to ensure a good fit between PhD proposals and potential supervisors. Information about current research groups can be found at: swansea.ac.uk/som/research

CAREERS AND EMPLOYABILITY
Swansea University has a careers team dedicated and tailored solely to you as a management student. This service ensures that employability is actively promoted and remains an important focus throughout your studies. The team has an impressive track-record of getting students into employment. The careers team have already helped numerous students secure their dream jobs and placements. They’re who you need to speak to for:
- Placement advice
- CV tips
- Interview tips (general interviews and psychometric testing)
- They’ll even research the brands you want to work for and advise on their interview formats

I had a really enjoyable time studying my bachelor’s here; I’d made a lot of great friends and valuable relationships, so I knew I wanted to stay on for another year.

I enjoyed learning and wanted to build upon the base made through my bachelor’s degree. My favourite module was Micro-economics because it was maths orientated which suits my strong skills in that area.

I’ve always known the lecturers to be really helpful and supportive; they do very well in nudging you in the right direction and then leaving you to your own creativity to solve a problem. My supervisor in particular gave me a lot of room and freedom to explore the subject.

I would wholeheartedly recommend Swansea; it’s a great place to get a really good education with a brilliant student experience.

"
We carry out internationally excellent research, develop prestigious international partnerships and collaborate with regional pioneering education services. Our programmes develop global graduates with relevant and wide-ranging educational experience, combined with very practical expertise. We are leading on evidence-based research/enquiry into education professionals in Wales, from early career teachers to senior leaders. The educational landscape in Wales is changing rapidly. Teaching not only requires the mastery of a complex set of skills to guide, inform, challenge and enhance your professional practice. The programme is led by internationally known researchers in the field of education with expertise in a wide range of specialist areas. All our teaching staff have published widely and lead their own research projects, both nationally and internationally. Prospective students are encouraged to contact the MA programme director Professor Alma Harris – alma.harris@swansea.ac.uk.

Modules typically include:
- Additional Learning Needs and Inclusion
- Curriculum, Pedagogy and Assessment
- Digital Education and Practice
- Education and Inequality
- Leading and Managing Change in Education
- Research Methods in Education

EDUCATION MA

This is an up-to-date, flexible and innovative programme designed to allow professionals exciting opportunities to develop and deepen their knowledge and interests in education. The MA programme offers you the chance to gain an insight into latest trends, debates and current research in education, which will inform, challenge and enhance your own professional practice. The programme is led by internationally known researchers in the field of education with expertise in a wide range of specialist areas. All our teaching staff have published widely and lead their own research projects, both nationally and internationally. Prospective students are encouraged to contact the MA programme director Professor Alma Harris – alma.harris@swansea.ac.uk.

Modules typically include:
- Additional Learning Needs and Inclusion
- Curriculum, Pedagogy and Assessment
- Digital Education and Practice
- Education and Inequality
- Leading and Managing Change in Education
- Research Methods in Education

EDUCATION (WALES) MA

The National MA Education (Wales) is a truly transformative and sector leading programme for educational professionals in Wales, from early career teachers to senior leaders. The educational landscape in Wales is changing rapidly. Teaching not only requires the mastery of a complex set of skills to guide, inform, challenge and enhance your professional practice, but also the ability to enquire into professional practice in order to improve it. The National MA Education (Wales) - which has been collaboratively developed by seven universities in Wales, through direct engagement with a variety of key stakeholders including the Welsh Government - will ensure that all education professionals in Wales have the same high-quality opportunity to enhance their professional knowledge, engage with research, and to improve their professional practice. Prospective students are encouraged to contact Professor Michelle Jones - michelle.s.jones@swansea.ac.uk.

Modules typically include:
- Advanced Research and Enquiry Skills
- Inclusive Classroom Practice
- Curriculum Design and Realisation
- Evidence-Informed Practice
- Leading Organisational Change

TAUGHT COURSES

Entry Requirements
Typically in 2:1 honours degree or above, or Swansea University recognised equivalent.

Education (Wales) MA
Candidates must hold Qualified Teacher Status and be currently employed in the compulsory education sector in the UK. Candidates may use up to 60 credits of approved prior learning towards the master's degree. Please contact the department for more details.

English Language Requirement
IELTS 6.5 (minimum of 6.0 in each component) or Swansea University recognised equivalent.

SCHOLARSHIPS AND BURSARIES

A range of postgraduate scholarships and bursaries are available. swansea.ac.uk/postgraduate/scholarships

For more detailed course content, including a full module list, visit: swansea.ac.uk/postgraduate

PGCE SECONDARY WITH QTS (QUALIFIED TEACHER STATUS) COURSES

Entry Requirements
Typically an honours degree at a minimum of 2:2 in a relevant subject, or a related subject with at least 50% relevant subject content; Grade B GCSE in English/Welsh language or literature (students applying for the Welsh medium programmes will be required to have a GCSE in Welsh); Grade B GCSE in Mathematics. Equivalency tests available for suitable applicants.

English Language Requirement
IELTS 7.0 (minimum of 6.5 in each component) or Swansea University recognised equivalent.

Completing the PGCE programme does not provide ‘Leave to Remain’ status for International students to work as a teacher within the UK. For further information review the UK Visa and Immigration Service regulations that apply to study and post-study in the UK.

PGCE SECONDARY WITH QTS (QUALIFIED TEACHER STATUS)

This innovative Postgraduate Certificate in Education (PGCE) programme that leads to Qualified Teacher Status (QTS) is delivered in partnership with schools across Wales. The Swansea University Schools’ Partnership (SUSP) has designed the programme to produce teachers who are research informed and able to reflect upon their practice in order to improve all aspects of student learning. The programme produces teachers who will enter the profession with subject, pedagogical and research knowledge. They will be prepared as career-long professionals who can respond to the changing nature of knowledge in society and will be experts in teaching their students. We offer PGCE secondary programmes in the following subject areas:

- Biology
- Chemistry
- Computer Science
- Design and Technology
- English
- Mathematics
- Modern Foreign Languages (French and Spanish)
- Physics
- Welsh English and Welsh medium pathways available.

SUSP has high expectations of student teachers and applicants must demonstrate to an interview panel that they have the intellectual qualities, attitudes and values required for teaching in the secondary sector. Applicants must also have the personal attributes that will enable them to develop as research informed reflective practitioners and the resilience to adapt well to the demands of the programme.

Prospective students are encouraged to contact Dr Helen Lewis or Dr Neil Lucas - pgce-enquiries@swansea.ac.uk to discuss the requirements of the programme or complete an enquiry form via our website: swansea.ac.uk/education/pgce-enquiry/
We aim to help you develop the potential to become a future leader or champion of industry, and to equip you to meet the challenges and opportunities for a career in research.

We are ranked 10th in the most recent (2014) UK Research Excellence Framework (REF), with 94% of research classified as ‘world-leading’ (4*) or ‘internationally excellent’ (3*).

Engineers at Swansea pioneered the development of numerical techniques such as the revolutionary finite element method, recognised as one of the top 100 discoveries and developments in UK universities to have changed the world.

With our world-class research centres and a sustained investment programme, the Faculty of Engineering and Science provides a superb environment for you to study or conduct research.

**AEROSPACE ENGINEERING MSc**

This course prepares students for the design, analysis, testing and flight of the full range of aerospace vehicles, including propeller-driven and jet-powered planes, helicopters and gliders.

Students on the course will gain hands-on experience through access to one of the world’s most advanced engineering flight simulators.

The course is accredited by the Institution of Mechanical Engineers (I Mech E), the Royal Aeronautical Society (RAeS), and the Institution of Engineering Designers (IED).

Modules typically include:
- Advanced Aerodynamics
- Advanced Airframe Structure
- Composite Materials
- Finite Element Computational Analysis
- Flight Dynamics and Control
- Numerical Methods for Partial Differential Equations
- Structural Integrity of Aerospace Metals

**CHEMICAL ENGINEERING MSc**

This course is tailored to suit graduates interested in both advanced research and/or a career in the process engineering sector. The course extends subjects typically studied at bachelor’s level with focus upon important process engineering themes, such as separation processes, fluid systems, mass transfer and material properties with a strong emphasis on water processing technologies and advanced aspects of process design and simulation.

As a student on the master’s course in Chemical Engineering, you will have the opportunity to advance your technical knowledge via lecture-based modules and further develop critical analysis competencies through both individual research and group design projects. The course is accredited by the Institution of Chemical Engineers (IChemE).

Modules typically include:
- Complex Fluids and Rheology
- Desalination
- Entrepreneurship for Engineers
- Environmental Analysis and Legislation
- Membrane Technology
- Nanoscale Structures and Devices
• Pollutant Transport by Groundwater Flows
• Polymers: Properties and Design
• Principles of Nanomedicine
• Water and Wastewater Engineering

CIVIL ENGINEERING MSc

The course provides training in civil engineering analysis and design, particularly in modelling and analysis techniques. You will be provided with practical computer experience through the use of computational techniques, using modern software, to provide a solution to a range of current practical civil engineering applications enabling you to apply the approach with confidence in an industrial context. This course is accredited by the Joint Board of Moderators (JBM). The JBM is composed of the Institution of Civil Engineers (ICE), the Institution of Structural Engineers (IStrucE), the Chartered Institution of Highways and Transportation (CIHT), and the Institute of Highway Engineers (IHE), and the Permanent Way Institution (PWI).

Modules typically include:
• Advanced Structural Analysis
• Coastal Processes and Engineering
• Computational Plasticity
• Dynamics and Transient Analysis
• Entrepreneurship for Engineers
• Finite Element Computational Analysis
• Flood Risk Management
• Fluid-Structure Interaction
• Numerical Methods for Partial Differential Equations
• Reservoir Modelling and Simulation

COMPUTATIONAL MECHANICS MSc

On this course you will be provided with an in-depth understanding of the technology and architecture of computer communications, photonics and telecommunication networks, wireless telecommunications and related wireless information technologies. The course includes the essential element of modern optical communication systems based on single mode optical fibres from the core to the access, evaluating bandwidth-rich contemporary approaches. You will be introduced to technologies underlying the compressions and transmission of digital video over networking platforms, gain knowledge on the channel models and associated impairments that typically limit the performance of wireless systems. You will also learn to design optimum digital communication receivers for some basic communications channel models. This course is accredited by the Institute of Engineering and Technology (IET).

Modules typically include:
• Communication Skills for Research Engineers
• Digital Communications
• Entrepreneurship for Engineers
• Lasers and Applications
• Micro and Nano Electro-Mechanical Systems
• Optical Fibre Communications
• RF and Microwaves
• Signals and Systems
• Strategic Project Planning
• Wireless Communications

COMPUTATIONAL MECHANICS MSc

This is a two-year postgraduate programme and is organised between Swansea University and Universitat Politècnica de Catalunya (Barcelona, Spain) in cooperation with the International Centre for Numerical Methods in Engineering (CIMNE, Spain).

You will receive deep multidisciplinary training in the application of the finite element method, as well as state-of-the-art numerical and computational techniques to solve and simulate challenging problems. Your general knowledge of computational mechanics theory will be developed alongside an appreciation of computational simulation in industry and academia. Training is also provided in the development of new software for the improved simulation of current engineering problems. The MSc course is accredited by the Joint Board of Moderators (JBM). The JBM is composed of the Institution of Civil Engineers (ICE), the Institution of Structural Engineers (IStrucE), the Chartered Institution of Highways and Transportation (CIHT), and the Institute of Highway Engineers (IHE).

Modules typically include:
• Communication Skills for Research Engineers
• Computational Plasticity
• Dynamics and Transient Analysis
• Finite Element Computational Analysis
• Fluid-Structure Interaction
• Nonlinear Continuum Mechanics
• Numerical Methods for Partial Differential Equations
• Reservoir Modelling and Simulation
• Solid Mechanics

FLUID-STRUCTURE INTERACTION

This course is designed for students who have already completed an undergraduate degree in the field of Electrical Engineering or in a similar relevant engineering or science discipline.

You will develop specialist skills aligned with the College of Engineering’s research interests and reflecting the needs of the electronics industry. You will have access to industry-standard equipment, such as a scanning tunneling microscope for atomic scale probing or an Lp4242 parameter analyser for power devices used for simulation, implementation and communication. This course is accredited by the Institution of Engineering and Technology (IET).

Modules typically include:
• Advanced Power Electronics and Drives
• Advanced Power Systems
• Energy and Power Electronic Laboratory
• Power Semiconductor Devices
• Modern Control Systems
• Nanoscale Structures and Devices
• Optical Communications
• RF and Microwave
• Wide Band-Gap Electronics
• Wireless Communications

ENGINEERING LEADERSHIP AND MANAGEMENT MSc

It is a well-known fact that engineers, scientists and technical graduates have the potential to reach the very pinnacle of leadership and management within industry. This broadening MSc programme will strengthen your understanding and skills in the areas of leadership, management and strategy, as well as providing core technical background in cutting-edge topics such as Smart Manufacturing, Immersive Systems and Environmental Analysis. Teaching delivery utilises short, intensive blocks over two semesters and your dissertation topic will focus on the strategic analysis of a real-world scenario, guided by industry-leading mentors. This MSc also aims to help you develop as an individual, with one-to-one professional mentoring throughout the programme. This course is accredited by the Institution of Engineering and Technology (IET).
ENGINEERING
BAY CAMPUS

- Physical Metallurgy of Steels
- Polymers: Properties and Design
- Simulation Based Product Design
- Strategic Project Planning

MECHANICAL ENGINEERING

This stimulating and rewarding programme is designed for candidates who have already completed an undergraduate degree and who want to further their knowledge. It will equip students with the ability to make informed judgements on the most appropriate way to solve a range of mechanical engineering problems, providing graduates with excellent career prospects.

The course covers the development of mechanical engineering tools, methods and techniques for problem solving, the ability to formulate an adequate representation of sets of experimental data and the use of these tools and techniques for real world applications. The research project is of high industrial relevance. This course is accredited by the Institution of Mechanical Engineers (IMechE).

Modules typically include:
- Additive Manufacturing
- Advanced Solid Mechanics
- Entrepreneurship for Engineers
- Metallurgy and Process Optimisation
- Optimisation
- Polymer Processing
- Simulation Based Product Design
- Strategic Project Planning
- Systems Monitoring, Control, Reliability, Survivability, Integrity and Maintenance

NANOSCIENCE TO NANOTECHNOLOGY MSc

This course covers a broad range of subject areas, from the latest semiconductor fabrication technology through to biological and medical applications, with the emphasis throughout on characterisation and control of materials at the nanoscale.

At Swansea, you will benefit from facilities within the £22 million Centre for Nanoscale and the newly funded £30 million Centre for Integrative Semiconductor Materials including a state-of-the-art clean room and cutting-edge fabrication and characterisation facilities. This course is accredited by the Institution of Engineering and Technology (IET).

Modules typically include:
- Bio-Nanotechnology
- Colloid and Interface Science
- Micro and Nano Electro-Mechanical Systems
- Nanoscale Structures and Devices
- Nanoscale Simulation
- Principles of Nanomedicine
- Probing at the Nanoscale
- Soft Nanotechnology
- Strategic Project Planning
- Wide Band-Gap Electronics

POWER ENGINEERING AND SUSTAINABLE ENERGY MSc

The faculty has an international reputation for electrical and electronics research for energy and advanced semiconductor materials and devices. This course in Power Engineering and Sustainable Energy places strong emphasis on state-of-the-art semiconductor devices and technologies, advanced power electronics and drives, and advanced power systems. The course also covers conventional and renewable energy generation technologies. Exciting new developments such as wide band gap electronics, energy harvesting, solar cells and biofuels are discussed and recent developments in power electronics are highlighted. This course is accredited by the Institution of Engineering and Technology (IET).

Modules typically include:
- Advanced Power Electronics and Drives
- Advanced Power Systems
- Communication Skills for Research Engineers
- Computational Case Study
- Energy and Power Electronics Laboratory
- Environmental Analysis and Legislation
- Modern Control Systems
- Power Generation Systems
- Power Semiconductor Devices
- Wide Band-Gap Electronics

STRUCTURAL ENGINEERING MSc

Students on the MSc Structural Engineering course will be provided with in-depth knowledge and exposure to conventional and innovative ideas and techniques to enable them to develop sound solutions to structural engineering problems.

It will cover the diverse nature of structural engineering through the integration of knowledge from mechanics, materials, structural analysis and structural design. The programme will also cover the latest technical trend in Civil and Structural Engineering including advanced computational modelling skills and will broadly cover technical challenges and solutions faced in large scale infrastructure works. This course is accredited by the Institution of Civil Engineers (ICE).

GREAT MINDS

Professor Serena Margadonna

CHAIR IN MATERIALS ENGINEERING AND HEAD OF THE FUTURE MANUFACTURING RESEARCH INSTITUTE

Pioneering multidisciplinary research for environmentally sustainable solutions to the global energy challenge.

Professor Margadonna has, over the years, acquired knowledge and know-how in a number of fields in science indispensable for the design and production of new smart materials, through chemistry, condensed matter physics and process engineering.

Chair in Materials Engineering, Professor Margadonna’s work has been inspired by the simple realisation that major advances in modern technology are always driven by the availability of materials which possess a number of functionalities and are able to operate at different length scales, in harsh conditions such as extremes of pressures/temperatures and highly tough environments.

Professor Margadonna said: “The performance requirements for materials are increasingly demanding and necessitate a truly multidisciplinary research.”

Her interdisciplinary approach has produced a number of significant advances which have attracted peer-recognition as shown by a number of high-impact publications, citations and international awards.

Professor Margadonna’s current research focuses on new materials and process technologies related to energy production, transport and storage. Her vision is to give a contribution to the global energy challenge by developing cost-efficient and environmentally sustainable solutions.

Serena is committed to providing an excellent teaching and training experience. She said: “Throughout my career, I have always strongly believed that knowledge transfer and high-quality education is the key for improving the standard of life for future generations.”
the Institution of Structural Engineers (IStructE), the Chartered Institution of Highways and Transportation (CIHT), the Institute of Highway Engineers (IHE), and the Permanent Way Institution (PWI).

Modules typically include:
• Advanced Structural Design
• Coastal Processes and Engineering
• Computational Fluid Dynamics
• Design and Analysis for Temporary Works
• Dynamics and Earthquake Analysis of Structures
• Finite Element Method
• Fluid-Structure Interaction
• Plasticity in Structural and Geotechnical Engineering
• Strategic Engineering Management

SUSTAINABLE ENGINEERING MANAGEMENT FOR INTERNATIONAL DEVELOPMENT MSc

The majority of the world's construction is now informal and located in the Global South, namely "developing countries, which are located primarily in the Southern Hemisphere" (UNDP). These new world environments face multiple challenges, from reducing extreme poverty and providing food for the expected 10 billion people by 2050, to dealing with the threats of man-made climate change and irreversible loss of bio-diversity and natural habitats.

In the face of this, we urgently need to develop a new generation of practitioners who can think rapidly and flexibly and act in the absence of complete information to support and improve the quality of life for both urban and rural dwellers of the future. These practitioners will need to understand and be able to enhance environments through myriad engineering issues and develop designs in collaboration with the communities they serve. This cross-disciplinary programme will develop a new generation of practitioners who can lead this development, devising practical engineering solutions to building resilience for local communities in the face of rapid urbanisation. This course is accredited by the Institution of Engineering and Technology (IET).

Modules typically include:
• Circular Economy and Sustainable Engineering
• Community Engagement
• Complexity, Uncertainty, Risk and Failure
• Concept Development and Application
• Introduction to Development Studies Leadership, Team Development and Innovative Thinking
• Monitoring and Impact Evaluation for International Development
• Project Management
• Socio-economic and Political Implications of Engineering Solutions
• Tools for International Development

VIRTUAL REALITY MSc

Welcoming graduates from all subject areas, this course encapsulates the knowledge you have acquired into a VR environment that can be deployed in an exciting and immersive way for commercial, medical, research or educational purposes, developing a multidisciplinary skill set. This programme aims to:
• Define and develop effective computer based applications
• Enable graduates to understand and apply modern VR technology in the context of social, economic and technical challenges and to take a holistic and multidisciplinary approach to problem solving
• Explore theoretical views on media, marketing, culture and human centred design through the project design process
• Provide an overview of XR technology and applications

Modules typically include:
• Development of Virtual Reality Environments 1
• Development of Virtual Reality Environments 2
• Case Study in state-of-the-art Virtual Reality
• Marketing Management
• Mobile Technology Practice (VR)
• MSc Dissertation – Virtual Reality
• The Digital Revolution (VR)

RESEARCH COURSES

Entry Requirements
MPA/MPhil/PD: Typically a 2.1 honours degree or a master's degree or an equivalent qualification.
MRes: Typically a 2.1 honours degree or above in a subject relevant to the area of research. Please check the website for the latest entry requirements and for further details.

English Language Requirement
IELTS 6.5 (minimum of 5.5 in each component) or Swansea University-recognised equivalent

COMPUTER MODELLING IN ENGINEERING MRes

This MRes is suitable for those who are interested in gaining a solid understanding of computer modelling, specialising in either structures or fluids. On this course, you will have access to excellent computing facilities within the Zienkiewicz Centre for Computational Engineering, including a state-of-the-art multiprocessor super computer with virtual reality facilities and high-speed networking. This course is accredited by the Joint Board of Moderators (JBM). The JBM is composed of the Institution of Civil Engineers (ICE), the Institution of Structural Engineers (IStructE), the Chartered Institution of Highways and Transportation (CIHT), the Institute of Highway Engineers (IHE), and the Permanent Way Institution (PWI).

Modules typically include:
• Advanced Fluid Mechanics
• Communication Skills for Research Engineers
• Dynamics and Transient Analysis
• Finite Element and Computational Analysis
• Numerical Methods for Partial Differential Equations
• Solid Mechanics

ENGINEERING DOCTORATE

Our EngD projects are defined by our long standing industrial sponsors and address operational requirements identified by these companies. Projects are focused on our established areas of engineering expertise.

We are a leader in developing new manufacturing processes and products, such as functional coatings. Our research in this area is led by the SPECIFIC project, in collaboration with Tata Steel. Research into advanced, structural materials is undertaken in conjunction with the Rolls-Royce University Technology Centre (UTC) in Materials based at Swansea. These projects are funded by the EPSRC Strategic Partnership in Structural Metals for Gas Turbines. We offer EngD programmes in the research areas of functional coatings and advanced manufacturing.

Visit our research website for more information on:
• Our world-class strategic technology centres
• Our thematic research centres and groups
• Our current research areas and projects

Harnessing Energy
SPECIFIC was one of seven Innovation and Knowledge Centres set up in 2011 to foster new industries by closing the gap between scientific research and its commercial exploitation.

Their goal is the development of affordable technologies that can be manufactured at scale and re-used or recycled at the end of their life.

FIND OUT MORE

specific.eu.com
Writing was rated 7th in the UK and 1st in Wales, with a high proportion of our research judged ‘internationally excellent’ or ‘world leading’.

We have been a respected centre for research into Medieval, Renaissance and 18th-century literature for nearly 100 years.

Today we are equally renowned for expertise in gender studies, Welsh writing in English, contemporary literature, and creative writing. Many of our staff are sought after as experts appearing on radio and TV, and write regularly for broadsheet newspapers and major reviews.

In the latest (2014) UK Government rankings for research excellence (REF), our research in English and Creative Writing was rated 7th in the UK and 1st in Wales, with a high proportion of our research judged ‘internationally excellent’ or ‘world leading’.

The Centre’s current research themes are:
- The Enduring Past
- Nature and Nurture (including Gender, Health, and The Body)
- Power, Conflict, and Empire
- Space and Place
- Texts and their Contexts
- Wales, England and the Marches

**TAUGHT COURSES**

**Entry Requirements**
- MA in English Literature and MA in Welsh Writing in English: Normally require 2:2 with a minimum of 50% overall or above in English Literature or a related subject or an equivalent qualification.
- MA in Creative Writing: Normally require a minimum 2.2 honours degree in Medieval Studies, History, Literature or a relevant discipline or an equivalent qualification. A short portfolio of written work is required.

**English Language Requirement**
- IELTS 6.5 (minimum of 6.5 in each component) or Swansea University recognized equivalent.

**SCHOLARSHIPS AND BURSARIES**

A range of postgraduate scholarships and bursaries are available. For details, please visit swansea.ac.uk/postgraduate/scholarships

**CREATIVE WRITING MA**

The MA in Creative Writing is a unique programme offering integrated teaching in literary and performance writing. A prize-winning staff of professional writers provide core teaching in fiction, poetry, non-fiction and drama, and guide students along individual pathways through the major genres of contemporary writing. Students will also benefit from a wide raft of extra-curricular activities, including sessions led by visiting writers and industry professionals.

**ENGLISH LITERATURE MA**

This MA offers students a wide range of options in English Literature studies and draws on the individual research expertise of members of staff. Students can also select modules from the MA in Welsh Writing in English and the MA in Creative Writing, as well as literature modules from other MA programmes.

**WELSH WRITING IN ENGLISH MA**

Swansea offers a ground-breaking postgraduate Creative Writing programme led by tutors of world-class stature. The course will provide you with a wide spectrum of skills and a research dialogue across the genres, from the worlds of poetry and long fiction to those of stage drama, screenwriting, creative non-fiction and travel writing. The Creative Writing PhD will involve you in a three-year experience of close mentoring with a writer-teacher distinguished in the genre in which you write. You will also benefit from the rich interchange of knowledge within the Creative Writing PhD workshops, held monthly.

**CREATIVE WRITING MPhil/PhD**

Research in English Literature at Swansea is innovative, collaborative, and often interdisciplinary. It involves close monitoring by an expert in your chosen topic or field of studies, and the opportunity to participate in a vibrant research culture of guest lectures, seminars, academic training workshops, and postgraduate student conferences. Research proposals will be considered on any English Literature related topic, but should generally fall broadly into our staff’s areas of research specialism.

PhD programmes are supported by the following University Research Centres:
- Centre for Medieval and Early Modern Research (MEMO)
- Centre for Research into the Language of Wales (CREW)

**RESEARCH COURSES**

**Entry Requirements**
- MA By Research/MPhil: Typically a 2:1 honours degree or above in English or Swansea University recognised equivalent qualification.
- Applicants for PhD study must normally hold an undergraduate degree at 2:1 level and a master’s degree (or Swansea University recognised equivalent qualification).

**English Language Requirement**
- IELTS 6.5 (minimum of 6.5 in each component) or Swansea University recognized equivalent.
We are recognised as one of the leading global centres for teaching and research in human and physical geography. In the latest (2014) Research Excellence Framework (REF), the Department of Geography was ranked 8th in the UK for research impact and 11th for research environment. Our research environment and the impact of our research were both judged to be 100% ‘world leading’ or ‘internationally excellent’.

Our internationally active research staff and large community of postgraduate researchers create a dynamic and inspirational environment in which to study. Many projects carried out by our staff and students actively contribute towards the United Nations Sustainable Development Goals.

**The Centre for Research into Gender and Culture in Society (GENCAS)**

GENCAS is an interdisciplinary research body bringing together staff and postgraduate students from across the University who conduct research into gender, enabling members to share their expertise and work collaboratively.

The Centre hosts conferences, symposia and workshops, providing a stimulating environment for PhD students. Scholarly work spans a range of disciplines including:

- Business Studies
- English Literature
- History, Classics and Egyptology
- Media and Communication
- Medicine and Midwifery

**SINGLETON PARK CAMPUS**

**ENGLISH LITERATURE**

**AND CREATIVE WRITING**

**GEOGRAPHY**

**SINGLETON PARK CAMPUS**

**ENVIRONMENTAL DRONE REMOTE SENSING MSc**

This MSc programme teaches the knowledge, skills and understanding to create and utilise high resolution remote sensing data for real world, practical applications, using sensors flown on drone platforms. You will gain the skills, experience and knowledge to operate a drone safely and within current Civil Aviation Authority (CAA) regulations. This will comprise theoretical and practical flight training and assessment. This component will be taught in part by an external CAA accredited training provider and students will graduate with the additional CAA drone/UAV remote pilot competency accreditation: General Visual line of sight Certificate (GVC).

**Compulsory modules include:**
- Drone Operation
- Drone Remote Sensing

**SCHOLARSHIPS AND BURSARIES**

A range of postgraduate scholarships and bursaries are available. Please visit swansea.ac.uk/postgraduate/scholarships

**ENVIRONMENTAL DYNAMICS AND CLIMATE CHANGE MSc**

This inter-disciplinary course places particular emphasis on the scientific basis behind regional and global climatic change, and limitations of models and data collection techniques. You will develop extensive knowledge of the current scientific issues underpinning environmental change and ecosystem dynamics, and the practical problem solving, ICT, and communication skills required for a successful career in the environmental service industry, regulating bodies or academia.

**GEOGRAPHIC INFORMATION AND CLIMATE CHANGE MSc**

This course provides cross-disciplinary training in the scientific basis of GIS, satellite remote sensing and earth system modelling alongside aspects of climate change. The course places particular emphasis on the technical aspects of GIS and earth observation as well as the past, present and future global and regional environmental and climatic change.

For the above courses optional modules typically include:
- Climate Change – Past, Present and Future
- Climate Science and Policy
- Ecosystems: Ecology, Conservation and Resource Management
- Environmental Assessment and Management
- Geographical Information Systems
- Modelling Earth Systems
- Principles of Environmental Dynamics
- Satellite Remote Sensing
- Science Skills and Research Methods

**Entry Requirements**

Typically a minimum of a 2:2 (with 55% average) honours degree or equivalent in a relevant subject.

**English Language Requirement**

IELTS 6.5 (minimum of 6.0 in each component) or Swansea University recognised equivalent.

For more detailed course content, including a full module list, visit swansea.ac.uk/postgraduate
Professor Siwan Davies is a Professor in Geography and uses volcanic ash to help improve our understanding of when our climate changed abruptly in the past. She is an inspiring scientist and recipient of the Philip Leverhulme Prize (2011) and Lyell Fund (2013). She is a Fellow of the Learned Society of Wales.

Originally from Newport, Pembrokeshire, after graduating from the University of Oxford in Geography, Siwan completed a master’s and PhD at Royal Holloway, University of London in 2002. Following post-doctoral appointments at Stockholm University and the University of Copenhagen, she joined Swansea University as a Lecturer in 2004 and quickly climbed the academic career ladder to be awarded a Personal Chair in 2012.

Siwan’s research has secured funding from NERC, The Leverhulme Trust and the European Research Council (ERC) and she now leads a team of post-doctoral researchers and PhD students. The ERC-funded research project, TRACE, aims to use volcanic ash layers present in the Greenland ice-cores and North Atlantic marine records to assess whether the atmosphere or the oceans drove Northern hemisphere climate change in the past. Professor Davies said: “This is a big question in climate science and my work on microscopic ash particles can provide the answers. The work is exciting but also challenging and I love it. It’s also a thrill to lead and inspire a team of researchers towards our scientific goals.”

Siwan also takes her work to the public and is the presenter of a hugely successful TV documentary series on climate change “Her yr Hinsawdd” for S4C. Siwan has travelled all over the world to see the impact of climate change on people today and continues her journey in the second series.

Siwan contributes to Welsh-medium teaching at Swansea and across Wales and is actively engaged with the work of the Coleg Cymraeg Cenedlaethol.

“...My work on microscopic ash particles is exciting but also challenging and I love it. It’s also a thrill to lead and inspire a team of researchers towards our scientific goals.”
We take a holistic approach that looks beyond the traditional medical model of ageing, exploring health and well-being among older people through a range of disciplines including psychology, sociology, and demography.

You will be based in the internationally renowned Centre for Innovative Ageing (CIA), the largest gerontology research centre in Wales and one of the largest in the UK, with unparalleled links with policy makers in the UK and abroad. The CIA is also home to the Centre for Ageing and Dementia Research (CADR), which addresses internationally important questions in ageing and dementia.

You will benefit from a dynamic teaching and research environment, with many opportunities to make connections across disciplines.

RESEARCH COURSES
Entry Requirements
PhD applicants would normally have, or be studying for, a master’s degree while our MPhil programmes require a first or upper second class undergraduate degree in a discipline related to the proposed research project, or a relevant, approved postgraduate qualification.

English Language Requirement
IELTS 6.5 (minimum of 6.5 in each component) or Swansea University recognised equivalent.

SCHOLARSHIPS AND BURSARIES
We offer a range of funding opportunities for both taught and research degrees.

GERONTOLOGY AND AGEING STUDIES MPhil/PhD

We invite applications from well-qualified candidates whose research interests correspond to our areas of research expertise.

These areas include the influence of the natural and built environment on an ageing population, and care provision for the older person across such areas as social care, health care, residential care, palliative care, chronic conditions, and falls and their prevention.

Students are currently exploring topics such as the impact of lifestyle on cognitive function in later life, dementia care environments, age-friendly communities for people with mobility difficulties and the driving cessation process amongst older drivers.

TAUGHT COURSES
Entry Requirements
Typically a 2:1 honours degree in History or a related subject.

HISTORY MA

The MA in History encompasses a wide range of topics from the Middle Ages onwards. The wide-ranging expertise of Swansea University’s historians offers the study of British, European, American, and World History. The MA allows students to explore the history of art and culture, empire, gender, politics, religion, sexuality and science. Working with materials in the Richard Burton Archive, students also have the opportunity to develop their ability to present historical research to the wider public.

Modules typically include:
- Directed Reading in History
- Debates and Approaches in Heritage and Public History
- Enmy and Entanglement: Jews of Medieval England, 1066-1290
- Fascism and Culture
- Feminism and Queer Activism in Postwar Britain
- Historical Methods and Approaches
- Modern Medical Bodies: Major Themes in the History of Modern Medicine
- New Departures in the Writing of History
- Swansea and the Sea
- Wales since 1945

SCHOLARSHIPS AND BURSARIES
A range of postgraduate scholarships and bursaries are available. For details, please visit swansea.ac.uk/postgraduate/scholarships.
• Introduction to Advanced Medieval Studies 1: Skills and Approaches
• Introduction to Advanced Medieval Studies 2: Themes and Sources
• Latin
• Medieval Manuscripts
• Medieval Studies Placement
• The Queen Middle Ages: Bodies, Textuality and Objects
• Saints and Sinners in Christian Late Antiquity

MODERN HISTORY MA

The MA in Modern History draws upon the very broad expertise in modern history in the Department of History. It allows students to explore the history of the modern era from a variety of perspectives, including conflict, memory, gender, culture, heritage, sexuality, science and medicine.

Modules typically include:
• Directed Reading in History
• Debates and Approaches in History and Public History
• Feminism and Queer Activism in Postwar Britain
• Fascism and Culture
• Historical Methods and Approaches
• Modern Medical Bodies: Major Themes in the History of Modern Medicine
• New Departures in the Writing of History
• Toxic Heritage
• Wales since 1945

PUBLIC HISTORY AND HERITAGE MA

The MA in Public History and Heritage is a flexible programme designed to offer a combination of academic training and employment-related skills. You will study a module exploring debates and approaches in public history and heritage, plus a work placement, and select from a range of options including modules in ancient history, ancient Egyptian culture, history, Welsh identities, heritage themes, archive/communication practice and museum practice.

PUBLIC HISTORY AND HERITAGE MA [EXTENDED]

This Extended MA programme combines the MA Public History and Heritage with a period of study abroad. The study abroad is one additional semester taken at the Appalachian State University in North Carolina. The additional semester makes the EMA equivalent in credits to a European MA.

Modules typically include:
• Debates and Approaches in Heritage and Public History
• From Princely Possessions to Public Museums
• Heritage Work Placement
• Historical Methods and Approaches
• New Departures in the Writing of History
• Reaching the Public: Museums and Object Handling (Museum Practice)
• Research Methodologies in Ancient History
• Toxic Heritage
• Understanding Ancient Egyptian Culture
• Welsh Identities: Literature and Nationhood

RESEARCH COURSES

Entry Requirements
Applicants for an MA By Research are normally expected to hold an undergraduate degree in history or a related subject at 2:1 level, or Swansea University recognised equivalent. Applicants for an MPhil or PhD should also hold an expect to achieve a master's degree with a minimum overall grade of 'Merit', or Swansea University recognised equivalent.

English Language Requirement
IELTS 6.5 (minimum of 6.5 in each component) or Swansea University recognised equivalent.

HISTORY MA By Research/ MPhil/PhD

We invite applications from well-qualified candidates whose research interests correspond with our areas of research expertise. We encourage prospective applicants to contact the department informally to discuss your proposals. Topics that can be supervised by historians at Swansea include:

Medieval History
• The Anglo-Norman ‘Realm’ and the Angevin Empire
• Archaeology and Landscape History
• Capetian France, especially the Monarchy, Aristocracy, and Religious Orders

Charters and the Documentary Records of Medieval France and England
• The Crusades and Latin Christendom
• Cultural Interchange Between East and West
• Endangered and Wales in the Central and Late Middle Ages

Gender and the Life Cycle
• History of Disabilities, Medicine, and Health
• Kingship and Medieval Political Thought
• Legal History
• Medieval Frontier Societies and Borderlands, and Concepts of Frontiers from the Late Roman Empire to the Present Day
• Medieval Historical Writing
• Minorities, Social Exclusion, Immigration and Ethnic Integration
• The Natural World
• Urban Life

Early Modern History
• European History, especially Britain, Portugal, and the German-speaking Lands
• History of Disabilities
• Maritime and Imperial History
• Modern Representations of the Early Modern Past
• Print Culture and History of the Book
• The Political and Religious Culture of Seventeenth-Century Britain
• Science and Medicine, Intellectual Life, and Museums and Material Culture
• The Social History of Early Modern Sex and Marriage

Modern History
• Britain and the British Empire from 1800 to the present
• British and American Legal History, Post-1750
• The Cold War and the Nuclear Age
• Crime, Policing, and Punishment in Twentieth-Century Europe
• Education and Intellectual History
• Emigration and Urbanisation in the British Isles between the Eighteenth and Twentieth Centuries
• The First World War
• Italy in the Twentieth-Century: Italy in the Twentieth-Century
• Italian Fascism
• History of Disabilities
• History of Political Thought
• History of Protest and Activism in the 1960s and 1970s
• Holocaust History
• Memory Studies and Oral History of Twentieth-Century Europe
• Public History and Heritage
• Science, Medicine, and Disease
• Sport and Leisure
• Transnational History
• Urban History
• Wales and the Welsh Overseas
• War and Society in Europe between 1750 and 1815
• Western Europe after 1945, including Postwar Reconstruction

Research groups include:
• CECSAM, the Centre for the Comparative Study of the Americas
• CODAH, the Centre on Digital Arts and Humanities
• CRAM, Research Group for Conflict, Reconstruction and Memory
• MEMO: Centre for Medieval and Early Modern Research
• The Richard Burton Centre for the Study of Wales
• The Research Group for Health, History, and Culture

Graduate Centre
All History research students belong to the Graduate Centre, providing pastoral as well as administrative support and is also responsible for research skills training and support, and facilitating a lively intellectual environment for the postgraduate research community of 200 students.

THE RICHARD BURTON ARCHIVES (UNIVERSITY ARCHIVES)

The publication of The Richard Burton Diaries edited by Chris Williams, former Professor of Welsh History and former Director of the Research Institute for Arts and Humanities, has attracted global attention and accolades and revealed a very different side to the world famous actor’s public persona. The book is a result of painstaking research of the handwritten diaries, which Richard Burton began in 1939 and ended just before his death in 1948, which were donated to Swansea University in 2005 by his wife, Sally Burton. The diaries, along with other personal papers, are known as The Richard Burton Collection, and today forms a central part of the £1.2 million Richard Burton Archives facility at the University’s Library. Other holdings of the Archives include the South Wales Coalfield Collection, local archive collections related to the industrial, civic, and religious history of Swansea and the surrounding area, and the papers of the University itself.
Dr Alex Langlands is a medieval archaeologist and historian who joined Swansea University in 2015. He contributes to the undergraduate and postgraduate history and heritage programmes.

Alex brings a wealth of industry experience to our teaching having worked for long periods in the heritage sector and broadcast media industries. He was a presenter and producer for the BBC’s Victorian Farm, a series that garnered nearly six million viewers and one that was nominated for the prestigious British Broadcast Awards in the category of Best Factual Programme. Edwardian Farm, Wartime Farm, Full Steam Ahead and Victorian Bakers have all followed suit on BBC, regularly achieving viewing figures of over two million. But Alex has also worked for Channel 4 on productions such as Britain at Low Tide and Time Team and co-presents Channel 5’s Digging Up Britain’s Past, currently in its third series. He has worked for the BBC2 series Tales from the Green Valley won the prestigious Learning on Screen Award given by the British Universities Film and Video Council.

In 2018 Alex published Cræft: How traditional crafts are about more than making, a book that has received critical acclaim both in the UK and the USA where it was given a cover review in the New York Times weekly Book Review. His popular history publications have achieved Sunday Times Bestseller status in the Hard-back Non-Fiction category and his current book, based on his academic research, is titled The Ancient Ways of Wessex and critically examines the character of the early medieval landscape of southern England.

With his experience in both the media, and the heritage and commercial archaeology sectors, Alex offers a broad portfolio of teaching ranging from traditional lectures and seminars to field trips, software training, and supported workplacements. The extra-curricula activities Alex offers in industrial heritage and archaeological excavation provide our students with vital industry experience.

“Swansea is an amazing place to come and live and study. It has everything: from a bustling city with excellent rail links to Manchester and London, to some of the best beaches in the UK. It is spacious and tranquil, with first-class access to civic parks, National Parks and landscapes of outstanding natural beauty. There is also no shortage of opportunities for fun and festivities in a college that provides the very latest in up-to-date provision for the graduates of the future.”

The Hillary Rodham Clinton School of Law is a vibrant community, continuously developing to ensure our graduates are equipped to meet the demands of an ever-changing, modern legal world. As a postgraduate student, you will study an exciting range of cutting-edge modules supported by academics with real-world experience at the forefront of their research. Our research addresses major societal challenges, has impact and makes a difference. We have established expertise in the fields of children’s rights, cyberterrorism, environmental law, human rights, intellectual property, international law, LegalTech, and shipping and trade law.

Learning and explainable AI, and of opportunities and challenges in relation to their application to law and legal practice.

Modules typically include:
- Artificial Intelligence and Law: Applications
- Artificial Intelligence and Law: Principles
- Computational Thinking
- Digital Intellectual Property and LegalTech
- Digital Rights

Focus on contemporary challenges for global human rights and how to respond through law, policy and practice. Students undertake advanced studies in human rights law, research and implementation.

Compulsory Modules:
- Dissertation on a Human Rights Topic
- Human Rights Implementation
- International Human Rights Law
- Research Methods and Ethics

Gain new skills at the intersection of law and computer science to drive innovation in the legal profession. Our LegalTech LLM provides the opportunity to discover and apply cutting-edge technologies to legal practice.

You will gain an understanding of the technical basics of key emerging technologies including machine

The Cyber Crime and Terrorism MA is an interdisciplinary course, drawing on political science, psychology, criminology, law and history to critically engage with online crime and terrorism. Throughout this course you will learn about the threats, trends, issues, responses and ethical questions associated with terrorism and cyber crime. Staff are experienced researchers in these fields and there are opportunities for students to undertake their original research as part of their final dissertations.

Modules typically include:
- Counteracting Violent Extremism Online
- Crime in Cyberspace
- Cyber Security
- Digital Policing and Forensics
- Human Rights and Terrorism Online
- Online Propaganda and Radicalisation
- Research Methods and Ethics

Gain an in-depth understanding of the law concerning the oil and gas industry and new sources of energy, especially renewables.

This fully funded master’s, a key part of the Hillary Rodham Clinton Global Challenges Programme, will develop the next generation of outstanding and real-world focussed leaders in legal scholarship, activism and practice.

Our suite of LLMs in International Commercial and Maritime Law offers both generalist and specialist programmes. The table indicates the available modules on each programme. The individual programmes are as follows:

SCHOLARSHIPS AND BURSARIES
A range of postgraduate scholarships and bursaries are available. Apply through the Central Applications Board at: lawcabs.ac.uk

LEGAL PRACTICE COURSE LPC
The Legal Practice Course (LPC) is a professional practical course that develops the key skills and knowledge needed for a successful career in law in England and Wales. Students are offered excellent pastoral care and support from professionally qualified staff along with best practice guidance for personal development and training. The LPC is designed for those already holding a law degree or Graduate Diploma in Law. Please refer to the website for details of courses for non-law graduates.

Entry Requirements
LPC: A 2.2 or above in a UK qualifying honours degree in law (as specified by the SRA) from a UK recognised university or a Graduate Diploma in Law (GDL) or similar qualification.

LLM in Legal Practice and Advanced Drafting LLM
Enhance your employability and legal skills by upgrading your Legal Practice Course (LPC) to a master’s degree.

Entry Requirements
MPhil/PD: A minimum of a 2:1 at undergraduate level (with no failed modules), plus a master’s degree with at least a ‘Merit’ achieved overall. English Language Requirement IELTS 6.5 (minimum of 6.0 in each component) or Swansea University recognised equivalent.

CAREER PROSPECTS
Our graduates have gone on to become specialist lawyers or barristers, undertaken further research, or have entered the world of academia and teaching.

PROFESSIONAL COURSES
Entry Requirements
LLM: A 2:2 or above in a UK qualifying honours degree in law (as specified by the SRA) from a UK recognised university or a Graduate Diploma in Law (GDL) or similar qualification.

LEGAL PRACTICE AND ADVANCED DRAFTING LLM
Enhance your employability and legal skills by upgrading your Legal Practice Course (LPC) to a master’s degree.

Entry Requirements
MPhil/PD: A minimum of a 2:1 at undergraduate level (with no failed modules), plus a master’s degree with at least a ‘Merit’ achieved overall. English Language Requirement IELTS 6.5 (minimum of 6.0 in each component) or Swansea University recognised equivalent.

RESEARCH COURSES
Entry Requirements
MPhil/PhD: A minimum of a 2:1 at undergraduate level (with no failed modules), plus a master’s degree with at least a ‘Merit’ achieved overall. English Language Requirement IELTS 6.5 (minimum of 6.0 in each component) or Swansea University recognised equivalent.

Join our thriving community of postgraduate research students, where you will become part of a supportive environment dedicated to understanding some of society’s most challenging issues. A research degree in law gives you the chance to pursue a project based around your own passions and interests, leading to a qualification, which can open the door to an academic career or boost employment prospects in a range of other fields.

LAW MPhil/PhD
We invite applications from candidates whose interests correspond with our areas of research:
- Children’s Rights
- Common Law, including Contract and Commercial Law
- Criminal Law, Counter-Terrorism and Cyberterrorism
- Environmental Law
- Family Law and Policy
- International and Domestic Human Rights Law
- LegalTech

ESRC WALES DOCTORAL TRAINING CENTRE
As part of the ESRC Wales Doctoral Training Partnership (DTP), the School focuses on providing excellent postgraduate training. We provide a mix of generic and subject-specific research training enabling students to develop and apply empirical research methods to legal enquiry.

"The best thing about studying at the School of Law is the academic resources. From the teaching materials, to the interactive seminars, employability opportunities made available, and finally the one-on-one personal tutor advice sessions. Take a proactive role in your academic studies, especially where time management is concerned. Engage in the non-grading modules. However, try not to restrict yourself to just the classroom. Join a non-academic society. Engage with your peers, and form connections. The Law School and university have staff and students from a plethora of cultural and educational backgrounds who contribute to enriching your learning experience and student life."

Sean Ebenezer Marte Markwei
LAW IN INTERNATIONAL COMMERCIAL AND MARITIME LAW
Developed with the Chartered Institute of Marketing (CIM), our MSc will give you an advanced understanding of contemporary marketing that you can apply in a variety of contexts and situations. After the taught elements of the course, you can complete a work-based marketing project, applying your new skills and knowledge to real-life.

The programme will equip you for a successful marketing career or for a research-oriented career, through a PhD after you graduate. Our academic staff include internationally acclaimed research experts and those with a wealth of industry experience, and our student community comes from around the globe, bringing diversity and a broad range of perspectives to the classroom. The department is co-located with industry at the innovative beachfront Bay Campus.

TAUGHT COURSES
Entry Requirements
MSc Strategic Marketing: 2:1 honours degree or above in a related discipline (business or marketing).

English Language Requirement
IELTS 6.5 (minimum of 5.5 in each component) or Swansea University recognised equivalent.

SCHOLARSHIPS AND BURSARIES
We have an offer financial support for the brightest prospects of the future. It’s not just academic excellence we reward—we also recognise and encourage passion for study and involvement in student life. There are a range of funding opportunities available for both taught and research degrees.

For more information on MSc Management (Marketing) see page 76.

STRATEGIC MARKETING MSc

This programme will equip you with strong grounding in both practical and theoretical aspects of contemporary strategic marketing, understanding ethical issues and social responsibility and develop students to deliver a sustainable, inclusive and innovative future marketing strategy. The programme has been designed in line with the CIM Postgraduate Diploma and will provide you with the opportunity to gain chartered status upon successful completion of CIM accredited assessments. You will also have the opportunity to complete a three-month placement, or more traditionally, can choose to complete a dissertation in a specialised area of marketing.

Modules typically include:
• Consumer Psychology
• Digital Marketing
• Integrated Marketing Communications
• Marketing in Society
• Marketing Research
• Strategic Marketing
• Work Placement or Dissertation

For more detailed course content, including a full module list, visit: swansea.ac.uk/postgraduate

RESEARCH COURSES
Entry Requirements
MPhil: Typically a first-class or 2:1 honours degree in marketing or a related subject, or an equivalent qualification.

PhD: Applicants must normally hold an undergraduate degree at 2:1 level and a master’s degree with a minimum overall grade at ‘Merit’. Alternatively, applicants with a UK first-class honours degree (or Non-UK equivalent as defined by Swansea University) not holding a master’s degree, will be considered on an individual basis.

MSc By Research: Must hold an undergraduate 2:1 honours degree.

English Language Requirement
IELTS 6.5 (minimum of 6.5 in each component) or Swansea University recognised equivalent qualification.

MEMBERSHIP:

ACCREDITATIONS & AWARDS INCLUDE:

BUSINESS MANAGEMENT MSc By Research

One year research degree which offers complete flexibility through its wholly research based mode of study.

BUSINESS MANAGEMENT MPhil/PhD

We invite applications from well-qualified candidates whose research interests correspond to our areas of research expertise. Applicants are encouraged to explore our research expertise to ensure a good fit between PhD proposals and potential supervisors. Information about our research groups can be found at: swansea.ac.uk/som/research

STRAEGIC MARKETING WORK PLACEMENT

An alternative to the traditional dissertation module, this work placement opportunity enables students to gain practical experience of working on a marketing project within industry, without extending their degree or sacrificing academic credit.

Students will experience a three-month unpaid placement at a local SME, working on a specific marketing based project. On completion of this work-based project, students will not only have critically applied theoretical concepts learned in class to a real-world business situation, but will have been able to evaluate the challenges of working in the real world with responsibilities and gaining opportunities to develop plans for future personal development in this field.

In addition to supervisor meetings throughout the period, students are required to spend a minimum of 300 hours undertaking this graduate-level marketing project work. This equates to a minimum of 25 hours per week over the 3 month period, allowing students to dedicate 10 hours of time per week to conduct necessary research and studies in preparation for the industrial report assessment submission.

I completed an exchange semester in Swansea University when I was studying my undergraduate degree in Denmark. During this time, I realised just how good a university Swansea was. One lecturer in particular sparked an idea of returning to Swansea to complete my master’s. I stayed in touch with the university throughout the application process and the team were so helpful.

Studying a postgraduate course means that you can build even stronger relationships with lecturers which is great. I loved the modules I could select from, which included digital marketing and marketing in society.

I’ve met so many students from across the world and I now have friends who are from Mongolia and China. Setting in wasn’t difficult; Swansea is a safe city with a friendly community and it is great being so close to a beautiful beach.

"
Our Mathematics Department is expanding and is now housed in the new Computational Foundry building. This £32.5 million world-class facility provides the most up-to-date and high-quality teaching and research facilities, as well as networking and inspiration space. The Foundry is a place where industry partners can work with us, test new ideas and allow our students and researchers to work on real-world problems.

We place a strong emphasis on developing graduate employability, and our graduates have been employed by a wide range of organisations including: AXA, BA, Deutsche Bank, Shell Research, health authorities, Zurich Financial Services, and local government.

TUATH COURSES
Entry Requirements
Typically a 2.2 honours degree or equivalent in mathematics or related subject.

English Language Requirement
IELTS 6.0 (minimum of 5.5 in each component) or Swansea University recognised equivalent.

SCHOLARSHIPS AND BURSARIES
A range of postgraduate scholarships and bursaries are available. swansea.ac.uk/postgraduate/scholarships

ACTUARIAL SCIENCE MSc

The MSc in Actuarial Science, accredited by the Institute and Faculty of Actuaries, is designed to give graduates from numerate disciplines a grounding in the mathematical and statistical theories needed to become a qualified actuary. Students will study the mathematical theories of probability and statistics and will learn how these are applied to the modelling of risk in a variety of actuarial contexts. Our syllabus is aligned with the professional body for actuaries in the UK (the Institute and Faculty of Actuaries) and successful graduates should be able to gain up to three professional exam exemptions from selected professional examinations.

Modules typically include:
- Actuarial Mathematics
- Assurance and Annuity
- Finance
- Insurance Risk
- Modelling and Machine Learning
- Probability and Statistics
- Probability and Statistics for Finance
- Stochastic Processes and Survival Models

MATHMATICS AND COMPUTING FOR FINANCE MSc

The MSc Mathematics and Computing for Finance course has been designed to meet the growing demand for specially trained mathematicians to work in the world’s financial markets and insurance. On the course you will study different elements of mathematics, finance and computing in addition to developing your communication and presentation skills through a project you will undertake. You will be fully supported to ensure that your project is best suited to support your future career plans.

Modules typically include:
- Actuarial Mathematics
- Black-Scholes Theory
- Differential Equations
- Finance
- Financial Mathematics
- Fourier Analysis
- Insurance Risk
- Itô Calculus and Stochastic Differential Equations
- Numerics of ODEs and PDEs
- Numerical Analysis
- Partial Differential Equations
- Probability and Statistics
- Probability Theory
- Programming in Java
- Stochastic Processes

For more detailed course content, including a full module list, visit: swansea.ac.uk/postgraduate

YOU WILL STUDY IN OUR £32.5m COMPUTATIONAL FOUNDRY PROVIDING STATE-OF-THE-ART LEARNING FACILITIES

STUDENT PROFILE

Jiao Song

MRes STOCHASTIC PROCESSES: THEORY AND APPLICATIONS
PhD MATHEMATICS

"Since completing my BSc, I developed research interests in probability and became passionate about coming up with solutions to real-world problems with my skill set. The Department of Mathematics at Swansea University is at the forefront of innovation in this field with a strong research culture. Moreover, among research staff within the department, the areas of expertise include, core disciplines of probability theories and stochastic processes, and interdisciplinary areas of applied statistics and biostatistics. The department works closely with professional organisations, i.e. London Mathematical Society and Institute and Faculty of Actuaries.

My supervisors provided excellent academic supervision and mentoring during my MRes in Stochastic Processes and my PhD in Mathematics, and members of staff were always available for consultations when required. The Department of Mathematics also supports training programmes, resources on research skills and professional development including scientific writing, project management and communication skills. Throughout my time in Swansea, I particularly enjoyed cycling or ambling to Mumbles along the beach, and the quick access among campus, beach and town. I am now holding a statistician post in the Research and Development division in Public Health Wales. I provide advice and leadership on the design and analysis of complex research and evaluation programmes supporting population health. Utilising routinely collected electronic health records and applying mathematical and statistical modelling on big data in health, to help improve understanding of the impact and effectiveness of public health policies and interventions, and eventually save lives."

""
STOCHASTIC PROCESSES: THEORY AND APPLICATION MRes

The MRes in Stochastic Processes is delivered through optional modules for the taught element followed by a large research project that contributes to the field in an explicit way, rather than merely applying existing knowledge.

Topics typically include:
• Mathematical finance
• Lévy processes and more general jump processes
• Stochastic infinite dimensional analysis

MATHEMATICS MSc By Research/MPhil/PhD

We invite applications from well-qualified candidates whose research interests correspond to our areas of research expertise focused around the following research groups.

Algebra, Geometry and Topology Group
Our research explores many aspects of modern theories of geometry and associated algebraic machinery.

Analysis and Nonlinear Partial Differential Equations Group
We are a vibrant group working on an analysis of nonlinear partial differential equations (PDEs) from a range of perspectives.

The programme offers practice and theory in professional, contemporary media, PR and communication skills, taught by academics with industry backgrounds. The programme allows graduates to learn valuable and desirable professional media and communications skills for careers in business, public and media relations, broadcasting, communications, and marketing. It also enables industry professionals to acquire new media skills and qualifications that will enhance their continuing professional development.

Modules typically include:
• The Business and Politics of Digital Media
• The Digital Edge
• The Digital Revolution
• Global Media
• Online Journalism
• PR, Branding and Promotion
• Professional and Promotional Writing
• Video and Documentary Making
• Visual Communication and Media Design

This programme offers practice and theory in professional, contemporary media, PR and communication skills, taught by academics with industry backgrounds. The programme allows graduates to learn valuable and desirable professional media and communications skills for careers in business, public and media relations, broadcasting, communications, and marketing. It also enables industry professionals to acquire new media skills and qualifications that will enhance their continuing professional development.

Modules typically include:
• The Business and Politics of Digital Media
• The Digital Edge
• The Digital Revolution
• Global Media
• Online Journalism
• PR, Branding and Promotion
• Professional and Promotional Writing
• Video and Documentary Making
• Visual Communication and Media Design

The programme offers a wide range of themes including the history, business, politics and development of digital and social media, legal issues, digital war, drones, cyber-hacking, mobile technology practice, digital media design, digital journalism, public relations, branding and promotion and professional writing. You can choose a project which focuses on blogs, social media outputs and a work placement, or a research dissertation. The programme offers a contemporary look at some of the biggest issues facing societies today, drawing upon expertise in Media and Communication.

Modules typically include:
• The Business and Politics of Digital Media
• The Digital Edge
• The Digital Revolution
• Global Media
• Online Journalism
• PR, Branding and Promotion
• Professional and Promotional Writing
• Video and Documentary Making
• Visual Communication and Media Design

From traditional print and broadcast media to film and television, digital publishing, social networking, and public relations, the media increasingly defines the way we interact with our society. It shapes the way we see ourselves and others, and can be a powerful tool for social change, good or bad.

We take a broad research, practical and international outlook that reflects the challenges of our media-rich world. Our staff have particular theoretical expertise in digital media, public relations, journalism and film studies. Teaching in these areas is informed by staff research activity and our long-established strengths in these subject areas. Informed by these theoretical approaches, there is also a prominent practical element (both in teaching and work placements) in journalism, public relations, the digital media landscape and film making.
INTERNATIONAL JOURNALISM MA

The MA in International Journalism provides a cross-cultural approach to journalism in the twenty-first century. It is aimed at those interested in developing their knowledge and understanding of the role of contemporary global society, and exploring how journalism is evolving in the ever-changing communication environment characterised by digital technologies. The course provides students with essential knowledge of how journalism is practiced in different cultures worldwide as well as responding to their interest in comparative study in the field of journalism and communication studies.

Modules typically include:
- Comparative Journalism
- Digital Journalism Portfolio
- The Digital Revolution
- Digital War
- Global Media
- Terrorism, Conflict and the Media
- Video and Documentary Making
- Visual Communication and Media Design

SPORTS COMMUNICATION AND JOURNALISM MA

The MA in Sports Communication and Journalism combines practical and academic study of contemporary professional communication, journalism and public relations in a sports-related context. The programme offers five compulsory modules, one optional module and a dissertation or practice project. The project incorporates media practice and a short work placement to put into practice transferable sports communication skills.

Modules typically include:
- The Business and Politics of Digital Media
- Comparative Journalism
- Digital Journalism Portfolio
- Mobile Technology Practice
- PR, Branding and Promotion
- Promotional and Professional Writing
- Sports Communication – Journalism and Promotion

Media Department online newspaper: swanseamumbler.com

RESEARCH COURSES

Entry Requirements
PhD: Typically a 2:1 honours degree and an MA in a relevant field, or Swansea University recognised equivalent qualification.
MA By Research or MPhil:
A 2:1 honours degree or equivalent
English Language Requirement
IELTS 6.5 (minimum of 6.5 in each component) or Swansea University recognised equivalent qualification

DIGITAL MEDIA MA By Research/ MPhil/PhD

MEDIA STUDIES MA By Research

MEDIA AND COMMUNICATION STUDIES MPhil/PhD

SCREENING/STAGING EUROPE MA By Research

We invite applications from well-qualified candidates whose research interests correspond to our areas of research expertise focused around the following research groupings:
- Media History, Theory, Philosophy and Technology

This group combines research at the nexus between media history, theory, the Philosophy of Technology and technological change, addressing key issues in the emerging global digital world. The group seeks to develop a critical understanding of networked digital media and online social practices and their social, economic and political dynamics in order to inform academic research, wider policy issues and public debates.

The relationships between media technology, cultural form and the shift from ‘atoms to bits’ are addressed through a range of innovative methodological approaches together with a focus on placing these developments within a historical and social context.

Globalisation, Journalism, Media, Politics and Communication

This group brings together expertise in global media, journalism and communication from across the social sciences and humanities. Its particular strengths lie in political communication and the coverage of elections, the analysis of trends and patterns, news outputs ranging from TV and radio to online blogging and social media, economic, business, financial and political issues.

World Cinema

This group brings together substantial expertise in the history, theory and reception of World Cinema and is engaged in a variety of provocative analyses of films, filmmakers, movements and film-watching communities and nations in relation to history, literature, philosophy, new media and politics. The group offers particular expertise in transnational cinema, migrant cinema and Eastern European cinema.

Public Relations and Branding

This group focuses on the impact of branding and public relations on contemporary society and culture, alongside consideration of the impact of digital media on 21st century public relations and branding practice.

Media and Communication also benefits from research groups exploring gender, technology, war, and global journalism, and incorporates work on moral panics and media and identity in small nations, with particular reference to Wales. It is possible to undertake your postgraduate research through the medium of Welsh, there are Welsh medium staff with media expertise within the Faculty.

All research students in Media and Communication belong to the Graduate Centre, providing pastoral as well as administrative support. The Centre is also responsible for research skills training and support, as well as administrative support.

The Centre is also responsible for research skills training and support.

The department is home to the research group Centre on Digital Arts and Humanities (CODAH).
As a leading UK centre for medical research, consistently ranked in the UK's top ten for medicine, research quality and research environment, Swansea University offers outstanding postgraduate opportunities in medical sciences as well as medicine and healthcare.

Whether you are choosing to undertake a postgraduate degree to pursue your interests, enhance your career, or take a new direction, our modular framework allows you to study either full or part-time, online, on campus or blended.

Our students, researchers and partners can draw on the expertise of our international researchers and educators and benefit from state-of-the-art research and teaching facilities, including the multi-million pound Institute of Life Science, Centre for NanoHealth and Data Science Building.

TAUGHT COURSES

Entry Requirements
See individual courses.

English Language Requirement
Typically IELTS 6.5 (minimum of 6.0 in each component) or a Swansea University recognised equivalent unless otherwise stated in individual course details.

BIOMEDICAL SCIENCE (CLINICAL BIOCHEMISTRY) PGDip/MSc
This course explores the theoretical and practical aspects of Clinical Biochemistry within the context of the diagnostic and investigative discipline of Biomedical Science. By instilling both biomedical scientific skills and transferable professional practice attributes, the course will provide strong foundations that could improve employment prospects in healthcare, biomedical science and life science sectors.

Modules typically include:
- Research and Innovation in Biomedical Science
- Introduction to Biomedical Science
- Practice in Health Care
- Professional Practice Development 1 + 2
- Fundamentals of Biomedical Science
- Dissertation – Research

Entry requirements
A minimum of a 2:2 BSc honours degree in a related subject, such as: Chemistry, Clinical Science, Genetics, Human Biology / Physiology, Medical Science. Applications as part of widening access for Higher Education will be considered on a case-by-case basis and applicants will be expected to outline their prior experiential learning over a minimum of 3 years.

BIOMEDICAL SCIENCE (CLINICAL MICROBIOLOGY) MSc/PGDip
This course explores the theoretical and practical aspects of Clinical Microbiology within the context of the diagnostic and investigative discipline of Biomedical Science. By instilling both biomedical scientific skills and transferable professional practice attributes, the course will provide strong foundations that could improve employment prospects in healthcare, biomedical science and life science sectors.

Modules typically include:
- Research and Innovation in Biomedical Science
- Introduction to Biomedical Science Practice in Health Care
- Professional Practice Development 1 + 2
- Fundamentals of Biomedical Science
- Dissertation – Research

Entry requirements
A minimum of a 2:2 BSc honours degree in a related subject, such as: Medical Science, Chemistry, Genetics, Human, Biology / Physiology, Clinical Science. Applications as part of widening access for Higher Education will be considered on a case-by-case basis. Applicants will be expected to outline their prior experiential learning over a minimum of 3 years.

CLINICAL SCIENCE (MEDICAL PHYSICS) MSc
MSc Clinical Science builds on an existing collaboration with the NHS in providing the primary route for attaining the professional title of Clinical Scientist in the field of Medical Physics.

The programme is accredited by the NHS and provides the academic component of the Scientist Training Programme for medical physics trainees. Modules in both the diagnostic and investigative field of Medical Physics contain the Modernising Scientific Careers Framework defined by the UK Department of Health. It offers students the chance to specialise in either radiotherapy physics or radiation safety. This master’s degree is only suitable for trainees sponsored by an NHS or an equivalent health care provider.

Modules typically include:
- Advanced Radiation Safety
- Advanced Radiotheraphy
- Introduction to the practice of Medical Physicists and Clinical Engineers in Health Care
- Medical Imaging
- Nuclear Medicine and Diagnostic Radiology
- Radiation Protection
- Radiotheraphy Physics
- Research Methods
- Specialist Radiation Safety
- Specialist Radiotherapy

Entry requirements
Typically a 2:1 honours in a relevant subject such as: biochemistry, genetics, pharmacology, pharmacy, medical biosciences or nursing.

HEALTH DATA SCIENCE PGCert/PGDip/MSc
If you are working in a healthcare role that involves analysing health data, this programme could accelerate you into one of the fastest growing areas in the UK. This course is designed to develop the essential skills and knowledge you’ll need as a Health Data Scientist. You’ll learn how processing health data to extract valuable information about a population (epidemiological applications) has the potential to improve quality of life on a large scale.

Modules typically include:
- Scientific Computing and Health Care
- Health Data Modelling
- Analysis of Linked Health Data
- Machine Learning in Healthcare
- Health Data Visualisation
- Bioinformatics for Genome Analysis
- Dissertation on a relevant health data science topic

Entry requirements
Candidates with at least three years of relevant employment are welcomed, as well as graduates of a relevant discipline with a 2:2 honours, or an equivalent recognised qualification.

HEALTH INFORMATICS PGCert/PGDip/MSc
Government policies, professional bodies and European strategies have all made explicit reference to the need for healthcare staff with health informatics education and training to keep in line with new developments and the changing nature of new technology.

This programme is designed for healthcare professionals and those who want to increase their knowledge and skills in health informatics, and is accredited by the UK Council for Health Informatics Professions (UKCHIP).

Modules typically include:
- Communications and Coding
- Health Informatics in Context
- Health Informatics Research
- Knowledge Management
- Systems and Technologies
- Using Secondary Health Data

Entry requirements
Candidates with two years of relevant employment are welcomed, as well as graduates of a relevant discipline with a 2:2 honours, or an equivalent recognised qualification.

MEDICAL RADIATION PHYSICS MSc
The MSc in Medical Radiation Physics is designed to give engineering and physical sciences graduates the necessary theoretical
knowledge and understanding of fundamental aspects of the use of radiation in medicine.

You will benefit from clinical practice through hands-on instruction with equipment used routinely in the hospital setting, including state-of-the-art MRI and CT facilities, and medical linear accelerators, which will prepare you for research or clinical training in this rapidly changing field. You will also be taught computer-based modelling, research methodology and the ethical dimensions associated with medical research.

This programme is accredited by the Institute of Physics and Engineering in Medicine (IPhE).

**Modules typically include:**
- Advanced Radiotherapy
- Advanced Radiation Safety
- Introduction to the Practice of Medical Physicists & Clinical Engineers in Health Care
- Medical Imaging
- Nanoscale Simulation
- Nuclear Medicine and Diagnostic Radiology
- Radiotherapy Physics
- Radiation Protection
- Research Methods
- Research Project
- MSc Dissertation - Medical Radiation Physics

**Entry requirements**
Typically a 2.2 honours degree or equivalent in engineering or physical science.

**NANOMEDICINE PGcert/PGdip/MSc**
This innovative programme combines a multidisciplinary approach of nanotechnology and medical science that promises to bring significant advances in the diagnosis, treatment and prevention of disease. Suitable for anyone with a life sciences degree who is targeting industry facing employment in pharma or a research career, you will tackle nano-enabled innovation in molecular medicine, drug development, advanced drug delivery and imaging/diagnostics.

**Modules include:**
- Analytical Techniques for Medical Chemistry and Nanomedicine
- Data Analysis for Health and Medical Sciences
- Diagnostics and Imaging
- Dissertation
- Nanogeno Toxicology
- Nanomedicines, Pharmaceuticals and Advanced Therapeutics
- Regenerative Medicine
- Research Innovation and Management

**Entry requirements**
Typically a 2.2 honours degree or above in a biological science or related subject; Engineering; Physics; Chemistry or an equivalent qualification.

**APPLICATIONS COURSES**

**Entry Requirements**

** PhD/MPhil/MRes/MSc By Research:**
Applicants must hold an initial UK degree or an equivalent qualification and would typically have achieved, or be predicted to achieve a minimum classification of 2:1 or equivalent.

**MD Degree:**
Applicants should typically have a Bachelor of Medicine or Surgery awarded at least three years prior to the submission of the thesis.

**English Language Requirement**
IELTS 6.5 (minimum of 5.5 in each component) or Swansea University-recognised equivalent

**MEDICAL AND HEALTHCARE STUDIES MSc By Research/MPhil/PhD/MRes**
We invite applications from well-qualified candidates whose research interests correspond to the following expert-led research themes:

- Biomarkers and Genes
- Medical Devices
- Microbes and Immunity
- Patient and Population Health and Informatics

You will benefit from strong links with the NHS and we welcome applications from candidates with a clinical research interest in:

- Accidents
- Ageing
- Ambulatory Care
- Burns and Blastics
- Cancer
- Cardiovascular Disease
- Diabetes
- Epilepsy
- Gastroenterology
- Hospital at Home
- Immunology
- Infectious Diseases
- Pre-hospital Care
- Psychiatry
- Rheumatology
- Trauma Surgery

**NANOMEDICINE MRes/DProf**
This programme is aimed at qualified candidates whose research interests correspond to the following expert-led research themes:

- Molecular Nanoscale Materials
- Molecular Nanoscale Devices
- Nanoscale Systems Integration
- Nanoscale Imaging
- Nanoscale Medical Diagnostics

**Entry requirements**
Typically a 2.2 honours degree or equivalent in engineering or physical science.

**NANOMEDICINE MRes**
This programme is aimed at qualified candidates whose research interests correspond to the following expert-led research themes:

- Molecular Nanoscale Materials
- Molecular Nanoscale Devices
- Nanoscale Systems Integration
- Nanoscale Imaging
- Nanoscale Medical Diagnostics

**Entry requirements**
Typically a 2.2 honours degree or equivalent in engineering or physical science.

**APPLIED ANALYTICAL SCIENCE (LCMS) MRes/MPhil/MSc**
World demand for mass spectrometry and chromatography has grown at an unprecedented rate, with qualified graduates in short supply and highly sought after.

The unique combination of industry participation and course content will provide you with a vocationally-relevant qualification with invaluable training and experience sought in the UK and worldwide. The programme is designed in two phases:

**Taught Modules:**
- Data Analysis and Method Development
- Mass Spectrometry – Basics and Fundamentals
- Professional Management of Laboratory Practice
- Separation Science and Sample Handling

**Research:**
- Master’s level research project, focused on your own research interests and existing practice

**RESEARCH IN HEALTH PROFESSIONS EDUCATION MRes/DProf**
These Professional Doctorate research degrees are aimed at generating evidence for the education of Health Professionals. They are suitable for anyone who wishes to undertake rigorous, practice-focused research into the education of health professionals. Trainees are also welcome.

Candidats can enrol for either a short, master’s level programme (MRes) or a long, Doctoral level research degree (DProf) in a programme which combines an initial taught phase with supervised research. The research is normally undertaken in, and on, the student’s workplace.

**Key features include:**
- Full training and support in a broad range of research methods
- Focused, taught analysis of the evidence base for current practice in health professions education

**HEALTH INFORMATICS MRes**
The developing discipline of health informatics is becoming an increasingly important component of health provision in the 21st Century. The MRes in Health Informatics is designed for those with experience in health informatics and who want to make a contribution to the field by helping develop the knowledge base.

The focus is on primary research, with skills developed over two years. The research project may be undertaken within your own place of work.

**Key features include:**
- Focus on primary research
- Research skills developed through three short modules as you develop your own health informatics research project in the first nine months of the course
- The second year comprises supervised completion of a research-based thesis
- The research is supported within an organisation with a strong research reputation and you will have one-to-one supervision at all stages of the research process
- Through partnerships with National Health Service (NHS) bodies in Wales, we are able to offer a range of research opportunities
- Practice-focused learning
At Swansea University, we offer outstanding postgraduate opportunities in medicine and healthcare with courses that build on our long-established links with the NHS in the UK, social services and industry. Our internationally renowned research staff are continually working to tackle the challenges facing the healthcare system while our teaching staff are active in practice and research. Together, they have a wealth of professional experience offering an unrivalled mix of academic excellence and practical expertise.

Our outstanding clinical suites and laboratories prepare our students to become the next generation of healthcare professionals, and graduates who are equipped for the workplace with superb career prospects.

At Swansea University, we offer outstanding postgraduate opportunities in medicine and healthcare and graduates who are equipped for the workplace with superb career prospects. In practice and research. Together, they have a wealth of professional experience offering an unrivalled mix of academic excellence and practical expertise.

Our outstanding clinical suites and laboratories prepare our students to become the next generation of healthcare professionals, and graduates who are equipped for the workplace with superb career prospects.
Optional specialisms typically include:
- Advanced Practice Portfolio
- Advanced Practice in Health Care Practice
- Clinical Assessment and Decision Making in Mental Health Services
- Clinical Assessment and Decision Making in Clinical Transfusion Management
- Principles of Safe Practice in Clinical Transfusion Management
- Values Based Practice and Ethical Decision Making in Mental Health Services

Entry requirements
To apply for this course you need to be a social worker, mental health nurse, psychologist or occupational therapist working in mental health or learning disabilities. You should be registered with a professional body, have at least two years’ post qualifying experience and have relevant experience of working with people with mental disorders. You will need to be employed in one of the 16 Local Authorities in Wales or the related Health Boards. You will be selected and funded by your employer to undertake the statutory role of an ANHP. Either a bachelor or master’s degree is required, or in exceptional circumstances, where this academic requirement is not met, you must demonstrate how your experience and qualifications equip you to undertake postgraduate study. This can be evidenced by, for example, a relevant post-qualifying award. If you do not hold a degree you may be required to attend an interview.

Please note: This programme is not open to international applicants.

COMMUNITY AND PRIMARY HEALTHCARE PRACTICE PGCert

This flexible postgraduate distance learning programme has been designed for health care professionals with a special interest in diabetes. Its aim is to provide fundamental knowledge and skills and experience to bridge the current knowledge gap in diabetes care and meet the health and care needs of people with diabetes, including the support of effective self-care management.

The programme benefits from the option of a work-based portfolio in place of a dissertation. This is a unique opportunity for Health Care Professionals to review, appraise and evaluate the application of their new knowledge within their own clinical work environment. There is also a residential module each year, which features practical skills workshops and expert speaker symposiums.

Entry requirements
To apply for this course you must be registered with the GMC on part 1 of the register and have a BSc/BA/BN (Hons) degree or equivalent. You must provide evidence of post-registration experience within the specialised area of practice and confirmation of any recent study (e.g. continuing professional development module, preferably within the last 5 years). You may be required to undergo an up-to-date enhanced DBS disclosure and provide copies of academic qualifications and any other documents required by the admissions department, for verification during the selection process. If you are considering transferring any prior learning, a full transcript of the module outline is required at interview.

Core modules typically include:
- Continuation of Your Professional Development in Community and Primary Health Care Practice
- Decision
- Foundations in Research
- Your Teaching
- Mentoring and Supervision
- Researching Educational Practice
- Teaching and Learning for the Health Professions’ Educators
- Evidence and Theory
- Based Education
- Leadership in Practice
- Teaching and Learning in Practice

Modules typically include:
- Diabetes Basics
- Diabetes Complications
- Diabetes Events
- Diabetes Management
- Diabetes Situations
- Disseminating Work-based Portfolio

Entry requirements
Typically a 2:1 honours degree in a relevant subject, preferably with clinical experience.
Entry requirements
You will need an appropriate degree or its equivalent from an approved institution (preferably 2:2 or above) and evidence of recent academic study of a professional qualification, with a minimum of 2 years’ relevant work experience and responsibilities. You must be currently registered as a healthcare professional to apply. Applications are screened for standard documentation and then referred to the programme director for review.

Please note: This programme is not open to international applicants.

ENHANCED PROFESSIONAL MIDWIFERY PGCert/PGDip/MSc
This work-based programme will enhance your midwifery knowledge, clinical reasoning, and decision-making skills. The course is a highly flexible and modular programme led by your learning and professional development objectives as both a student and a busy midwife. You will cover key policy and practice related topics and refine your critical research and analytical skills in relation to midwifery.

With the support of an academic mentor you will also develop professional reflective practice techniques.

Core modules typically include:
• Professional Midwifery Practice Portfolio
• Starting your Professional Development

Optional specialist modules typically include:
• Advancing your Own Practice
• Clinical Supervision
• Developing Expertise in the Supervision of Midwives
• Developing Expertise in the Supervision of Midwives (CPD)
• How Can I Make a Change in Practice?
• Leadership and Professional Studies in Midwifery
• Policy Influences on your Practice

Entry requirements
This course is aimed at graduate midwives who are NMC registered. Requirements regarding clinical experience will be individual; however, most midwives would be expected to consolidate their practice as a newly qualified midwife before seeking further education opportunities. Admission to study, for most applicants, will be based on agreement from your employer in relation to funding or study leave but we will also consider you if you choose to self-fund and undertake studies in your own time.

Please note: This programme is not open to international applicants.

ENHANCED PROFESSIONAL PRACTICE PGCert/PGDip/MSc
If you are a health and social care practitioner undertaking work-based learning, this programme is an excellent way for you to gain formal academic credit for your professional development. The course is a highly flexible and modular programme led by your needs as a student and as a busy professional. You will cover key policy and practice related topics and refine critical research and analytical skills in relation to health and social care. With the support of an academic mentor, you will also develop professional reflective practice techniques.

Optional specialist modules typically include:
• Advancing your Own Practice
• Assessing your Current Practice
• How the Evidence Base Can Help you Change your Practice
• How Can I Make a Change in Practice?
• Management and Leadership in Health Care Practice (WBL)
• Policy Influences on your Practice
• Teaching and Learning in Practice

Entry requirements
You should have an appropriate degree or its equivalent from an approved institution (preferably 2:2 or above) and evidence of recent academic study in a professional qualification.
MEDICINE AND HEALTHCARE

• Quality Improvement

Core modules typically include:

• Foundations in Research
• Quality Improvement
• Management and Leadership
• Evidence Based Practice Project

Entry Requirements

Applicants must have current registration with a relevant Professional Body e.g. NMC, HCPC or GPhC and 3 years current clinical experience and a minimum of 21 hours degree.

Students without an undergraduate degree must demonstrate achievement of 120 credits at level 6. Matriculation will be considered for mature students with evidence of recent successful academic study. Students must be working in healthcare environments that will support the translation of theoretical learning into practice.

LONG TERM AND CHRONIC CONDITIONS MANAGEMENT

MSc

This programme will equip you with the knowledge and experience to understand the needs of people living with and affected by long-term and chronic conditions and to design and manage health and care services accordingly. Your studies will take a multi-disciplinary approach with collaboration encouraged across the various professions involved in long-term and chronic condition management.

Core modules typically include:

• Dissertation
• Foundations in Health Promotion
• Foundations in Research
• Health Psychology of Long Term and Chronic Illness
• Social Aspects of Long Term and Chronic Illness
• Theory and Practice of Long Term and Chronic Condition Management

Specialist optional modules include:

• Applied Anatomy and Pathophysiology for Long Term Chronic Conditions Management
• Chronic Condition Management: Diabetes
• Chronic or Persistent Pain Management
• The Management of Parkinson’s Disease-Related Conditions

Entry requirements

Typically a 2:2 honours degree or equivalent. Applicants should also provide a CV and personal statement to demonstrate intention of future education and research, management or leadership in Medical Education.

MEDICAL EDUCATION PGCert/
PGDip/MSc

This multidisciplinary programme is suited to those currently working, or working towards, a role in Medical Education, including educators, doctors, nurses and Allied Health Professionals. Designed to reflect the diversity of roles within Medical Education, the course will link educational theory to its application in medicine, exploring a range of topics from practical teaching skills to innovations and digital medical education.

MSc Medical Education is aligned to the UK Professional Standards Framework (UKPSF 2011) for Higher Education and the Academy of Medical Education, both recognised frameworks for excellent teaching and learning in the field and the GMC recognition of trainers framework.

Modules typically include:

• Evidence Based-Education
• Teaching, Learning and Assessment
• Research Methods in Education
• Mentoring and Supervision
• Foundations of Public Health
• Foundations of Social Care
• Teaching, Learning and Assessment
• Research Methods in Education
• Mentoring and Supervision
• Foundations of Public Health
• Foundations of Social Care
• Evidence Based-Education
• Teaching, Learning and Assessment
• Research Methods in Education
• Mentoring and Supervision

Entry requirements

You can apply for this course if you:

• Have a prescribing budget in place
• Meet specific entry requirements set by the General Pharmaceutical Council (GPhC), this programme is accredited by the General Pharmaceutical Council (GPhC). It will provide you with the knowledge and skills you need to prescribe safely and appropriately within your area of practice.

Core modules typically include:

• Non-Medical Prescribing (GPhC)
• Pharmacology Principles and Practice

Entry requirements

You can apply for this course if you:

• Have a prescribing budget in place
• Meet specific entry requirements set by the General Pharmaceutical Council (GPhC)

Pharmacists applying to undertake an independent prescribing programme must be registered with the General Pharmaceutical Council or the Pharmaceutical Society of Northern Ireland and have at least 2 years’ appropriate patient-orientated experience in a UK hospital, community or primary care setting following their pre-registration year.

NON-MEDICAL PRESCRIBING FOR
ALLIED HEALTH PROFESSIONALS

PGCert

Accredited by the Health and Care Professions Council (HCPC), this programme will equip you with the competency to practise within current legislation as an independent or supplementary non-medical prescriber. It will provide you with the knowledge and skills you need to prescribe safely and appropriately within your area of practice.

Core modules typically include:

• Clinical Assessment and Decision Making
• Pharmacology Principles and Practice

Entry requirements

You can apply for this course if you:

• Have a prescribing budget in place
• Meet specific entry requirements set by the Health and Care Professions Council (HCPC)

Pharmacists applying to undertake an independent prescribing programme must be registered with the General Pharmaceutical Council or the Pharmaceutical Society of Northern Ireland and have at least 2 years’ appropriate patient-orientated experience in a UK hospital, community or primary care setting following their pre-registration year.
NURSING PRACTICE PG Dip/MSc

The MSc Nursing Practice is aimed at qualified and registered nurses who wish to undertake continuing professional development, progress to higher-level studies and gain a postgraduate qualification. This flexible programme has a student-centred approach and students will have access to a wide range of CPD modules which will enable them to build their qualification around their professional needs, personal interests and career aspirations. The programme will build on students’ current knowledge, experience and skills, enabling them to identify and implement improved ways of working that will have a positive impact on patient care.

Core modules typically include:

- Clinical Assessment and Decision Making
- Evidence-based Medical Prescribing (NMC)
- Pharmacology Principles and Practice (NMC)

Entry requirements
You can apply for this course if:
- You are a registered nurse (Level 1), a registered midwife or a SCPhN
- Your practice area has the necessary governance structures in place (including clinical support, access to protected learning time and employer support where appropriate) to enable you to undertake, and be adequately supported throughout the programme
- You are capable of safe and effective practice at a level of proficiency appropriate to the programme. Your intended area of prescribing practice should be in clinical health assessment/diagnostics/care management or planning and evaluation of care
- Demonstrate the ability to study at academic Level 7

Applicants for V300 supplementary/independent prescribing programmes must have been registered with the NMC for a minimum of 5 years prior to application for entry onto the programme.

NURSING PRE-REGISTRATION (ADULT) MSc

Designed for non-registered healthcare practitioners, this two-year programme will give you the skills and experience to launch a rewarding career in this essential profession. You will learn about the holistic needs of people from early adulthood until old age and develop the professional skills to provide high quality nursing care in a range of clinical and community settings. As you progress, you will develop the skills to assess, plan, deliver, and evaluate evidence-based care to promote the health and wellbeing of adults with acute and chronic conditions.

Core modules typically include:

- Core of the Person with Complex Needs
- Dissertation
- The Essentials of Nursing
- Evidence-Based Practice and Nursing Research
- Leadership, Management and Decision Making in Service Evaluation and Improvement
- Promoting Health and Preventing Illness

Entry requirements
This MSc course is pre-registration only. It is not suitable for registered nurses. This programme is open to graduates with a 2:2 honours degree or above and a GCSE grade C or above in Mathematics and English/Welsh. You will be required to demonstrate the achievement of 750 hours of relevant clinical practice, working in health related environments, such as care homes, hospitals, community or homecare.

Any offer made is conditional, subject to evidence of recent study (within the last 5 years), satisfactory academic and character references, a Disclosure and Barring Service (DBS) check, or an approved equivalent and occupational health clearance.

NURSING PRE-REGISTRATION (CHILD) MSc

Designed for non-registered healthcare practitioners, this two-year programme will give you the skills and experience to launch a rewarding career in this essential profession. You will learn about the health and wellbeing needs of children, young people, and their families. As you progress, you will develop the professional skills to provide high quality, evidence-based nursing care and health protection measures in a range of clinical and community settings, often working as part of a multi-disciplinary team across the health and social care sectors.

Core modules typically include:

- Acute and Unscheduled Nursing Care
- Care of the Child and Young Person with Complex Needs
- Dissertation
- The Essentials of Nursing
- Evidence-Based Practice and Nursing Research
- Leadership, Management and Decision Making in Service Evaluation and Improvement
- Promoting Health and Preventing Illness

Entry requirements
This MSc course is pre-registration only. It is not suitable for registered nurses. This programme is open to graduates with a 2:2 honours degree or above and a GCSE grade C or above in Mathematics and English/Welsh. You will be required to demonstrate the achievement of 750 hours of relevant clinical practice, working in health related environments, such as care homes, hospitals, community or homecare.

Any offer made is conditional, subject to evidence of recent study (within the last 5 years), satisfactory academic and character references, a Disclosure and Barring Service (DBS) check, or an approved equivalent and occupational health clearance.

NURSING PRE-REGISTRATION (MENTAL HEALTH) MSc

Designed for non-registered healthcare practitioners, this two-year programme will give you the skills and experience to launch a rewarding career in this essential profession. You will learn about the holistic needs of people from early adulthood until old age and develop the professional skills to provide high quality, evidence-based nursing care for improving mental health and wellbeing. During the course you will improve the care and treatment of people using mental health services, their carers and their families. As you progress, you will develop keen interpersonal and communication skills to prepare you for working as part of a team that includes psychiatrists, psychologists, social workers, community workers and occupational therapists.

Core modules typically include:

- Acute and Unscheduled Nursing Care
- Core of the Person with Complex Mental Health Needs
- Dissertation
- The Essentials of Nursing
- Evidence-Based Practice and Nursing Research
- Leadership, Management and Decision Making in Service Evaluation and Improvement
- Promoting Health and Preventing Illness

Entry requirements
This MSc course is pre-registration only. It is not suitable for registered nurses. This programme is open to graduates with a 2:2 honours degree or above and a GCSE grade C or above in Mathematics and English/Welsh. You will be required to demonstrate the achievement of 750 hours of relevant clinical practice, working in health related environments, such as care homes, hospitals, community or homecare.

Any offer made is conditional, subject to evidence of recent study (within the last 5 years), satisfactory academic and character references, a Disclosure and Barring Service (DBS) check, or an approved equivalent and occupational health clearance.

PUBLIC HEALTH AND HEALTH PROMOTION PG Dip/MSc

This programme will enable you to gain the knowledge and insight necessary to achieve change and influence health policy at all levels. You will study the historical background, current developments, and potential future directions of public health and health promotion, alongside key theoretical and philosophical perspectives. Your research and analytical skills will be honed as you assess the evidence base for public health interventions, while an observation placement will give you valuable experience in real-life application of health promotion theory. The course is mapped to the National Occupational Standards and Public Health Career Framework. On successful completion, you will be eligible to apply for registered practitioner and/or specialist status with the UK Public Health Register.

Core modules typically include:

- Dissertation
- Foundations in Health Promotion
- Foundations in Research
- Health Protection
- Management and Leadership for Public Health Practice
- Nutrition for Public Health Improvement
- Public Health Ethics
- Public Health Evidence and Epidemiology
- Public Health Practice

Entry requirements
You should hold a relevant degree at 2:1 or above. Alternatively you should have an equivalent recognised qualification and/or 2 years of relevant employment, with evidence of educational/professional achievements.
ENTRY REQUIREMENTS FOR ALL SPECIALIST COMMUNITY PUBLIC HEALTH NURSING PROGRAMMES:

To apply for these programmes you will need:
- To be an NMC registered nurse or midwife
- Successful completion of a UK honours degree
- Evidence of recent academic study
- An enhanced current DBS disclosure
- An appropriate Health Board host organisation and the availability of a suitable practice placement that has a current educational audit and the support of a Practice Teacher that meets the NMC requirements
- To have negotiated a secondment
- Secured funding (HEW funded places only apply to nurses or midwives working for the NHS in Wales). Nurses/midwives working outside the NHS or outside Wales must provide evidence of funding on application

SPECIALIST COMMUNITY PUBLIC HEALTH NURSING (HEALTH VISITING) WITH INTEGRATED V100 PGDip/MSc

This programme will develop Specialist Community Public Health Nursing practitioners to work autonomously in a range of public health community settings. The course will prepare you for work in complex and varied settings including homes, schools and the wider community. You will become a knowledgeable practitioner with excellent managerial and interpersonal capabilities. Successful completion of this programme will lead to a professional award in Specialist Community Public Health Nursing practice in Health Visiting and will enable registration on the SCPHN part of the Nursing and Midwifery Council (NMC) register.

Modular typically include:
- Dissertation in SCPHN practice
- Facilitating the Health and Well-Being of Children, Young People and Families
- Professional Development of Specialist Community Public Health Nursing (SCPHN) Practice
- Promoting the Public Health of Populations
- Promoting Emotional Well-Being of Children and Young People

This programme will develop Specialist Community Public Health Nursing practitioners to work autonomously in a range of public health community settings. The course will prepare you for work in complex and varied settings including homes, schools and the wider community. You will become a knowledgeable practitioner with excellent managerial and interpersonal capabilities. Successful completion of this programme will enable you to gain the recordable qualification of Specialist Community Public Health Nursing practice and will enable you to register on the SCPHN part of the Nursing and Midwifery Council (NMC) register.

Modular typically include:
- Dissertation in SCPHN practice
- Facilitating the Health and Well-Being of Children, Young People and Families
- Nurse Prescribing for Specialist Community Public Health Nursing (V100 Community Formulary)
- Professional Development of Specialist Community Public Health Nursing (SCPHN) Practice
- Promoting the Public Health of Populations
- Promoting Emotional Well-Being of Children and Young People

Research and Development in Specialist Community Public Health Nursing (SCPHN) Practice

Safeguarding in Specialist Community Public Health Nursing (SCPHN) Practice

SPECIALIST COMMUNITY PUBLIC HEALTH NURSING (SCHOOL NURSING) WITH INTEGRATED V100 PGDip/MSc

This programme will develop Specialist Community Public Health Nursing practitioners to work autonomously in a range of public health community settings. The course will prepare you for work in complex and varied settings including homes, schools and the wider community. You will become a knowledgeable practitioner with excellent managerial and interpersonal capabilities. Successful completion of this programme will enable you to gain the recordable qualification of Specialist Community Public Health Nursing (SCPHN) Practice and will enable you to register on the SCPHN part of the Nursing and Midwifery Council (NMC) register.

Modular typically include:
- Dissertation in SCPHN practice
- Facilitating the Health and Well-Being of Children, Young People and Families
- Nurse Prescribing for Specialist Community Public Health Nursing (V100 Community Formulary)
- Professional Development of Specialist Community Public Health Nursing (SCPHN) Practice
- Promoting the Public Health of Populations
- Promoting Emotional Well-Being of Children and Young People

Research and Development in Specialist Community Public Health Nursing (SCPHN) Practice

Safeguarding in Specialist Community Public Health Nursing (SCPHN) Practice

SPECIALIST COMMUNITY PUBLIC HEALTH NURSING (SCHOOL NURSING) PGImp/MSc

This programme will develop Specialist Community Public Health Nursing practitioners to work autonomously in a range of public health community settings. The course will prepare you for work in complex and varied settings including homes, schools and the wider community. You will become a knowledgeable practitioner with excellent managerial and interpersonal capabilities. Successful completion of this programme will enable you to gain the recordable qualification of Specialist Community Public Health Nursing (SCPHN) Practice and will enable you to register on the SCPHN part of the Nursing and Midwifery Council (NMC) register.

Safeguarding in Specialist Community Public Health Nursing (SCPHN) Practice

RESEARCH COURSES

Entry requirements

MPhil: Applicants would normally have a honours degree (2:1 or above) in a discipline related to the chosen specialty, or a relevant, approved postgraduate qualification.
PhD: Applicants would normally have a first class undergraduate degree in a relevant discipline, or a 2.1 and/or a master's degree in a relevant discipline.

MSc by Research: Applicants should have a first or a 2:1 (or equivalent) in an undergraduate degree from a UK or other approved university.

Dependending on the research project, some offers are conditional upon a successful Disclosure and Barring Service (DBS) check or international Police Check equivalent.

English Language Requirement

IELTS 6.5 (minimum of 6.5 in each component) or Swansea University recognised equivalent.

HEALTHCARE MANAGEMENT MPhil/PhD

This programme will give you the opportunity to pursue your particular personal or professional interest in the leadership and improvement of health services, how they provide treatment for people with physical and mental illnesses, and how they can contribute to health improvement through targeted interventions. Recent student research projects include research into patient and public involvement, data security in information systems, and improved methods for evaluating large capital expenditures in health care.

HEALTH ECONOMICS MSc by Research/ MPhil/PhD

Health Economics is at the core of innovation, health technology assessment, prioritisation and programme budgeting within the UK NHS and worldwide. Studying Health Economics at the Swansea Centre for Health Economics (SCHÉ) offers an outstanding opportunity to make an original contribution to the development and application of health economics and outcomes research to real life issues in healthcare delivery and policy. You will develop skills in core health economic methods and analysis to design and deliver your own research project, supported by a tailor-made programme of supervision and training. This can include developing knowledge and skills in aspects of the use of econometrics, quantitative research and routine data analysis as well as applying health economic analysis as part of health technology assessment, public health and evaluation of health and social care interventions and services. We also offer particular expertise in the area of prioritisation and in the design, use and interpretation of patient reported outcomes.

HEALTH POLICY MPhil/PhD

The application of the concepts and methods of history, literature and the visual arts to the analysis of health and healthcare. Disability history is a particular area of expertise, with an oral history of people affected by the drug, Thalidomide, currently underway. Recent student research projects include research into narratives of childbirth to images of disability in the post-war English language literature of Wales.

EXPLORING THE DECISION-MAKING PROCESSES WITHIN HEALTH SERVICES IN THE UK AND ABROAD

Exploring the decision-making processes within health services in the UK and abroad, our research work supports policy changes that improve outcomes both for patients and healthcare practitioners. We have specific expertise in finance and service contracting, policy implementation studies, quality assurance and financial evaluation.
systems and public involvement. Recent research projects carried out by our students include purchaser provider reforms, national health insurance system design, the UK private medical insurance sector, and public and patient involvement.

HEALTH PSYCHOLOGY MPhil/PhD

The importance of psychological factors in promoting good health and managing illness and health risks is an increasingly important field of study. Research students are currently examining the psychological factors in promoting good health, and developing interventions to encourage children, young people, and pregnant women to engage in healthy lifestyle behaviours.

HEALTH SCIENCE MPhil/PhD

Designing and carrying out the basic and clinical research that provides the evidence base for health policy and practice, our researchers are actively contributing to improvements in services for patients and practitioners alike. Currently students are exploring the anti-fungal properties of maggot secretions and the physiological effects of a cardiac rehabilitation programme on myocardial infarction patients in Kuwait.

HEALTH AND WELLBEING MSc: By Research

The UK’s health and social care systems continue to provide high-quality care. However, it is crucial that we explore new technologies and ways of working to ensure the standards of care that we’ve come to expect are maintained. This course gives you the opportunity to pursue your own personal or professional research interests in this wide-ranging field, which encompasses such diverse policy areas as health, education, housing, disability, crime, poverty, and the family. It offers an outstanding opportunity to make an original contribution to the development and application of outcome research into real-life issues in healthcare delivery and policy.

MENTAL HEALTH MPhil/PhD

Developing and evaluating effective evidence-based mental health services to support people at some of the most challenging times of their lives depends on high quality research. Studying for a MPhil/PhD in Mental Health will give you the opportunity to pursue your own personal or professional research interests in this vital field, while contributing to new ways of thinking about mental health care, services, and policy. Currently students are looking at evidence-based practices in mental health (in particular early intervention services), care co-ordination in forensic mental health care and the influence of service user participation in professional role development.

NURSING MPhil/PhD

With a clear focus on translating academic theory into positive practical outcomes for practitioners, patients, and carers, our cutting-edge nursing research addresses an extensive range of issues from professional working and patient care, to the development of new treatments and interventions. Our students are currently researching topics including the emotional experiences of children’s nurses while caring for life-limiting conditions, and nursing students’ care towards obese patients.

PUBLIC HEALTH MPhil/PhD

By providing an evidence base through empirical investigation, audit, and evaluation, our research actively contributes to improvements at all levels in public health policy and practice. Recent research projects carried out by our students include the impact of a structured education package on nurses’ knowledge and practice in Hepatitis B and Hepatitis C in Saudi Arabia, and health visitors, understanding of the principle influencing policies affecting health; contributing to new ways of thinking about mental health care, services, and policy. Currently students are looking at evidence-based practices in mental health (in particular early intervention services), care co-ordination in forensic mental health care and the influence of service user participation in professional role development.

For more detailed course content, including a full module list, visit: swansea.ac.uk/postgraduate/taught-courses
**modern language, translation and interpreting**

**Translation and Interpreting MA (Extended, with Université Grenoble Alpes)**

The Translation and Interpreting, MA (Extended) is offered through a unique partnership with the prestigious Translation schools of Swansea University and Université Grenoble Alpes (UGA). France. This is a two year full time taught programme delivered at Swansea University (year one) and Université Grenoble Alpes (year two), building your translation networks in both countries. The Double MA is open to outstanding linguists, whether your qualifications are languages-related or in other subject areas in which you plan to develop a translation specialism. On successful completion, students graduate with the master’s degrees of both Universities. In addition to English and French, you may also choose to pursue translation with either German or Spanish, in combination with English in Year 1 and French in Year 2.

**Year 1, Swansea University**

Compulsory modules:
- Advanced Translation work in French and English (optionally also German or Spanish and English)
- Foundations module - covers translation and interpreting theory and provides an up-to-date overview of the language services industry and its professional roles.

Optional modules:
- Public service interpreting
- Audiovisual translation
- Translation technologies (including software localisation tools)
- Terminology management
- Simulated Translation Bureau module

Year 2, Grenoble

UGA’s specialisms are Technical, Legal and Business translation and terminology, supported by seminars on Science and Law.

Other highlights include:
- 3-day collaborative Translation Project (December);
- Atlas student-run translation company, performing real translation work for NGOs, charities, and other clients;
- Partnership on terminology with the UN’s World Intellectual Property Organisation (WIPO), Geneva;
- Compulsory research project that may include translating patent terminology;
- 3-6 month part-time work placement (from April), assessed at UGA by an internship report and oral exam (in French or English).

**Translation and Interpreting MA (MATI)**

This programme builds on the Professional Translation MA with an additional emphasis on Public Service Interpreting and Conference Interpreting. Like its sister programme, it is available in both Standard (180 credits, 90 ECTS) and Extended (240 credits, 120 ECTS) versions – see above. It is designed to provide students with a qualification which validates a wide range of professional skills, and allows them to respond flexibly to the changing challenges of the language services market. In the first two semesters, students take one or more practical modules on interpreting in Health Care, or Police and Court settings (not all options are available every year). Also available are modules on Consecutive Conference Interpreting and Simultaneous Conference Interpreting (not available in every language combination every year). All these modules are taught by a dedicated team including practitioners and academics.

**Part 2 of the Standard programme may consist of either a Dissertation, or two Extended Translations, or a 12-week Internship, in the UK or abroad which we will help you to organise with our extensive range of industry contacts (tests and interviews apply). The second half of the Extended programmes can be built flexibly from a combination of additional taught modules (at Swansea or abroad), and/or one or two of the Part 2 options from the Standard programmes. The 4-semester version offers a compulsory opportunity to study for one semester each at two partner institutions abroad belonging to the prestigious METS Consortium, leading to the award of a METS graduate with the skills and experience to become immediately productive in a modern professional environment. In addition to practical translation and terminology work in one or two language pairs, in the first two semesters students take a compulsory module in Foundations of Translation and Interpreting, which offers an introduction to relevant areas of linguistics and translation theory, presentations by professionals of key aspects of the language services industry, and practice in methods for researching specialised domain knowledge and terminology. The other compulsory modules include Advanced Translation and Translation Tools. The latter includes a multilingual translation project using SDL Trados Studio, Memsource, and other software, and offers the opportunity to take Trados certification tests at all levels without charge.

A range of other taught options are available, including the Translation Work Experience module, where students set up and run their own (simulated) translation agency.

**Professional Translation MA (MAPT)**

By combining advanced translation work in administrative and technical domains with in-depth computer-assisted translation technology training, this practical master’s programme provides

**Entry Requirements**

- Typically a minimum 2:1 honours degree or Swansea University recognised equivalent qualification in modern languages, translation, interpreting or a related subject.
- For PhD entry, applicants must normally hold an undergraduate degree at 2:1 level and a master’s degree (or Swansea University recognised equivalent qualification).

**English Language Requirement**

IELTS 6.5 (minimum of 6.5 in each component) or Swansea University recognised equivalent.

**Staff specialisms encompass a wide range of periods and themes concerning France and the French-speaking world.**

**Areas of expertise include:**
- The Egyptian Islamic Group
- Islamists and the State
- Modern and classical Arabic
text discourse analysis
- Policing Arab and Islamist communities in the UK and Egypt
- Populist and Islamic movements in the Arab world
- Pragmatics and context in interpretation of Arabic
- Qur’anic text and discourse Analysis

**LATIN AMERICAN STUDIES MA**

By Research

**LITERARY TRANSLATION MA**

By Research

**MODERN LANGUAGES MA**

By Research/PD/PhD/MPhil

**TRANSLATION MPHIL/PHD**

**ARABIC**

**FRENCH**

**Staff specialisms encompass a wide range of periods and themes concerning France and the French-speaking world.**

**Areas of expertise include:**
- Contemporary Poetry and the Visual Arts
- Dada and Surrealism
- Francophone literatures and Migrant Cultures

**RESEARCH COURSES**

**Entry Requirements**

Typically a minimum 2:1 honours degree or Swansea University recognised equivalent qualification in modern languages, translation, interpreting or a related subject.

For PhD entry, applicants must normally hold an undergraduate degree at 2:1 level and a master’s degree (or Swansea University recognised equivalent qualification).

**English Language Requirement**

IELTS 6.5 (minimum of 6.5 in each component) or Swansea University recognised equivalent.
MODERN LANGUAGES, TRANSLATION AND INTERPRETING

GERMAN
Much of our activity in German is concentrated in the Centre for Contemporary German Culture which has produced more than a dozen PhDs since its foundation in 1993. Recent and current topics are: Affective Affinities: Memory, Empathy and the Weight of History in the Work of Herta Müller; ‘Intercultural Encounters in the Writings of Michael Roes’ (now published in the Bithell Series of Dissertations); Ambiguous Heroes: Nazism in Hollywood and German Re-visioning the Holocaust and German Writing from Eastern and Historical Traditions in the Study of Wales an interdisciplinary community which brings together researchers in Modern Languages, Translation and Interpreting to which researchers in Modern Languages, Translation and Interpreting contribute include:

• Linguistics and current research topics include: ‘Female Role-Play in Drama’ and ‘English Translations of Don Quixote’.

SPANISH – LATIN AMERICA
Research in this area is conducted through the Centre for the Comparative Study of Portugal, Spain and the Americas (CEPSAM) in collaboration with staff and research students in American Studies. The Centre is the leading research organisation in its field in Wales. It has recently obtained a Regional Seminar Series Grant from the Institute for the Study of the Americas (University of London) which has brought together Wales-based Latin Americans to work on a project entitled ‘Memory, Place and Space in Latin America’. CEPSAM members also participated in the Green Humanities Conference 2019, and are currently venturing into multidisciplinary ecocriticism and related areas.

Areas of special interest include: Afro-Latin American Studies; Contemporary Spanish-American Film; Spanish-American Nation Building; Twentieth-century Argentine Literature and Culture; Twentieth-century Colombian Literature and Culture; Twentieth-century Cuban Literature and Culture; Twentieth-century Pros and Poetry; Welsh Patagonia; Wilderness and Eco-Literature; Women’s Writing and Feminist Theory; Twentieth-century Uruguayan Literature; Current and recent PhD topics: ‘Welsh Travellers to Latin America’; ‘Rosas and Perón in the Contemporary Argentine Novel’; and ‘Insularity, translation and genre, the case of two Caribbean writers, Hazel Robinson and Edwidge Danticat’. Research supervision is also available through the medium of Welsh. Our students have received funding from the Arts and Humanities Research Council, the Maney Fund, the Pantyfedwen Trust and SUSPRS, the Swansea University Strategic Partner Research Excellence Scholarships. Translation and Interpreting Staff research interests in Translation and Interpreting cover a range of themes, including: Audiovisual Translation; Comparative Translation Studies; Computer-Assisted Literary Translation (CALT); Computer-based Lexicography and Terminography; Corpus-based Translation Analysis; History of Translation; Literary Translation; Theatre Translation/Adaptation; Translation and the Lexicon; Translation and Social Discourse; Translation Processes: Psycholinguistics of Translation, Translation Workflows; Translation Theory (including Non-Western); Translation Tools and Technologies; Translation Visualisation.

The department benefits from extensive library holdings in print and online form. All postgraduate students have access to two computer-based language laboratories, and advanced Translation computing labs, housing the latest digitisation, and online form. All postgraduate students have access to two computer-based language laboratories, and advanced Translation computing labs, housing the latest digitisation, language data and processes. All postgraduate students have access to two computer-based language laboratories, and advanced Translation computing labs, housing the latest digitisation, language data and processes.

We have a wide range of other research groups, which provide a focus for specialist projects, postgraduate research, grant applications, seminar series, and contact with external partners. Those to which researchers in Modern Languages, Translation and Interpreting contribute include:

• CGGC: Centre for Contemporary German Culture
• CEPSAM: Centre for the Comparative Study of Portugal, Spain and the Americas
• GENCAS: the Centre for Research into Gender in Culture and Society
• MEMO: the Centre for Medieval and Early Modern Research

ARG: ARG is our Arabic PGR student community which brings together all Arabic PGR students in the faculty and interested individuals from across the university and the community. The group, led by Arabic MPhil PGR students, organises social and research activities including research seminars, annual Arabic PGR conference, social events and community relations.

QIT: QIT is a scholarly research group bringing together scholars from across the world to promote and enhance the study of the language of the Qur’an as a text. Research activities include conferences, academic publications, and an online academic journal.

THEORETICAL PHYSICS MSc

EXPERIMENTAL PHYSICS MSc

APPLIED PHYSICS AND MATERIALS MSc

SCHOLARSHIPS AND BURSARIES

We offer a range of funding opportunities for both taught and research degrees. Recently we have attracted funding from organisations such as the Engineering and Physical Sciences Research Council (EPSRC), the Science and Technology Facilities Council (STFC) and the Royal Society. More than 80% of our physics research outputs were judged to be world-leading or internationally excellent in the latest (2014) Research Excellence Framework (REF). Our state-of-the-art facilities include: a low-energy positron beam with dedicated instrumentation for the study of positronium; continuous-wave and pulsed laser systems, and scanning tunnelling; scanning field optical and Raman microscopes. We provide high-performance computing resources via clusters and dedicated supercomputers.

The new Sêr SAM programme funded by the Welsh Government and European Regional Development Fund focuses on the physics of advanced materials with low embodied energy for applications in optoelectronics and bioelectronics. Areas of expertise are next generation semiconductors, hybrid conducting electronic-ionic devices, optoelectronics including photodetection, solar energy conversion, advanced electro-optics and transport physics of disordered solids.

The Particle Physics and Cosmology Theory (PPCT) Group is one of the five largest particle physics groups in the UK. It is supported mainly by STFC, but also has grants from EPSRC, the EU, the Royal Society and the Leverhulme Trust. The areas of research include:

- Amplitudes in gauge and supergravity theories
- Gauge/string duality, Higher spin holohraphy, Integrability, Large-N gauge theories, supersymmetry and duality
- Holography and lattice theories in physics beyond the Standard Model
- Hot and Dense matter, high-performance computing
- Quantum fields in curved spacetime and theoretical cosmology
- Holography and lattice theories in physics beyond the Standard Model
- Hot and Dense matter, high-performance computing
- Quantum fields in curved spacetime and theoretical cosmology

Further information on our research can be found on our website: swansea.ac.uk/postgraduate/scholarships

RESEARCH COURSES

Entry Requirements

Typically a 2:1 honours degree or a master’s degree with ‘Merit’ in physics or related subject.

English Language Requirement

IELTS 6.5 (minimum of 6.0 in each component) or Swansea University recognised equivalent.

Sustainable Advanced Materials: next generation semiconductors, bioelectronic materials and devices, optoelectronics including photodetection, solar energy conversion, advanced electro-optics and transport physics of disordered solids.

The focus of my research is to understand a novel biocompatible protein-based material, called Ubx, which can be used in implanted devices for tissue regeneration. In other words, this material can be used to regenerate damaged tissues, such as the heart following a heart attack.

Amazingly, some years ago, my scientific mentor discovered this protein by accident: material formed when a column wasn’t cleaned up until the next day. Sometimes accidents can bring significant discoveries. Actually, there are only two laboratories in the world that can produce the proteins involved in this material formation efficiently and in large quantities, and one of these laboratories is in the Department of Physics at Swansea University.

I am really proud and excited to be part of this team, to contribute to new discoveries and to develop the potential of this interesting material. The Department of Physics provides a dynamic, stimulating and multicultural working environment and gives students the opportunity to develop new skills and leadership abilities and I am really happy that I chose to come here for my PhD.

I am a PhD student in the Department of Physics and the student representative in the Swansea-Grenoble Co-tutelle programme. I am undertaking a joint degree with Université Grenoble Alpes which involves spending 18 months in Swansea and 18 months in Grenoble.

Valeria

PhD PHYSICS – JOINT DEGREE WITH UNIVERSITÉ GRENOBLE ALPES

Applied Physics and Materials Research Group
Politics, public policy, international relations, philosophy and development studies are disciplines that have explored different visions for a more just society for thousands of years, and as a result are able to address some of today’s most pressing challenges.

Whether you are interested in theory, the study of government and politics or international relationships, we have a strong emphasis on producing original research. In the latest (2014) Research Excellence Framework, 70% of our staff research activity was judged ‘world-leading’ (4*) or ‘internationally excellent’ (3*). These subjects ask the key research questions that we need to address to lead in the development of international scholarship.

For more detailed course content, including a full module list, visit: swansea.ac.uk/postgraduate/

BRITISH STUDIES
Entry Requirements
Typically a 2.1 honours degree (55% in each compartment or an equivalent qualification). English Language Requirement: IELTS 6.5 (minimum of 5.5 in each compartment) or Swansea University recognised equivalent.

DEVELOPMENT AND HUMAN RIGHTS MA
This MA is a multidisciplinary scheme combining insights from the fields of development studies, politics/ political theory and international law. The programme examines the comparatively new interface between human rights and international development.

Modules typically include:
• Approaches to International Relations
• Critical Security
• The Global Governance of Drugs
• Human Rights and Humanitarian Intervention
• International Human Rights Law
• Rights Based Approaches to Development
• Violence, Conflict and Development

INTERNATIONAL RELATIONS MA
This MA offers advanced research in International Relations, providing students with a detailed understanding of the international system, key issues, the crucial actors, and alternative ways of analysing and interpreting the subject. With an appreciation of the global dynamics at work, you then have the opportunity to specialise in examining specific areas of the world.

INTERNATIONAL SECURITY AND DEVELOPMENT MA
Issues of security, violence and conflict have become central to international politics and to developing policy and discourse. In order to comprehend the modern world, a full appreciation of the realities of conflict and violence has become essential.

Modules typically include:
• Approaches to International Relations
• Critical Security
• The Global Governance of Drugs
• Human Rights and Humanitarian Intervention
• Postcolonialism, Orientalism and Eurocentrism
• Rights-based Approaches to Development
• Violence, Conflict and Development

INTERNATIONAL SECURITY AND DEVELOPMENT MA (EXTENDED)
This Extended MA programme combines the MA International Security and Development with a period of study abroad. The study abroad is one additional semester taken in the Department of International and Area Studies at The University of Oklahoma, USA. The additional semester makes the EMA equivalent in credits to a European MA.

POLITICS MA
The MA in Politics provides a broad introduction to the study of politics, covering the structures and processes of contemporary politics. It then allows students to select options that focus on global, comparative and/or British politics as well as political theory and philosophy. The degree is enriched by possible opportunities (awarded on a competitive basis) for work-based placement learning in a variety of governmental and non-governmental sectors within Wales.

Modules typically include:
• Comparative Governance in Complex Systems
• Critical Security
• Democracy and Constitutional Design
• Devolution in Comparative Perspective
• The Global Governance of Drugs

INTERNATIONAL SECURITY AND DEVELOPMENT MA (EXTENDED)
This extended MA programme combines the MA Public Policy with a period of study abroad. This study abroad is one additional semester taken at the Bush School of Government and Public Service at Texas A&M, USA. The additional semester makes the EMA equivalent in credits to a European MA.

POLITICS MA (EXTENDED)
This extended MA programme provides a solid grounding in the key theoretical approaches to the study of public policy, and seeks to develop the knowledge and skills of those wishing to engage in further academic study. At the same time, it focuses on the necessary skills involved in working in a public policy landscape now increasingly characterised by change and interdependence.

Consequently, it will also develop the knowledge and skills of those wishing to, or already pursuing a career in public policy research, policy advice, lobbying, public sector management or journalism.

Modules typically include:
• Comparative Governance in Complex Systems
• Critical Security
• Democracy and Constitutional Design
• Devolution in Comparative Perspective
• The Global Governance of Drugs
• Human Rights and Humanitarian Intervention
• Politics in Contemporary Britain
• The Policy Making Process
• War, Identity and Society

PUBLIC POLICY MA
The Public Policy MA provides a solid grounding in the key theoretical approaches to the study of public policy, and seeks to develop the knowledge and skills of those wishing to engage in further academic study. At the same time, it focuses on the necessary skills involved in working in a public policy landscape now increasingly characterised by change and interdependence.

Consequently, it will also develop the knowledge and skills of those wishing to, or already pursuing a career in public policy research, policy advice, lobbying, public sector management or journalism.

Modules typically include:
• Comparative Governance in Complex Systems
• Critical Security
• Democracy and Constitutional Design
• Devolution in Comparative Perspective
• The Global Governance of Drugs

PUBLIC POLICY MA (EXTENDED)
This extended MA programme combines the MA Public Policy with a period of study abroad. This study abroad is one additional semester taken at the Bush School of Government and Public Service at Texas A&M, USA. The additional semester makes the EMA equivalent in credits to a European MA.

SCHOLARSHIPS AND BURSARIES
A range of postgraduate scholarships and bursaries are available.

For more detailed course content, including a full module list, visit: swansea.ac.uk/postgraduate/
We welcome new proposals for postgraduate research projects that complement staff research interests.

Staff research interests cover three broad areas:

• Political and cultural theory: This focuses on political theory and philosophy related to developments in globalisation, democracy, liberal culture, sovereignty, civil society, religion, and new media technologies. Specialisms include: liberalism and its critics, human rights, continental political thought, poststructuralism, and theories of gender and masculinity.

• Political Analysis and Governance: This focuses on empirical studies of government, politics and public policy with a strong interest in theory and methods. Specialisms include: comparative politics, regional politics, policy studies, development politics, civic participation in Europe, the EU, Eastern Europe and political economy. American politics, UK politics, devolution and local government, quantitative methods, populism, elections.

• International politics and inter-cultural communication: This focuses on the study of various dimensions of conflict, power and empire. Specialisms include: Just War theory, security studies and terrorism, space policy, politics under Empire and in post-colonial states, terrorism, post-conflict reconstruction, international drugs policy, conflict education, and civil wars and genocides. Area specialisms include: South-East Asia; the Middle East and Africa.

The research side of the Department of Political and Cultural Studies centres around four key research groups – each grouping staff and their research students according to overlapping areas of specialism. Postgraduate research students will be able to engage in a wide range of training and dissemination events through these groups, as well as participating in their governance. For details of each of these groups, please see the below:

RESEARCH CENTRES

• Centre on Digital Arts and Humanities (CODAH)
• International Studies, Conflict and Security (ISCAS)
• Political Analysis and Governance (PAG)
• The Global Drug Policy Observatory

All research students in Politics, International Relations, International Security, Philosophy, Public Policy and Development Studies belong to the Graduate Centre, providing pastoral as well as administrative support and is also responsible for research skills training and support, and facilitating a lively intellectual environment for the College’s postgraduate research community of 200 students.

As an undergraduate, he spent 6 months in war-torn Sierra Leone to interview recently demobilised child soldiers and then went to Cambodia to study the reintegration process of Khmer Rouge fighters. Following his graduation, he worked for Save the Children evaluating their demobilisation and reintegration programmes for ex-child soldiers in Liberia. For his PhD he returned to Sierra Leone to study the infamous RUF rebel movement, resulting in the monograph ‘War and the Crisis of Youth in Sierra Leone’ (2012, Cambridge University Press). His current research – funded by ESRC/DFID – looks into the role of rural road construction and its impact on poverty alleviation in post-war rural Liberia. Many of the ex-combatants Krijn interviewed have become part of West Africa’s booming motorbike taxi sector, but aid donors and governments remain reluctant – without hard data – to invest in what has become the most common means of rural (and urban) motorised transport. Krijn strongly believes that university education should be based as much as possible on real-life research.

As an undergraduate, he spent 6 months in war-torn Sierra Leone to interview recently demobilised child soldiers and then went to Cambodia to study the reintegration process of Khmer Rouge fighters. Following his graduation, he worked for Save the Children evaluating their demobilisation and reintegration programmes for ex-child soldiers in Liberia. For his PhD he returned to Sierra Leone to study the infamous RUF rebel movement, resulting in the monograph ‘War and the Crisis of Youth in Sierra Leone’ (2012, Cambridge University Press). His current research – funded by ESRC/DFID – looks into the role of rural road construction and its impact on poverty alleviation in post-war rural Liberia. Many of the ex-combatants Krijn interviewed have become part of West Africa’s booming motorbike taxi sector, but aid donors and governments remain reluctant – without hard data – to invest in what has become the most common means of rural (and urban) motorised transport. Krijn strongly believes that university education should be based as much as possible on real-life research.

The above mentioned study and a number of other research projects on youth and technology, in which Krijn is involved, form the bedrock of a new and exciting MSc degree at Swansea University, in collaboration with the Prince’s Foundation, entitled ‘Sustainable Engineering for International Development’.

I strongly believe that university education should be based as much as possible on real-life research.

Dr Krijn Peters is a rural development sociologist who has specialised in armed conflict and post-war reconstruction in non-Western countries. Educated at Wageningen University in the Netherlands, he learned to appreciate the importance of fieldwork.

As an undergraduate, he spent 6 months in war-torn Sierra Leone to interview recently demobilised child soldiers and then went to Cambodia to study the reintegration process of Khmer Rouge fighters. Following his graduation, he worked for Save the Children evaluating their demobilisation and reintegration programmes for ex-child soldiers in Liberia. For his PhD he returned to Sierra Leone to study the infamous RUF rebel movement, resulting in the monograph ‘War and the Crisis of Youth in Sierra Leone’ (2012, Cambridge University Press). His current research – funded by ESRC/DFID – looks into the role of rural road construction and its impact on poverty alleviation in post-war rural Liberia. Krijn strongly believes that university education should be based as much as possible on real-life research.

The above mentioned study and a number of other research projects on youth and technology, in which Krijn is involved, form the bedrock of a new and exciting MSc degree at Swansea University, in collaboration with the Prince’s Foundation, entitled ‘Sustainable Engineering for International Development’.
Based in a thriving research environment that enthuses academic staff, research officers and students alike, we have earned an outstanding reputation both in the UK and internationally. According to the latest (2014) Research Excellence Framework, we are one of only four psychology departments in the UK to achieve a 100% 4* rating (maximum score possible) for the research and significance of our work in areas such as psychopharmacology, nutrition, human performance, sleep and cognitive and clinical neuroscience. Our state-of-the-art research facilities include a high density electroencephalography (EEG) suite, a fully fitted sleep laboratory, a social observation suite, eye-tracking, psychophysiological, transcranial direct current stimulation (tDCS), and conditioning labs, a fMRI scan and baby room, plus more than 20 all-purpose research rooms.

**Laboratory and Research Facilities**

- High density EEG suite
- Sleep laboratory
- Social observation suite
- Eye-tracking equipment
- Psychophysiological research facilities
- Transcranial direct current stimulation (tDCS)
- Conditioning labs
- fMRI scan
- Baby room

**Research Opportunities**

- Internationally recognised research department
- Outstanding reputation both in the UK and internationally
- 100% 4* rating in the latest Research Excellence Framework

**Postgraduate Programmes**

- **Clinical Psychology and Mental Health MSc**
  - Core modules include: Affective Disorders and Trauma, Coping with Chronic Disease, Eating Disorders, Generic Research Skills in Clinical Psychology and Mental Health, Neuropsychology, Psychotherapy, Psychopathology and Sexual Offending, Psychosis, Research Project, Statistical and Research Methods
  - A minimum of a UK 2:1 degree in Psychology or a related discipline, or equivalent, is required.

- **Clinical Neuropsychology MSc**
  - Core modules typically include: Basic IMRI Analysis, Critical Issues in Cognitive Neuroscience, EEG Analysis, Experimental Design – Brain Stimulation, Brain Recording and Neuroimaging, Introduction to Python for Psychology, Neuropsychology, Statistical Methods, Structure and Function of the Brain
  - A high density EEG suite, a fully fitted sleep laboratory, a social observation suite, eye-tracking, psychophysiological, transcranial direct current stimulation (tDCS), and conditioning labs, a fMRI scan and baby room, plus more than 20 all-purpose research rooms.

- **Forensic Psychology MSc**
  - Core modules have been designed to provide a thorough grounding in Forensic Psychology as required for Stage 1 training as a forensic psychologist. You will develop and apply psychology knowledge to criminal investigation processes, working with those who offend and working with other professionals in the criminal justice system. This course has excellent links with the statutory and third sector, including probation, prison, forensic mental health and third sector services. Staff from these teams are actively involved in students with exceptional learning and research opportunities.
  - Modules typically include: Legal and Criminalistic Psychology Research and Statistical Methods, Professional Issues in Forensic Psychology Practice, Research Project, Research Skills for Forensic Psychology, Understanding and Working With Those Who Offend

- **Clinical and Health Behaviour MSc**
  - RESEARCH METHODS IN PSYCHOLOGY MSc
    - Core modules typically include: Basic IMRI Analysis, Critical Issues in Cognitive Neuroscience, EEG Analysis, Experimental Design – Brain Stimulation, Brain Recording and Neuroimaging, Introduction to Python for Psychology, Neuropsychology, Statistical Methods, Structure and Function of the Brain

- **Research Degrees**
  - MPhil/PhD: Applicants should have a UK first or 2:1 honours degree, or equivalent, in a discipline related to the proposed research project.

**Entry Requirements**

- A UK 2:1 or a 2:2 honours degree in psychology or a related discipline, or equivalent
- English Language Requirement: IELTS 6.5 (minimum of 6.5 in each component) or Swansea University recognised equivalent

**Scholarships and Bursaries**

- We offer a range of funding opportunities for both taught and research degrees: [swansea.ac.uk/postgraduate/scholarships]

**TAUGHT COURSES**

- **Clinical Psychology and Mental Health MSc**
  - Core modules include: Affective Disorders and Trauma, Coping with Chronic Disease, Eating Disorders, Generic Research Skills in Clinical Psychology and Mental Health, Neuropsychology, Psychotherapy, Psychopathology and Sexual Offending, Psychosis, Research Project, Statistical and Research Methods
  - A minimum of a UK 2:1 degree in Psychology or a related discipline, or equivalent, is required.

- **Clinical Neuropsychology MSc**
  - Core modules typically include: Basic IMRI Analysis, Critical Issues in Cognitive Neuroscience, EEG Analysis, Experimental Design – Brain Stimulation, Brain Recording and Neuroimaging, Introduction to Python for Psychology, Neuropsychology, Statistical Methods, Structure and Function of the Brain

- **Forensic Psychology MSc**
  - Core modules have been designed to provide a thorough grounding in Forensic Psychology as required for Stage 1 training as a forensic psychologist. You will develop and apply psychology knowledge to criminal investigation processes, working with those who offend and working with other professionals in the criminal justice system. This course has excellent links with the statutory and third sector, including probation, prison, forensic mental health and third sector services. Staff from these teams are actively involved in students with exceptional learning and research opportunities.
  - Modules typically include: Legal and Criminalistic Psychology Research and Statistical Methods, Professional Issues in Forensic Psychology Practice, Research Project, Research Skills for Forensic Psychology, Understanding and Working With Those Who Offend

- **Clinical and Health Behaviour MSc**
  - RESEARCH METHODS IN PSYCHOLOGY MSc
    - Core modules typically include: Basic IMRI Analysis, Critical Issues in Cognitive Neuroscience, EEG Analysis, Experimental Design – Brain Stimulation, Brain Recording and Neuroimaging, Introduction to Python for Psychology, Neuropsychology, Statistical Methods, Structure and Function of the Brain

**RESEARCH COURSES**

- **Entry Requirements**
  - MPhil/PhD: Applicants should have a UK first or 2:1 honours degree, or equivalent, in a discipline related to the proposed research project.

**Postgraduate Programmes**

- **Clinical Psychology and Mental Health MSc**
  - Core modules include: Affective Disorders and Trauma, Coping with Chronic Disease, Eating Disorders, Generic Research Skills in Clinical Psychology and Mental Health, Neuropsychology, Psychotherapy, Psychopathology and Sexual Offending, Psychosis, Research Project, Statistical and Research Methods
  - A minimum of a UK 2:1 degree in Psychology or a related discipline, or equivalent, is required.

- **Clinical Neuropsychology MSc**
  - Core modules typically include: Basic IMRI Analysis, Critical Issues in Cognitive Neuroscience, EEG Analysis, Experimental Design – Brain Stimulation, Brain Recording and Neuroimaging, Introduction to Python for Psychology, Neuropsychology, Statistical Methods, Structure and Function of the Brain

- **Forensic Psychology MSc**

**Study Psychology at Swansea University**

For more detailed course content, including a full module list, visit: [swansea.ac.uk/postgraduate](http://swansea.ac.uk/postgraduate)
managing illness and health risks is an increasingly
important field of study. Research students are currently
examining the psychological factors in promoting good
health, and developing interventions to encourage
children, young people, and pregnant women to
engage in healthy lifestyle behaviours.

I chose the Clinical Psychology and Mental
Health master’s at Swansea University to develop
the clinical skills I needed to achieve my career
goals. The course involves developing a thorough
understanding of the theory and practice of
clinical psychology, including developing personal
views on the appropriateness of diagnosis,
understanding the importance of psychological
formulation and critically analysing the
effectiveness of treatments.

On my first day, we were introduced to our
lecturers. It was great to meet so many people who
felt so enthusiastic about improving mental health
services and I enjoyed interacting with academic
staff and discussing their research.

The course gives students the opportunity to
contribute to the scientific community by
undertaking research alongside world-class
academics…I really enjoyed planning and
conducting my own research project. My
supervisor was supportive of all my ideas
and encouraged me to choose a subject
about which I felt passionately.

Since graduating, I’ve taken an Assistant
Psychologist role with South London and Maudsley
NHS Foundation Trust, working with young people
with eating disorders. The course has really
enhanced my understanding of mental health
and clinical psychology and these skills will
allow me to continue to grow as a psychological
practitioner, and give me the confidence to
train as a clinical psychologist.

Swansea University is bringing about real-life benefits for the social care, voluntary
and private sectors. Our work is making positive impacts on service users, practitioners,
managers and policy makers across a range of areas, including: mental health, inclusion,
wellfare, older people, children and families, service organisation and workforce practices.

Our academic team is made up of highly-respected, internationally-published professionals active
in a range of research areas including criminology, social work, human geography, research leadership and
management. Our programmes are accredited by bodies including Social Care Cymru and the Economic and
Social Research Council (ESRC) and we have excellent links with local authorities and voluntary sector
organisations across south and west Wales.
• Social Work Skills and Knowledge in Practice
• Theories and Perspectives for Informing Social Work
• Undertaking and Using Social Work Research for Practice

Entry Requirements
A UK degree (2:2 or above) in a social work/social science related discipline, plus Maths and English or Welsh GCSE at grade A*-C or equivalent. You will need to demonstrate awareness and understanding of the Code of Professional Practice for Social Care and have relevant employment/experience, with a minimum of 300 hours social care work experience. This may involve voluntary or paid work in social care with individuals, groups or communities.

We invite applications from well-qualified candidates whose research interests correspond to our areas of research expertise.

MENTAL HEALTH MPhil/PhD

Developing and evaluating effective evidence-based mental health services to support people at some of the most challenging times of their lives depends on high quality research. Currently students are looking at evidence-based practices in mental health (in particular early intervention services), care co-ordination in forensic mental health care and the influence of service user participation in professional role development.

SOCIAL POLICY MSc By Research/ MPhil/PhD

What human beings need and how societies meet those needs is at the heart of social policy. Our research addresses key contemporary social issues from national and international perspectives, examining themes such as social justice, equality, fairness, and citizenship.

SOCIAL WORK AND SOCIAL CARE MPhil/PhD

Our research generates vital new knowledge about developments that have an impact both on the social care workforce and on service provision, addressing social outcomes such as quality of life, social inclusion and social capital measures.

SOCIOLOGY PhD/MPhil

Build your interest in sociology and extend your knowledge in a dynamic research environment, with a strong focus on research training. Our team of multi-disciplinary staff can offer supervision across a wide range of social science research themes and methods. Their work reflects shared principles of promoting social justice, equality and diversity as a basis for human well-being. Our research plays a vital role in emerging and novel intellectual areas and addresses the widest range of trends, problems and dilemmas of a rapidly changing social world.

PhD applicants would normally have, or be studying for, a master’s degree, while our MPhil programmes require a first or upper second class degree in a discipline related to the proposed research project, or a relevant approved postgraduate qualification. MSc By Research applicants should have a first or a 2:1 (or equivalent) in an undergraduate degree from a UK or other approved university.

English Language Requirement
IELTS 6.5 (minimum of 6.5 in each component) or Swansea University recognised equivalent.

SOCIAL WORK AND SOCIAL POLICY SINGLETON PARK CAMPUS

Having an MSc in Social Work helped me to gain immediate employment, as well as the knowledge, skills and understanding necessary to move confidently into a diverse range of settings, from childcare to mental health. I feel very privileged to have had the opportunity to study and embark upon a new career in adult social services and enjoyed the whole course. I particularly enjoyed studying ethics and values. It helped me to articulate my own values, to justify my decisions and to question those of others with greater confidence.

The course included an equal balance of class based study and placement learning opportunities, allowing me to develop a range of practical skills and the theoretical understanding needed to practice with confidence. There was a strong emphasis on reflective practice which enabled me to not only see how these elements fitted together, but also to consider how my personal values could impact upon my practice.

Writing my dissertation was probably the most challenging experience, but also the most rewarding. It taught me the value of perseverance and open mindedness, as well as arousing an interest in undertaking further research in the future.

I would definitely recommend Swansea University to other students. It is a friendly university with supportive staff.
The latest (2014) Research Excellence Framework (REF) ranks us 5th in the UK for research impact and 15th for overall research quality. 72% of our research is rated ‘world-leading’ (4*) or ‘internationally excellent’ (3*). We have well-established links with organisations and commercial partners such as Diabetes UK, the Sugar Bureau, Haemair, Haemaflow Ltd, Play Wales, Aberdare Bro Morganwg and Hywel Dda NHS Trusts, the Welsh Rugby Union, the Premier League, and Active Swansea.

We also work with elite sports teams including UK Sport, Swansea City FC, Scarlets Rugby, Biarritz Rugby, Ospreys Rugby, WRU 7s, GB Swimming, and GB Bobsleigh. Our staff regularly consult in exercise settings with populations with chronic disease, including diabetes, cardiac rehabilitation and renal care.

**SPORTS ETHICS AND INTEGRITY MA**

- Responding to the global crisis in sports integrity, this course is a world-first innovation for sports administration and governance. The MAiSI will equip students for high-level careers in sports administration and governance, with a focus on ethical sports, integrity and compliance. Students will receive training that enables them to identify ethical issues, engage in moral thinking, and translate decisions into moral actions – the three core skills required to develop sports integrity.

  - **Modules typically include:**
    - Ability, Disability and Sports Integrity
    - Advanced English for Sports Ethics and Integrity
    - Anti-doping Ethics, Policy and Practice
    - Ethical Theory, Sports Ethics and Integrity
    - Governance, Law and Sport Integrity
    - Olympism and the Olympic Movement
    - Research Methods and Skills
    - Sports Management and Integrity
    - Sport Values, Fair Play and Integrity

**SPORTS SCIENCE MSc**

- **Entry Requirements**
  - Typically a 2.1 honours degree in a relevant discipline.

- **English Language Requirement**
  - IELTS 6.5 (minimum of 5.5 in each component) or Swansea University recognised equivalent.

- We invite applications from well-qualified candidates whose research interests correspond to our areas of research expertise in elite and professional sports, exercise, medicine and health or sports ethics, integrity and governance.

  - **Recent MSc By Research topics include:**
    - Understanding the influence of air quality on physical activity in youth in order to develop specific nudges to promote physical activity and reduce Asthma attacks
    - Moving together: A technology-based intergenerational intervention to increase physical activity and well-being in older adults and children
    - Exercise in cystic fibrosis – effects on physiological and psychological parameters

**RESEARCH COURSES**

- **Entry Requirements**
  - Typically a 2.1 honours degree or above in sports science or a relevant subject or an equivalent qualification.

- **English Language Requirement**
  - IELTS 6.5 (minimum of 5.5 in each component) or Swansea University recognised equivalent.

- Recent PhD topics include:
  - Pre-competition and recovery strategies in elite sport: the use of vascular occlusion and ischemia
  - Fairness and Difference: An Ethical and Philosophical Framework for Classification in Paralympic Sport
  - Protecting the Health and Wellbeing of Children in Sport
  - Understanding, promoting, and protecting the wellbeing of competitive swimmers

Please check out our website for a full list of research projects available.
War has been the powerful catalyst for change throughout history. It inflicts terrible suffering and degradation, yet evokes great bravery and heroism, and inspires great art.

This programme asks critical questions about conflict, society, war, culture and politics. Is war a cultural or a political activity? Can the logic of peace lead to the logic of war? To what extent is technology the deterministic factor in winning a modern military conflict? Is there ever a case for a ‘just war’? How do ordinary people experience military conflict, and what are the cultural and artistic responses to war?

Among our research interests are militarisation of society and culture, laws and ethics of war, World War I and II, Spanish Civil War, and post-war reconstruction.

**TAUGHT COURSES**

**Entry Requirements**
Typically a 2:2 honours degree or Swansea University recognised equivalent (with an overall average of 55%, or above). Typical entry requirement is a degree in any background.

**English Language Requirement**
IELTS 6.5 (minimum of 5.5 in each component) or Swansea University recognised equivalent.

**SCHOLARSHIPS AND BURSARIES**
A range of postgraduate scholarships and bursaries are available. [swansea.ac.uk/postgraduate/scholarships](http://swansea.ac.uk/postgraduate/scholarships)

**WAR AND SOCIETY MA**

The MA in War and Society is an advanced, interdisciplinary degree that stands at the intersection of history, memory studies, political science, and strategy studies. Located in the Department of Political and Cultural Studies, War and Society draws on the strength of history, American studies, classics, ancient history and Egyptology, politics and international relations, as well as literature and media and communication.

Modules typically include:
- Critical Security
- Digital War
- Fascism and Culture
- Human Rights and Humanitarian Intervention
- Introduction to Advanced Medieval Studies
- Terrorism, Conflict, and the Media
- Violence, Conflict and Development
- War, Identity and Society
- War, Technology and Society

For more detailed course content, including a full module list, visit: [swansea.ac.uk/postgraduate](http://swansea.ac.uk/postgraduate)

**RESERCH COURSES**

**Entry Requirements**
Typically a 2:1 honours degree or above in Welsh or in a related subject. Relevant experience alongside a portfolio of recent work may be considered.

**Linguistic Ability**
The applicant’s qualifications and experiences should highlight their linguistic ability, but this could be discussed during an interview. Research can be conducted through the medium of Welsh or English.

**SCHOLARSHIPS AND BURSARIES**
We offer a range of funding opportunities for both taught and research degrees. Our students hold a master’s degree, but please contact us to discuss any questions.

**WAR AND SOCIETY MA By Research**

We welcome applications from students wishing to pursue graduate level research. Prospective MA students and those who are interested in MPhil/PhD, are encouraged to contact the Political and Cultural Studies postgraduate research director, Dr Dennis Schmidt ([d.r.schmidt@swansea.ac.uk](mailto:d.r.schmidt@swansea.ac.uk)) to explore possible supervision teams and topics. The War and Society MA programme is closely connected to the research strengths of the academic staff who are actively involved in the International Studies, Conflict and Security (ISCAS) research group. Its members produce world-class research in the areas of conflict and security, empire and past colonialism, conflict and development, ‘digital’ war, and war and culture. ISCAS also seeks to promote collaboration between scholars, policymakers and cultural providers.

As a War and Society research student you will be part of the Graduate Centre, providing pastoral as well as administrative support and is also responsible for research skills training and support, and facilitating a lively intellectual environment for the College’s postgraduate research community of 200 students.

For more detailed course content, including a full module list, visit: [swansea.ac.uk/postgraduate](http://swansea.ac.uk/postgraduate)

**PROFESSIONAL TRANSLATION MA**

This is an ideal degree for those wishing to work within the translation profession. It stresses the importance of good grammar and writing skills and the use of translation memory software. The course looks at translating for the public along with a more technical way of translating for specialists. A variety of techniques are used to develop the student’s standard of translation, including work experience. The combination of translation memory software and developing language standards through feedback is a great asset for graduates.

The programme includes:
- Advanced Translation modules in the fields of education, public health and law, where the focus will be on the standard of your personal translating
- A module on translation technology, where you will learn how to use different programmes
- Several other modules in theory and the use of translation, alongside the opportunity to learn a new language
- An opportunity to gain valuable contacts and work experience with translation companies

**RESEARCH COURSES**

**Entry Requirements**
Typically a 2:1 honours degree or above in Welsh or Swansea University recognised equivalent qualification in Welsh or in a related subject. It is desirable that PhD candidates already hold a master’s degree, but please contact us to discuss any questions.

**Linguistic Ability**
The applicant’s qualifications and experiences should highlight their linguistic ability, but this could be discussed during an interview. Research can be conducted through the medium of Welsh or English. Students can attend language courses for Welsh learners.

**WELSH MA By Research/MPhil/PhD**

We invite applications from well-qualified candidates whose research interests correspond to our areas of research expertise:
- Bilingualism and Language Planning
- Creative Writing
- Culture and Place
- The Historiography of the Welsh Language
- Language Law and Policy
- Literary Theories
- Sociolinguistics
- Techniques and the Technology of Translation
- Theatre, Film and Drama
- Welsh for Adults and Language Acquisition

**Gaining a further degree in Welsh is an exciting and varied experience, which nurtures understanding and creativity as we search for new ways to interpret and contribute to the cultural life of Wales and its language.**

The latest (2014) Research Excellence Framework (REF) ranked Welsh at Swansea University as 1st from those departments which submitted their work to the Celtic Studies sub-panel, and 2nd for Celtic Studies in the UK. It ranked 100% of our research as ‘world-class’ or above, and 69% of the research presented as of international excellence or leading the field internationally (3-4*). Our expertise includes language projects, language law and policy, literature of all periods, literary criticism and creative writing.

**WAR AND SOCIETY MA**

The MA in War and Society is an advanced, interdisciplinary degree that stands at the intersection of history, memory studies, political science, and strategy studies. Located in the Department of Political and Cultural Studies, War and Society draws on the strength of history, American studies, classics, ancient history and Egyptology, politics and international relations, as well as literature and media and communication.

Swansea University’s Alumni Network ensures that you can stay closely connected to the University long after the applause of your graduation ceremony has faded.

All our graduates automatically become life members of the Network, a warm, welcoming community of graduates united by their experiences of studying in Swansea.

The Network is a vibrant group of 80,000 active members who are working at every level in industry, commerce, sport and the public sector. They are heading divisions of multinational companies, but they are just as likely to be managing the smaller, entrepreneurial businesses that drive the economy, or delivering healthcare in hospitals, or teaching in schools.

There is also a growing community of international alumni, meaning that you will find like-minded friends and colleagues wherever you are in the world. Make the most of this network. You never know what doors may be opened in the UK or overseas as a result of the relationships forged through being an alumnus of Swansea University.

Get connected at: swanseauniconnect.com

FEES AND FUNDING

We commit to a significant investment in postgraduate education. In 2020/21 over £8 million in scholarships and bursaries were available to study postgraduate courses at Swansea University.

Our master’s scholarships are available across all academic colleges and schools and advertised throughout the year, offering funding to UK, EU and International students.

TUITION FEES

Tuition fees are determined by your year of study, the type of course you are undertaking and your country of domicile.

You will be asked to pay your fees, or show evidence of sponsorship, before or during enrolment. You can find tuition fee details for each course on our website:

swansea.ac.uk/postgraduate/
fees-and-funding

Tuition fees are subject to annual increases and the new rates are published on our website as soon as they become available.

If you would like more information on the fees payable for your particular programme, please contact the Student Finance Office on:
+44 (0)1792 602700
studentfinance@swansea.ac.uk

Please check our Fees and Funding web page before making an application to study at Swansea.

swansea.ac.uk/postgraduate/
fees-and-funding

Please note, for the MRes Biosciences programme, a bench fee of £1,000 is required in addition to the tuition fee.

FUNDING

There are now more ways than ever to fund your postgraduate studies. As well as the scholarships and bursaries that Swansea University provides, postgraduate funding is available from numerous organisations, including the Student Loans Company, research councils, industry and charities. Many postgraduate students fund their studies through ‘portfolio funding’ in which they gather funds from a variety of sources. Examples of the types of funding available include:

POSTGRADUATE GOVERNMENT FUNDING

Postgraduate government funding is available to all UK and eligible EU domiciled students (with settled or pre-settled status) studying master’s and PhD level courses at a UK university. The method of application and amount you could receive is dependent on your country of domicile. You can find all the latest information on our website:

swansea.ac.uk/postgraduate/
fees-and-funding/pg-loans

SWANSEA UNIVERSITY MASTER’S SCHOLARSHIPS AND BURSARIES

We advertise a range of master’s scholarships and bursaries throughout the academic year.

All opportunities are listed on the following website, and are updated regularly:

swansea.ac.uk/postgraduate/
scholarships/taught

RESEARCH PROGRAMME SCHOLARSHIPS

Swansea University research scholarships are listed via the link below. (Please note that this web page is updated throughout the year.)

swansea.ac.uk/postgraduate/
scholarships/research

Details of how to apply for a scholarship are listed on each individual advert.

TRANSITIONAL BURSARY SCHEME FOR EU STUDENTS

At Swansea, we wish to support EU students that will be affected by the change in fee status, and we will be offering students an EU Transitional Bursary*. The bursary will be awarded as an automatic discount to tuition fees and will reduce the fees to the same level as UK tuition fees for those that are eligible. This will apply for the duration of your course.

*conditions apply, for further information, please visit:

swansea.ac.uk/international-
students/my-finances/
international-scholarships

INTERNATIONAL EXCELLENCE SCHOLARSHIPS

In recognition of the high calibre of many international students choosing to study at Swansea University and to reward academic excellence, we have launched the prestigious International Excellence Scholarships offering up to £4,000 for eligible postgraduate taught courses. For further information, please visit:

swansea.ac.uk/international-
students/my-finances/
international-scholarships/
pg-scholarships/non-EU

countries.

INTERNATIONAL TRANSITIONAL BURSARY

We offer an EU Transitional Bursary which is a one off bursary which is a one off payment per course.

INTERNATIONAL SCHOLARSHIPS AND BURSARIES

Many of our academic faculties also offer additional scholarships and bursaries for taught and research programmes.

Scholarships and bursaries become available throughout the year and we advertise them on our website. You can be the first to know about the funding opportunities we offer by visiting:

swansea.ac.uk/postgraduate/
scholarships

INTERNATIONAL CRISIS FUND

We have also established a small fund to provide emergency assistance for international students who face financial difficulties not anticipated at the start of the course, and not within their control.

CHARITIES, FOUNDATIONS AND TRUSTS

A large number of charities, foundations and trusts award funding for postgraduate study. Details can be found in The Grants Register (published by Palgrave Macmillan) and The Directory of Grant Making Trusts (published by the Directory of Social Change), both of which should be available in your university careers service and local library.

FACULTY SCHOLARSHIPS AND BURSARIES

Many of our academic faculties also offer additional scholarships and bursaries for taught and research programmes.

Scholarships and bursaries become available throughout the year and we advertise them on our website. You can be the first to know about the funding opportunities we offer by visiting:

swansea.ac.uk/postgraduate/
scholarships

SUPPORT FOR CARE LEAVERS

We administer and deliver the Care Leavers Support Package, a comprehensive range of measures to help care leavers settle in and focus on their studies. Eligible postgraduate students can receive a postgraduate Care Leaver bursary which is a one off payment per course.

SWANSEA UNIVERSITY OPPORTUNITY AWARD

The hardship fund is intended to support students through any unexpected or difficult financial circumstances whilst at university. Each application will be considered and assessed on an individual basis, with the strictest confidentiality by our expert advisors.

For further information, please visit:

swansea.ac.uk/money-
campuslife/hardship-funds/

MONEY ADVICE AND SUPPORT

The Money@CampusLife team provide guidance on all areas of student funding, including:

- Grants, loans, bursaries and welfare benefits
- Helping you to manage your money
- Supporting care leavers
- Opportunity Award
- Helping you to draw up a realistic budget
- Debt advice
- +44 (0)1792 606699
- money.campuslife@swansea.ac.uk
The quickest and most efficient way to apply for one of our postgraduate programmes is to apply online. This way, you can also track your application at each stage of the process:

- swansea.ac.uk/applyonline

Please contact the Admissions Office if you would prefer to complete a paper application:

+44 (0)1792 295358
study@swansea.ac.uk

When we receive your application, we will:

- Make sure that you meet our academic entry requirements and non-academic requirements (if appropriate)
- Check that you have the experience and skills necessary to study the subject
- Look for evidence of your commitment, motivation and your achievements
- Take into account your references

**Research Degree Applications**

In order to allow sufficient time for consideration of your application by an academic, for potential offer conditions to be met and travel/ relocation, we recommend that applications are made before the dates outlined below:

Please note that applications can still be submitted outside of the suggested dates below but there is the potential that your application/ potential offer may need to be moved to the next appropriate intake window.

**October Enrolment**
- UK Applicants – 15th August
- EU/International applicants – 15th July

**January Enrolment**
- UK applicants – 15th November
- EU/International applicants – 15th October

**April Enrolment**
- UK applicants – 15th February
- EU/International applicants – 15th January

**July Enrolment**
- UK applicants – 15th May
- EU/International applicants – 15th April

**Interviews**

The majority of programmes do not require an interview as part of the selection process. If an interview is required, the purpose and format will be communicated to you, so you know what to expect and what role this plays in the overall selection process. Some programmes (for example, MA Creative Writing) require candidates to provide additional written work to supplement an application.

Following consideration of your application, you will be informed whether:

- You are to be offered a place
- You are to be invited for interview
- You are unable to offer you a place

You will receive either a conditional or unconditional offer from us, or we will inform you that we are unable to offer you a place. We will notify you of our decision by email.

Please note that formal offers are only made by the University’s Admissions Office, following recommendations from the relevant academic faculties. Your offer letter will contain full details of the terms and conditions of the offer. If you are a candidate for full-time study, you will also receive details of how to apply for University accommodation.

If you have a disability, medical condition, or a specific learning difficulty, you will be invited to contact the University’s Disability Office or Wellbeing Service so we can be sure that we are able to give you the support you need throughout your studies.

If, following receipt of our offer, you do not meet the precise conditions, your application may be reconsidered in light of available vacancies, and it may still be possible to confirm your place.

If your application is unsuccessful, and you think we’ve got it wrong, you can ask us to reconsider your application. Contact the Admissions Office for further details.

**Non-standard Application Process**

Some programmes have a different application process. Please visit the website to find out the application process for your chosen programme:

- swansea.ac.uk/postgraduate/apply/application-process

**What Do You Need?**

To study a postgraduate programme at Swansea you will normally need an appropriate honours degree or postgraduate qualification. Relevant work experience may also be considered for entry to taught degree programmes.

Please see the programme listings for detailed entry requirements.

**Dates and Deadlines**

Some of our departments have fixed closing dates for their taught programmes. Please see the individual programme entries for further information. We recommend that you submit your taught master’s applications as early as possible by the end of July for September intake and by the end of November for January intake, in the year you wish to start your studies. Please take note of scholarship deadlines as many of our taught scholarships and bursaries have closing dates earlier than dates mentioned above.

**Enrolment**

Information about the enrolment process will be sent to you in advance of the start of your studies. Enrolment for taught programmes usually takes place in early September for September entry and early January for January entry.

**Notes for International Students**

We welcome applications by prospective students from around the world, and we are happy to advise you on whether your qualifications are suitable for entry to the programme you would like to study.

Details of entry requirements for your country can be found at:

- swansea.ac.uk/postgraduate/apply/entry-requirements

If your qualification is not listed please email us at:

study@swansea.ac.uk

**English Language Requirements**

A full list of acceptable English language tests and qualifications can be found at:

- swansea.ac.uk/postgraduate/apply/english-language-requirements

You may also like to know that we offer our own professional, high quality English language training:

- swansea.ac.uk/english-language-training-services

**Our Admissions Policy**

The University welcomes applications and enquiries from people regardless of age, ethnic or national origin, race, religion, gender, sexual preference, marital status, family responsibility, physical or sensory disability, and political or religious beliefs and activities unless those activities are unlawful or contrary to the policies of the University. The University treats all applicants on their individual merits and welcomes applications from candidates with a range of qualifications and work experience.

Full details of our policies can be found at:

- swansea.ac.uk/admissions/admissions-policies
Taught Master’s

APPLICATION TIMELINE

Whether your course starts in September or January, it’s good to start thinking about postgraduate study options at least six months before the course starts.

01 START PLANNING
Are you thinking about continuing with your current subject or studying something completely different? You may also want to think about whether a taught course or a research programme is right for you. Our Postgraduate Open Days give you the opportunity to explore all of your options at our beach side campuses. Swansea University offers a range of great study, employability and funding schemes. It’s a good idea to contact your referees and prepare a personal statement before starting your application.

02 APPLY AND RECEIVE OFFER
You can apply directly to Swansea University for most of our postgraduate courses (with some exceptions). You can also find out if you have been offered a place to study on your chosen course usually within 9 working days.
You can apply by the end of July (for September entry) and end of November (for January entry) at the latest but don’t leave it too late as you may miss scholarship opportunities.

03 ACCEPT OFFER
Let us know within 28 days to ensure you secure a place on your chosen course.

04 APPLY FOR FUNDING
We offer a range of postgraduate scholarships in all subject areas, as well as alternative sources of funding. Applications for student finance usually open in June.

05 GET READY
You may want to start considering where you want to live whilst studying with us. There’s a range of flexible university and private accommodation options available in Swansea.

06 RESULTS
If you’re sitting any exams, please send us your results and if you meet the terms of your offer, your place to study at Swansea University will be confirmed. You will also find out if you have been successful with any university scholarship applications you may have made.

07 ENROL
Before you arrive in Swansea, you will receive full instructions about the enrolment process. All postgraduate students can also attend a faculty induction event – a great opportunity to meet new friends!
You can start your PhD at Swansea University in October, January, April or July. Give yourself 3 to 6 months to plan and research before submitting your application.

At Swansea, we offer two main types of PhD project:

- Those that are pre-designed by an academic (more common in science and engineering subjects)
- Those that you design yourself

FOR A PhD?

A pre-designed project will often be part of wider research being undertaken by an academic or research group. These usually have a defined title, fixed aims and objectives, and you’ll normally be supervised by the academic that designed the project. Swansea University advertises a large number of these opportunities throughout the academic year in all subject areas.

FUNDING:

Research scholarships at Swansea University usually provide funding for the duration of your studies.

There are also PhD loans available through Student Finance England and Student Finance Wales.

APPLICATION:

Applying is straightforward – you’ll just need to follow the instructions on the project advertisement.

These will usually have a specific application deadline so allow yourself plenty of time to complete any paperwork and gather references if required.

Self-designed project:

A self-designed PhD will take a little more effort and thought to get started, but you should ultimately end up with a project theme that truly excites and interests you.

CONTACT POTENTIAL SUPERVISORS:

After coming up with an initial idea for a project, you will need to identify and contact an appropriate academic supervisor.

A good starting point is to find the University department with the areas of strength that are most relevant to your research. You can use Swansea University’s online directory of expertise, speak to your current supervisor, attend a study fair or a Postgraduate Open Day.

FUNDING:

There are various ways to fund your PhD including loans, available through Student Finance Wales and Student Finance England.

FIND OUT MORE:

swansea.ac.uk/postgraduate/fees-and-funding/pg-loans

APPLICATION:

Once you have identified a potential supervisor for your own research idea, you’ll need to contact them prior to submitting a formal application. Academics welcome informal approaches from prospective students and they will also be able to help shape your research proposal. Do your research before you submit and take your time preparing. Good luck!
The following message contains some very important information.

This prospectus was printed in the summer of 2021. It contains information on the postgraduate programmes that Swansea University intends to run for students who are planning to start university in January 2022 and September 2022. We have made every reasonable steps to provide the services (including the programmes) described in this prospectus at the date of publication.

However, some changes, for example to: programmes, delivery of teaching, study location, international opportunities and destination, facilities or fees may become necessary due to legitimate staffing, financial, regulatory and academic reasons.

Should industrial action, external factors beyond the control of the University or government legislation and/or guidance interfere with its current ability to provide the services (as at the time of publication), the University will undertake to take all reasonable steps to minimise any disruption to the services. At the time of publication it is an ever changing landscape which we shall continually/periodically review.

We will endeavour at all times to keep any necessary changes to a minimum and to keep prospective students informed appropriately.

Any changes to the information contained in this prospectus will be updated on our website: www.swansea.ac.uk

We encourage students to visit our website to identify any updates to the information outlined in this prospectus, prior to making an application.

This prospectus isprinted on paper made from pulp produced from sustainable sources using vegetable-based inks.

This prospectus was printed in the summer of 2021. It contains information on the postgraduate programmes that Swansea University intends to run for students who are planning to start university in January 2022 and September 2022. We have made every reasonable steps to provide the services (including the programmes) described in this prospectus at the date of publication.
